Combination Bottle Syringe

Wardgrade Brand Molded in One Piece

Molded into one piece, without seams, binding, patches or splices. Even the socket, into which the stopper screws is molded into the rubber. The neck of the Wardgrade bottle is reinforced to take care of the strain which comes at this point. Many other hot water bottles are made of several pieces of rubber cemented together with binding.

Only scientifically treated live Para red rubber, which is soft and pliable and will not harden or crack is used in the manufacture of Wardgrade Hot Water Bottles, Syringes and Combinations. When you see and feel this bag you will recognize the quality we have put into it. Our prices are lower than those at which many inferior rubber goods are sold. Shipping weights: 2-quart size, 2½ pounds; 3-quart size, 3 pounds.

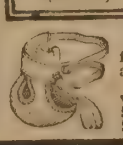
Consult Your Physician. Show him the illustrations on this page and let him help you. If possible have him measure you also. Measure full circumference of the body in line with the rupture. Avoid fullness of abdomen. The tape measure should lie straight across the back and at the waistline, and downward to place of rupture **All trusses are carried in even sizes, 30 to 44-inch measurement for adults: 14 to 28 inches for children. For odd measurements order the next larger even size. Larger sizes at an additional charge of 60¢ per truss. The larger than 44-inch trusses are made to order and therefore are not returnable.** Allow 8 to 10 days for making. **Shipped from Northern Illinois.**



IMPORTANT. Never order a truss for a child without first consulting your physician

Special Information on Ward's Elastic Stockings

These Stockings, hand woven from rubber covered threads interwoven with silk or cotton, are made from the best materials. They should never be exposed to anything greasy, such as ointments or liniments. Wash only in lukewarm suds—use only castile soap. Rinse thoroughly and dry between towels. Woven elastic garments are especially adapted in treating varicose veins.

To make elastic stockings and leggings properly, 8 days are required and this time should be allowed, when ordering. Since they are made according to the measurements you give they can not be used by any one else, therefore these goods can not be returned for credit. **Take measurement when limb is not swollen, preferably at time of rising in the morning.** Give snug measurements but do not draw tape so tight that it binds.

Salt Brick

Bitterlick Salt Brick has won a reputation among stockmen as a tonic, blood purifier, colic preventive and appetizer. Made of pure concentrated drugs, linseed and salt, compressed into bricks to avoid waste in feeding. Keep it where horses and cattle can reach it—they will take as much or as little as their system craves. For greater convenience use the metal holders for the bricks—place them at right height in the stall.

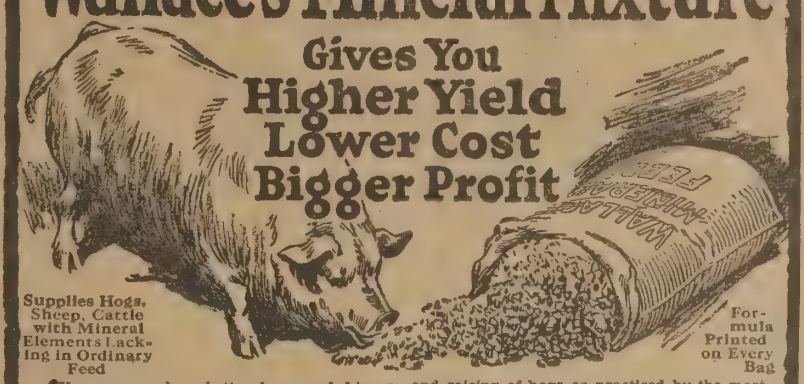
Burch's Santonin Hog Worm Capsules



Worms are the hog's worst enemy. They often mean the difference between profit and loss; for wormy hogs are unthrifty, fail to respond properly to their feed, usually become stunted in growth, and are unable to resist disease. For years Santonin has been recommended by competent authorities to rid hogs of worms. Burch's Santonin Worm Capsules contain 2½ grains each of Santonin and Calomel and five grains of Aloin, packed in pink tinted hermetically sealed capsules, ready for use. Absolutely remove worms—no specific in action that results must follow. Ship. wt., per box, 4 lbs.

Wallace's Mineral Mixture

Gives You Higher Yield Lower Cost Bigger Profit

Supplies Hogs, Sheep, Cattle with Mineral Elements Lacking in Ordinary Feed

Formula Printed on Every Bag

●You can produce better hogs and bigger hogs in less time by adding a good mineral mixture to the feed.

Whether you raise hogs for the market or for your own meat, you can get best results with a properly balanced ration. Hogs will fatten on corn and soybeans, but it will cost you more and results will be quicker and better if a good mineral mixture is used with the other feed.

Endorsed by Leading Agricultural Feed Experts

Expert Farmers, Hog raisers, and state experiment stations agree on the value of adding mineral mixture to the feed. Mineral Mixture goes to bone material as no other feed will. It supplies the hog with elements lacking in corn and soybeans. It builds solid meat and heavy bones.

Experience in Agricultural Colleges and on many farms proves that hogs can be put on the market in six months, when a proper mineral mixture is used in combination with corn and soybean or any other rich proteid feed, where without mineral it requires from eight to ten months to produce a hog of like size.

We have carefully investigated dozens of the best known mineral feeds on the market today. The result of these investigations has been to offer Wallace's Mineral Mixture as one of the most reliable and dependable products.

Based on Purdue Formula

The manufacturers of Wallace's Mineral Mixture have based their formula on the tests made at Purdue University and the feeding and raising of hogs as practiced by the most successful farmers. Every ingredient in Wallace's Mixture is helpful to hogs. It is prepared, not as a "mysterious fattener" or "marvelous cure-all." It is just a plain, common, honest mixture of commercial chemicals designed to supply your hogs with minerals lacking in their every day general feed.

Formula Per Ton

Ac. Phosphate	800 pounds
Wood Ashes	200 pounds
Pulverized Limestone	853 pounds
Salt	100 pounds
Epsom Salts	40 pounds
Foenugreek	7 pounds
Total	2000 pounds

Bone building and meat building elements are there in the proper proportion. As they are the chemicals that aid in digestion and assimilation, they are the elements which, added to the other feed, will produce better hogs in shorter time.

Our Prices Exceptionally Low

The ingredients in Wallace's Mineral Mixture are all honest commercial chemicals. If you had the time and place you could buy the materials and mix them yourself. But you will find it cheaper to buy them ready mixed in this form that we offer you here.

Scabolin Dip

A Dip and Disinfectant for all Live Stock. Scabolin Dip and Disinfectant is an inexpensive healing and non-irritating mixture recommended for making dipping solutions for stock.

One gallon of Scabolin Dip in seventy-three (35) gallons of water is strong enough for use in dipping tank or sprayer.

It has been proved on many farms that the regular use of Scabolin Dip as a dip and as a spray for stables, hog pens, barn yards and chicken houses, greatly reduces the losses from contagious diseases.

This Dip can not be used with alkali water. **Not mailable**

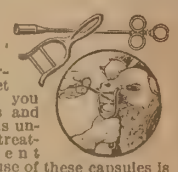
Scabolin Fly Oil



Cows bothered by flies lose in weight, and give less and poorer quality milk. Cost of feeding is half lost if you fail to keep the flies away, and you lose the opportunity to send them to market early.

Spray with Scabolin Fly Oil and notice your cattle take on weight. Notice how much more milk you get and how much richer it is. You will find milking easier also, as a cow can stand still if not constantly bothered by flies. Constant stamping to chase flies away often results in lameness. Drive the flies away with Scabolin Fly Oil. It does the work thoroughly and the cost is low. Shipping weight, per gallon, 14 pounds. **Not mailable.**

Sheep Worm Capsule Outfit

Do not lose time in preparing your sheep for market as it means lost profits to you and poor live stock. Hogs and Sheep frequently have worms unless they are given proper treatment. Worms will prevent growth and fattening. The use of these capsules is an excellent method of ridding sheep of worms. They are approved by the United States Department of Agriculture. Each outfit consists of 50 capsules, balling gun and jaw spreader.

Fu... ...rette

To give her Ivorette is to pay a ra... ...g ... her charm and loveliness. The beauty of Ivorette toilet and dresser pie... ...l appeal to her instantly, but even more will she be gladdened by the thoughtfulness which such a gift expresses. Ivorette pieces are made of the delicately grained, ivory tinted celluloid, formerly known as "French Ivory." Each piece is gracefully designed in a popular pattern and is a perfect gift in itself. Other pieces may be added at any time. The smooth, creamy surface is delightfully easy to keep clean and will wear indefinitely.

We Mount Any Initial Free on Pieces as Shown

Marked with the initial of the owner, Ivorette toilet and dresser pieces are doubly desirable. Any initial will be mounted on the larger pieces free of charge. The delicately tinted ground may be had in blue, buff or green. **State initial and color wanted.** Smaller pieces, such as manicure articles, salve jars, picture frames, can not be marked; successfully, as the ivory surface is too narrow.

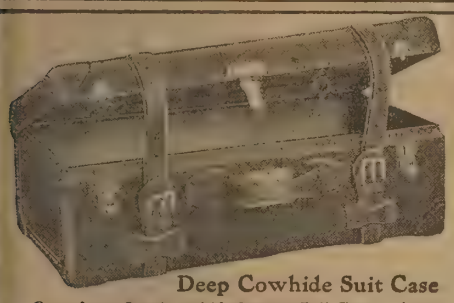
All Leather Suit Case

Strong and Roomy A Big Value $5.95

A thoroughly dependable Suit Case—one that you can use year in and year out with continued satisfaction. We specially recommend this case of sturdy, durable cowhide as being good all the way through—skillfully made of high grade materials with special attention to the details of construction. Yet our low price enables you to get this fine suit case at a cost actually less than you would ordinarily pay for a case without these special features.



Made in Our Own Factory

This is how we can offer you such an unusually good suit case at this low price. We found a special lot of high grade genuine split cowhide that we were able to buy at a special saving by paying cash. Then to keep manufacturing costs as low as possible, we sent it to our own leather goods factory which makes only high grade luggage and harness and had it made into these fine suit cases. Never for one moment were high quality and expert construction sacrificed to bring the cost down. These suit cases had to be good all the way through to conform to the usual Montgomery Ward & Co. standards.

Sturdy Construction Throughout

We have used only dependable materials—long wearing lining, heavy brassed locks, specially made clasps and stout hinges. Wardrobe Trunks

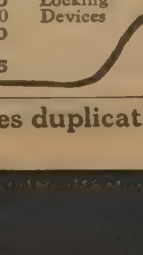
Our Finest Wardrobe Trunk $42.50

Sturdy—Easy to Pack
Made for Hard Service

This sturdy trunk gives you all the conveniences of a handy closet wardrobe with drawers, yet is compact and strongly built to withstand the hard knocks of travel.

Just hang your suits, coats and dresses on the special garment hangers. Pack your lingerie, underwear and small articles in the roomy drawers. Put your hats and shoes in their special compartments—and your packing is done. No more bother and fuss in packing if you own one of these fine wardrobe trunks, and no more wrinkled clothing at the other end of your journey. Your clothing will arrive as fresh and smooth as it was when you packed it in the trunk. Equally suitable for men or for women.

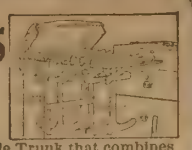


Trunk Closed

This is one of the very best wardrobe trunks obtainable at these prices. When you see the fine materials and expert workmanship, and examine the many special features, you will appreciate that our price is much below the usual retail price of trunks of this high quality. Made of three-ply basswood, covered and interlined with heavy vulcanized fiber—a five-ply construction that will withstand the roughest handling. Bound on all edges with heavy fiber and studded with brass nails. Massive brass hardware and extra wide hinges. A special safe lock enables you to close the trunk with one easy movement, and holds it firmly in three places.

Special Features

1. Easily holds the clothes of two people in perfect condition.
2. Sturdy—special five-ply construction. Rounded corners and edges. Strongly reinforced at points of strain.
3. Springless clothes retainer prevents wrinkling of garments.
4. Five convenient drawers hold lingerie, underwear and all small articles. Nickel drawer pulls and edges.
5. Special drawer lock enables you to lock all drawers at one time without closing trunk.
6. Convertible hat drawer to hold large or small hats. Removable hat form and tapes included.
7. Dustproof shoe box, held in place by metal clasp spring; holds several pairs of shoes. Easily removable.
8. Ten special garment hangers suited for different types of clothing. Rest on sliding trolley.
9. Dome top, plush lined to protect your garments. Prevents trunk being set on wrong end. Raises on hinges so hangers may be removed easily without disturbing the rest of trunk.
10. Laundry bag for soiled clothing.
11. Padded ironing board which is also removable.
12. Iron holder which will accommodate any size electric iron.
13. Safe lock fastens trunk in three places with one simple movement.
14. Attractively lined throughout. Removable dust curtain protects garments when trunk is open.



Safe Locking Devices

Note: This Trunk is made in three convenient sizes. The full size and three-quarter size have the same interior arrangement. The steamer size has three roomy drawers and a shoe bag instead of shoe box. Locks on the outside only. Shipping weights: 80, 90 and 100 pounds.

147 F 662—Steamer size, 42 by 21½ by 14 inches. **$42.50**
147 F 663—Three-quarter size, 42½ by 21½ by 20 inches. **$47.50**

Ward's Biggest Trunk Value $11.95

Steel Clad Basswood Box

A trunk manufacturer facing the slow season in his factory, was desirous of keeping his plant going and holding his organization together. He offered to make up a large quantity of these steel clad Trunks at a figure that was just slightly above his own production costs. This enables us to set a price on this trunk for spring and summer that is unusually low, and means a substantial saving for you on a value that is typical of Ward's high grade merchandise. Do not overlook this splendid opportunity to save money.

Metal trunks need no introduction, as they have for years been popular because of their great durability when used for either traveling or storage purposes. The carefully seasoned basswood box is covered with enameled sheet steel. Edges are bound with steel, and the surfaces are reinforced with hardwood slats, metal strips and two leather straps. Heavily brassed bumpers on corners take the heavy knocks. The drawbolt catches and the well known Excelsior lock make this secure from anyone tampering with them. Note the substantial hardware that has been used in the construction of this trunk, especially the latest catches found in the better grade trunks, and the strongly studded loops that hold the straps in place. The interior is heavily lined and has a deep covered two-compartment tray that is well arranged for packing small articles. The lower section affords ample room for dresses, suits and other clothing. This steel clad trunk is built to give service, and will stand the test of long hard usage. Shipping weights: 52, 64 and 71 pounds.

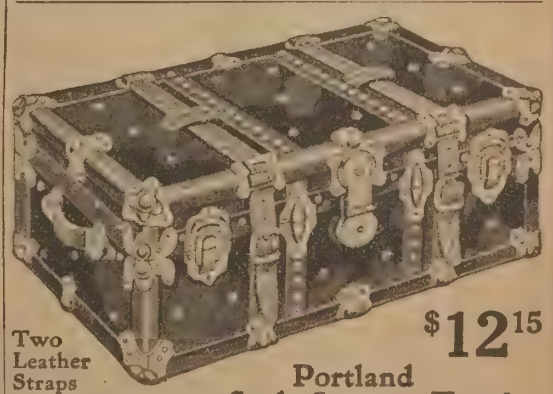
Army Lockers

For Camping or Motoring



Suitable for an Auto Trunk

$5.45

The call of the out-o-doors has turned so many people to the open in recent years that vacations on the farm, motor trips, camping, hunting and fishing trips have brought about the need of equipment that can be used for general purposes. The army locker proved during the late war that it was the most serviceable general purpose trunk built. So many of our customers have asked for them that we have secured a large quantity and offer them to you with our recommendation. They are built of basswood covered with heavy sheet metal. All corners protected by long metal strips and bumpers to stand the knocks. Brassed key lock and side catches. Very light in weight but strong and durable. Neatly lined and has considerable packing space. Buy one of these lockers now and your first trip will prove to you their convenience and serviceability.

The size of the locker is 31 by 17 by 13 inches. Shipping weights, 25 pounds.

ANY Musical Instrument shown on these pages has excellent tone quality. When making comparisons of value, remember that Ward's brands are known for their tone, and must be built of select materials and by skilled workmen who have had years of experience to develop this superior tone quality.

The violins, wood wind and brass instruments are made in Europe, where I selected the materials and placed them in the hands of the best manufacturers.

The Cecilian phonographs, Windsor pianos and stringed instruments are manufactured in America and under our own supervision.

This high quality and our very low prices have built up an enormous demand for Ward's instruments, and the greater volume has resulted in lower cost of production. You will observe that we have made some very remarkable reductions in prices.

Music brings sunshine and cheerfulness into the home. No purchase you can make will give you and your family more joy and satisfaction than a Windsor Player Piano. An instrument that every member of your family can play and enjoy—it stands always ready to provide pleasure and amusement for all.

One of the main features in all our Windsor Pianos is the full value you receive for your money. No point is overlooked in making them perfect in mechanical details and in quality of tone. The tone of your piano determines whether it is a true musical instrument or only a beautiful piece of furniture.

We will place a Windsor Piano or Player Piano in your home—where you may try it for 30 days and compare it with others, and see for yourself what a remarkable value it is. Nowhere can you get a higher grade piano at such a low price.

Take advantage of our liberal offer and order one of these fine pianos. **Use Easy Payment Order Blank No. 1 on Page 605.**

Finish Shown in True Colors

Send a Postal Card Today

We show you the finish of Ward's Windsor Pianos in their true colors in our new portfolio. If you wish to know what Oak, Mahogany or Walnut looks like, send for this **free** Folder. It not only shows faithfully the finished color of the woods, but the beautiful grain as well. It also tells you important details of construction which make Windsor Pianos superior in tone, action and durability.

Let Us Send You This Piano on Trial—We Prepay Freight

You want a Piano that will be a pleasure to yourself, your family and your friends. A piano is purchased for a lifetime and your piano should be one that you will always be proud of.

Remember also that our guarantee we send with every Windsor Piano is backed by over 51 years' experience in serving our customers. With this guarantee of 25 years against defects in workmanship and material, your piano is of permanent value. Just as good instruments always do, the Windsor will improve in tone as it is used year after year.

The Windsor Player Piano shown above—in addition to being one of the finest made to-day—is sold to you at a genuine bargain price. At the end of the 30 days trial, you may send us the first payment and the amount of freight prepaid. Never before have we offered such an opportunity to get a high grade Windsor Player Piano at such a very low price. It is yours for only $375.00.

This piano compares favorably with many higher priced instruments. It has the same expression control device, arranged in the most simple and convenient manner; automatic tracking device and transposing device.

The tone and action leave nothing to be desired as they are the best. Full metal plate, bushed tuning pins and genuine wool felt hammers are used. The player action is guaranteed.

The case is built in a simple dignified style, made of hardwood double veneered in Mahogany, Walnut or Oak, hand rubbed fine piano finish. Twenty rolls—our selection—included. Bench not included at this special price. See Page 284 for piano benches.

Enjoy Your Piano While You Save

EVERY Player or Piano shown on these pages can be purchased on Easy Payment Terms. When you order, use Easy Payment Order Blank No. 1 on Page 605, send the small amount indicated. We will send you the instrument, freight prepaid, with the understanding that you are to have it for 30 days' free trial. Play it as much as you please; compare it with any other instrument; and, if satisfied, send us the first monthly payment and the freight we have prepaid.

But you are under no obligation to keep the piano. If you are not satisfied, write us for shipping instructions and return it. Any money you have paid will be refunded—the trial will have cost you nothing.

We Give You Player Rolls

We give you with each player piano enough rolls to test the instrument fully; and if you keep the piano, the rolls are yours to keep and enjoy.

Every Windsor Guaranteed

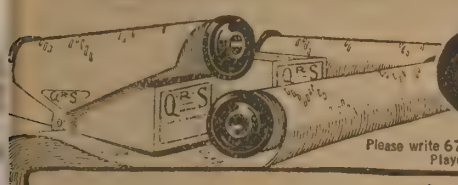
We want every Windsor Piano to be as satisfactory in the long test of wear as in the first glad months of possession. We make this piano for long service and guarantee it for 25 years. Any defects in workmanship or materials developing within that time, we will repair without cost to you.

With each Windsor Player or Piano we send a written guarantee. It is absolute protection and assurance of the high quality of the instrument.

The Colonial

Use Easy Payment Order Blank No. 1 Page 605

The Colonial Player Piano is indeed an instrument that you would be proud to own. Its graceful design makes it a most beautiful piece of furniture; its simple mechanism allows every member of the family to enjoy playing it; and as a reproducing instrument, it plays with the accuracy, the brilliance, the expression of the artist.



It has the same devices for controlling expression as the higher priced players, which enables you to play each roll with your own expression, rather than a mere mechanical reproduction.

Case is **double veneered** with Genuine Mahogany, Walnut or Oak. Full metal plate; bushed tuning pins; genuine wool felt hammers; excellent piano action. Dependable, easily operated player action, featuring metal tubing—not rubber as some players have—and transposing device which permits you to change to a higher or lower key if desired, to harmonize with singing. Height, 56 inches; length, 64 inches; depth, 29 inches. We include with this piano a bench, scarf and twenty music rolls—our selection. Shipping weight, 900 pounds.

Windsor Baby Grand

$495.00

Compare Quality and Price With Any Baby Grand Made

If you are looking for a really fine Piano, you will want a baby grand. The most beautiful of all piano tones are hidden in the heart of this instrument, for its long tapering design makes possible depth, power, and quality of sweetness which can not be found in any other style, no matter what its price. A musician will choose a grand every time because he appreciates its greater gift of music. And now any household may have a grand piano.

It Will Fit Into Your Home

This attractive model measures only 57 inches from front to back and 54 inches in width—a practical size for the average living or music room. Its graceful case is built of the very best hardwood known for good piano construction—it is built up layer on layer to prevent warping. It is double veneered with genuine Mahogany, hand rubbed to beautiful dull or highly polished finish. Keys are of fine white ivory; hinges and pedals of best, polished brass.

Rare Beauty of Tone

Nothing which will give beauty or permanence of tone has been omitted. It is constructed with a full metal plate; fine spruce sounding board which, by our own process, tends to improve with age and make the tone more mellow and appealing with the years. Hammers are of finely woven wool felt, the most durable material obtainable.

Piano action, the best obtainable for this instrument, raises the hammers instantly from the strings, giving that clear, brilliant tone for which the Windsor is famous. Strings are of the finest tested piano wire, bass strings are brass wound and all are tempered for perfect tone and scale.

Guaranteed for 25 years

The Windsor Baby Grand is guaranteed for 25 years, but with ordinary care it will last a life time, retaining almost indefinitely its full, sweet tone. You have wanted a baby grand—now is your chance to buy one. Our unusually low price and easy terms make it as easy to own this fine Windsor as any other piano. **Use Easy Payment Order Blank No. 1 on Page 605.** Shipping weight, 740 pounds.

Windsor Musicians' Model

For clear mellow tone, for attractive design, and the dependable construction which means long satisfaction it would be difficult to equal the Musicians' Model even in a much more expensive instrument. Although it is our lowest priced model, this Piano is built by the same skilled workmen, and with the same excellent construction as every other Windsor, and is backed by our 25 year guarantee. The case is **double veneered** with Mahogany, Walnut or Oak, hand rubbed to a handsome piano finish. Pedals and hinges are of polished brass. Built with full metal plate, bushed tuning pins and genuine wool felt hammers. Double repeating piano action; overstrung bass; full seven and one third octaves. It has the same strong, dependable construction as the very highest priced pianos. Try this piano in your own home—you may have it for 30 days, and if it brings you the pleasure and satisfaction you want from your piano—a very few dollars a month for a few months makes it yours. Height, 54 inches; length, 63 inches; depth, 26 inches. Shipping weight, 850 pounds.

Windsor Classic Model

The grace and dignified appearance of this model attracts you at first glance. You will be just as pleased with the tone for it is rich and mellow, clear and perfect in every note.

You now may own this truly fine Piano of semi-massive design at a price more than ordinarily low. Few pianos even of much higher price equal the Windsor Classic in tone, in beauty of finish, in grace of design, or in lasting durability.

It has a genuine **double veneer** Mahogany, Walnut or Oak case, full metal plate, overstrung bass, genuine Ivory keys and double repeating piano action. A highly lustrous, hand-rubbed finish is sent unless satin finish is specified on your order.

The entire price is only $365.00, payable in small monthly installments of $10.00. The low price includes an attractive bench and scarf. Height 57 inches; length, 63½ inches; depth, 28 inches. Shipping weight, 850 pounds.

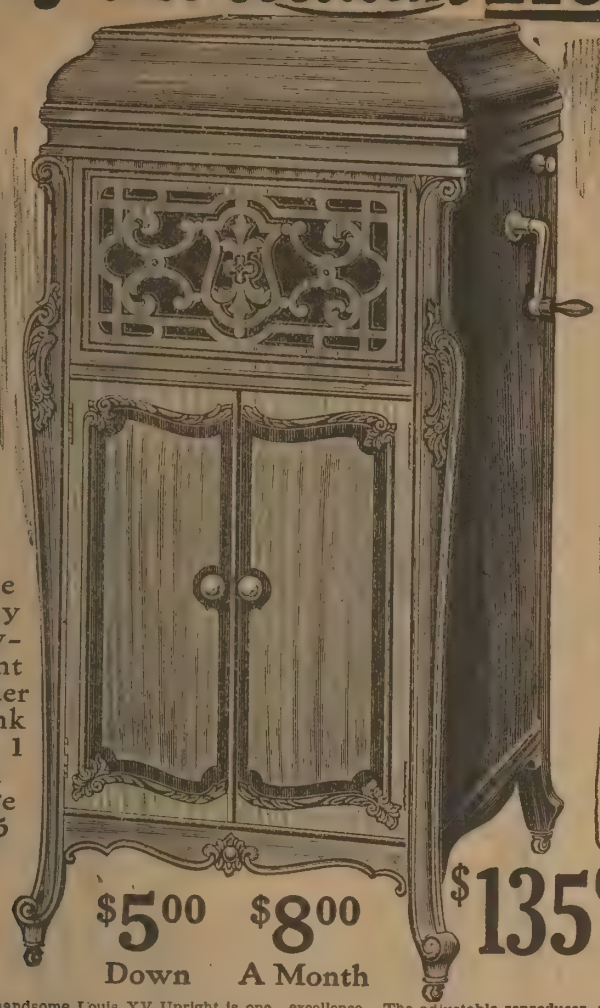
The Cecilian
A Triumph of Tone



Musical experts tell us that the Cecilian is a triumph of tone. Never have they heard richer, clearer music, nor music of greater volume, music more truly the reproduction of the artist himself.

Every detail of design and construction contributes to this rare perfection of tone quality. All mechanical sounds from needle or motor are subdued to the point where they never interfere with even the most delicate music. Tone arm and reproducer are scientifically constructed from designs tested and retested for clear, faultless reproduction. The tone chamber is the result of months of experiment with countless designs and materials. It is made entirely of carefully selected, thoroughly seasoned, resonant wood, and scientifically flared to amplify the sound to the fullest. Strong, dependable double spring motors are used. Each is carefully assembled and fully tested before it leaves the factory, and with ordinary care, will never get out of order. A specially constructed governor maintains an always uniform speed which insures perfect rendering of the music. Spring is strong and perfectly adjusted—one winding is sufficient for several records.

Plays Every Make of Record

The Cecilian is equipped with an adjustable reproducer which permits it to play every make of record equally well.

An expression control on every model permits you to put your own interpretation on the playing. Motor speed is controlled by an easily accessible screw. Other splendid Cecilian features are the easy winding shaft, cups for new and old needles, and the self acting catch which holds the lid in an open position.

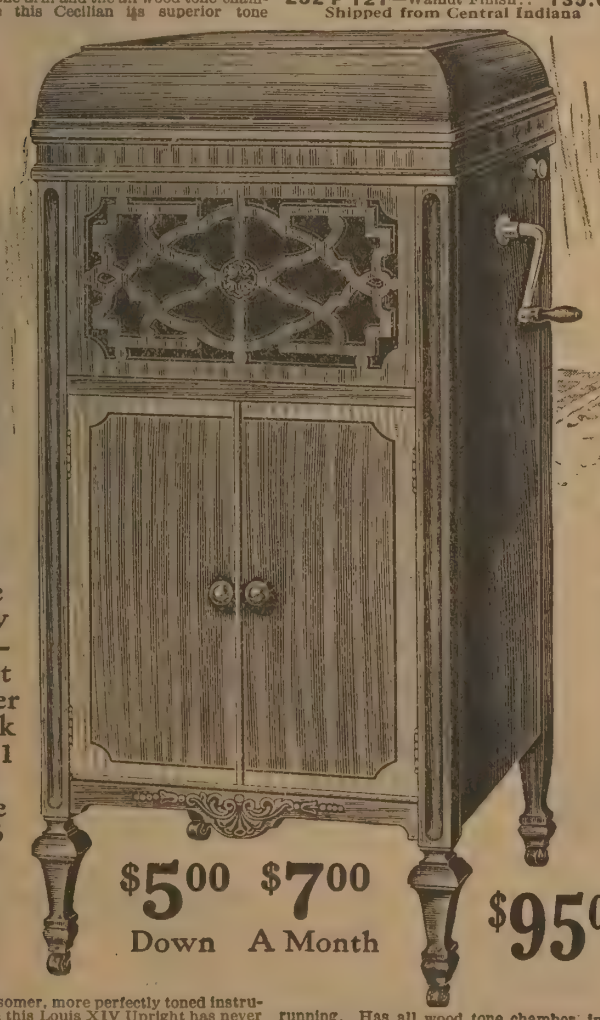
The most beautiful Cecilian of all and within your reach, for the same small monthly payment that has brought the Cecilians to countless other homes, will bring this beautiful Console Phonograph to you.

This new and handsome style phonograph was until recently sold at such high prices that only a few could possess it. Ward's, realizing this, set out to make it possible for all those who wished might have this latest model phonograph.

This handsome Console is in the later Renaissance style, a period noted for its beauty of line and delicacy of decoration. The gracefully curved braces, embossed designs, and handsomely decorated grill are true to this popular period. Case is grained hardwood with top, panels and doors of genuine Mahogany Veneer. It is finished with a lustrous hand rubbed polish in new, shaded two-tone effect. A shadowing and blending of the lighter and darker colorings of the wood—a new and unusual effect used on the finest of the period furniture.



Grill is backed by gold colored silk screen, which protects the tone chamber from dust and dirt and helps to maintain that sweet, clear tone which has made the Cecilian so welcome in thousands of homes. Phonograph Cabinet is placed in the center with an open top, which brings the playing table into easy, convenient reach. On either side are roomy record cabinets. Every detail which contributes to clear, beautiful music and perfect reproduction has been carefully built into this fine model. Its faithful rendering of the world's finest selections will give you even greater happiness and satisfaction than its beautiful case.

You will find this excellent instrument a charming addition to your household furniture—one of which you will be proud.

It has the famous Cecilian double spring motor, remarkable for its silence and uniform speed. The scientifically flared tone chamber, is made entirely of resonant, well seasoned wood, which produces a mellow, cello-like tone, of full volume. Improved tone arm is adjusted to play each record perfectly; and the adjustable modulator allows you to regulate the expression of any record.

Handsome Period Designs in New Two-Tone Finish

Our beautiful Cecilian cases are designed in true period styles—the very newest development in phonograph art. Both in our Upright and our new Console the design has been kept true to period, so whatever model you decide upon, it will meet every requirement for beautiful furniture, as well as for beautiful tone.

The console—the newest, most artistic phonograph case—comes in Adam, Louis XIV and Later Renaissance styles. They are the improved open top design, which makes the playing table easily accessible.

The upright models come in Adam, and Louis XIV an Louis XV designs. The upright will always be a practical design because it requires little space.

All our later models are beautifully finished in the new two-tone effect—a blending and shading of finish which imparts a richness of aged woods. Deep, rich piano-like finish is given to each instrument by using many coats of the finest stains and varnishes, carefully applied and throughly hand rubbed to a perfect luster. This finish will not crack or peel, and with care, will retain its original beauty for years. The attractive grills are backed by screens of deep gold colored cloth, which protects the tone chamber from dust and thus aids in always keeping the tone clear and sweet.

In Tone and Construction Unexcelled

"Everyone who hears our Cecilian Phonograph has a good word for it. I take special pride in showing it to my friends."

A Beautiful Console

If only as a piece of furniture, you will be proud to own this Louis XIV Console. It is a true Louis XIV design, with the slender, gracefully curved legs and the simple, delicate lines which make this style so distinctive and popular.

The phonograph mechanism is hidden away in the center cabinet, by an improved console open top which makes the playing table quickly and easily accessible. The gracefully designed grille at the mouth of the tone chamber, is backed by a dull gold colored cloth screen of silky texture which protects the parts from dust and dirt. On either side is a roomy compartment for the records. Made from grained hardwood with top, doors and panels of Genuine Mahogany, or Oak veneer, beautifully finished in the shaded two-tone effect.

Dependable Cecilian Mechanism

The Cecilian double spring motor is silent and even running—the ideal motor for faultless playing. The Cecilian tone arm, and specially constructed tone chamber are designed for the utmost in volume and full, round, perfect reproduction of the artist's work. Improved modulator on side controls volume and allows you to give records your own interpretation.

With this model is included an assortment of needles and 10 double faced 10-inch records — our selection — (20 selections).

Fine Imported Violins

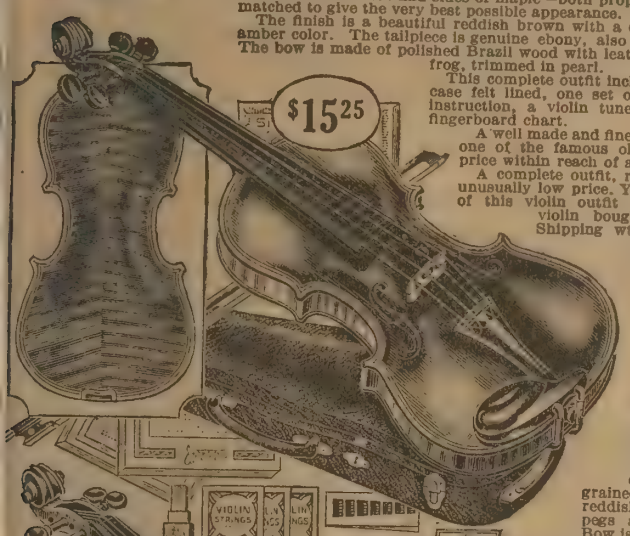
With every Violin we send you a certificate which entitles you to a full set of 52 violin lessons with the National Academy of Music, of Chicago, Illinois, at greatly reduced prices.

It Is Tone Quality That Counts

The tone quality in your Violin determines whether it will become a real companion or a disappointment. All Ward's violins are made from the same woods—thoroughly seasoned spruce and maple—and they are the same designs used by master violin makers. Tone depends, not only on design and careful choice of woods, but also upon the skill of the maker. While even our lowest priced models are made by experts from properly seasoned wood, each additional dollar of cost means additional care in choosing these woods and greater skill and time put into workmanship.

Celebrated Stainer Model

This beautiful violin is a copy of a genuine Stainer. The woods from which it is made were carefully selected from spruce and maple. In making this violin the front of spruce and the back and sides of maple—both properly seasoned—have been matched to give the very best possible appearance.



The finish is a beautiful reddish brown with a delicate shading to a rich amber color. The tailpiece is genuine ebony, also the pegs and fingerboard. The bow is made of polished Brazil wood with leatherette grip and ebonized frog, trimmed in pearl.

This complete outfit includes an imitation leather case felt lined, one set of gut strings, a book of instruction, a violin tuner, chin rest, rosin, and fingerboard chart.

A well made and fine toned Violin. A copy of one of the famous old instruments, and at a price within reach of all.

A complete outfit, ready to play—and at an unusually low price. You will find the quality of this violin outfit far above the average violin bought at the same price. Shipping wt., complete outfit, 11 lbs.

Concertone Violin

Careful selection of choicest seasoned wood, and extra attention to details of construction, blocking, lining and matching of grain, produced this truly satisfying instrument. This is a true copy of one of the finest Stradivarius models, made by a noted German master maker of violins. An instrument that will improve in tone with use. Front is of fine, garret seasoned spruce; back and sides of maple, carefully chosen for its long even grain, for its resonance and for the beauty of its pattern and coloring. Finished a warm ruddy brown, shading delicately to golden amber. Pegs, fingerboard and tailpiece are genuine ebony rubbed to a soft finish; neck and scroll are delicately designed, excellent value at Ward's low price. Shipping weight, 6 pounds.

Solo Model

This Violin is a true copy of the instrument made by the famous Stradivarius. Skilled German craftsmen, born of generations of violin makers, give attention to the matching, arching and finishing of the instruments in order to produce big, resonant, full voiced tones. Front is of fine old spruce, thoroughly time seasoned; back, sides and neck of carefully matched maple which has been selected for its close, perfect grain. Finished a deep, ruddy brown, shading to amber; a special transparent varnish has been used which reveals the soft satiny grain. The solo model is an instrument well suited to concert or professional playing, by reason of its full volume as well as its sweet, mellow tone. Pegs, fingerboard and tailpiece are of best ebony. Shipping weight, 6 pounds.

Tenor Banjo and Outfit with Extension Tailpiece

If you can play the Banjo, there is always a place in the dance orchestra for you—for it is the banjo which gives the snap and swing to popular dance music. The tenor Banjo is probably the most popular member of the banjo family, both because of its good tone and volume, and because, owing to similarity of fingering, it is easy for harpist or violinist to learn to play.

This strong, full tone tenor banjo has four strings, tuned, A, D, G and C. It is made with an 11-inch rim of birdseye maple, natural finish; heavy nickel plated straining hoop and extension tailpiece; 20 hexagon brackets hold head taut and even, giving the loud, snappy tone needed for orchestra music. Maple neck has natural finish. Ebonized fingerboard has inlaid pearl position dots. Equipped with reliable Champion neverslip pegs.

Outfit also includes canvas case, flannel lined; set of strings; tenor banjo tuner, 3 mandolin picks, and practical instruction book. Shipping weight, complete outfit, 12 pounds.

How We Made These Price Reductions

PEOPLE who are quick to recognize good value in Band Instruments, know that the prices on this page are low—much lower than they have seen anywhere for instruments of this fine quality. For example, take our Trumpet 551 F 626. The lowest price at which we have ever sold a similar trumpet was $15.50. Today's price is $12.95—the result of careful buying, in enormous quantities.

Our buyer visited many factories, both here and in Europe, before he found the one best suited for making best instruments in large quantities. The factory he finally selected is in Europe—one where fine instruments have been made for almost fifty years. Only skilled workmen of the highest type are employed—and in Europe labor costs are low.

We have not sacrificed quality to make these low prices. Comparison will prove this to you. We want you to make every comparison—because that is exactly what we did when we bought these instruments to sell to you at the lowest prices for which good instruments can be sold.

Ward's Biggest Silverware Value

$5.45

6 Knives, 6 Forks
6 Teaspoons
6 Table Spoons
Butter Knife
Sugar Spoon

Silver enough to set your table for six people—for only $5.45. Ordinarily, this set would cost you, at retail, at least $10. So we ask you not to judge the quality of this silverware by its unusually low price.

Nationally Known Quality

We went to one of the best known makers of high grade silverware in the country and told them what we wanted for our customers—silverware made in a special new pattern, with the same high quality that has made their silver famous for over half a century. And we wanted to be able to offer it to our customers for less than the usual wholesale cost.

At first it seemed impossible, but our order was so large that the makers were able to reduce their costs to a very low figure without sacrificing quality in the least degree.

Guaranteed for 10 Years

Now we offer this set to you—a 26-piece set of silverware, so good that we guarantee it for 10 years' service, and at a price less than half what you usually pay for silver made by this same manufacturer.

Heavily Silver Plated

Every piece is heavily plated with pure silver over a base of solid nickel silver. The new Oakland design is rich in its simplicity and harmonizes with the high quality of the silver itself. Made with the popular bright finish. The solid handles of the knives are too hard to be engraved satisfactorily. All other pieces may be engraved in script—see spoon above—for 2¢ a letter. **State initial wanted.**

Forward Roller Bearing Coaster

The Wagon Every Boy Wants

$4.75

All ready for the race. Down the hill you scoot on your Forward Coaster. Always in the lead because this fine coaster has roller bearing double disc wheels that run smoothly and swiftly. Always under control because with your hand on the brake you can stop quickly. Just the wagon every boy wants. It is made for fast runs and heavy loads. The Forward Roller Bearing Coaster is an unusually sturdy wagon. It is made so strongly that it will easily support the weight of two dozen good size boys. Roomy, too, big enough for you and your chum.

Double Disc Wheels—Roomy Body

It has all the special features you want. The big red double disc wheels are 10 inches in diameter and have strong ⅝ inch rubber tires. That means smooth, fast running. The body is extra large, size, 14 by 32 inches, made of hardwood and trimmed with bright red, just enough to give it dash and that sporty look you want your wagon to have. The hardwood tongue has a handy steel grip. Heavy steel gear, best roller bearings and reliable hand brake on rear wheel. Dad will tell you this wagon is an unusual bargain at this low price, which is practically the cost of manufacturing it. Shipping weight, 38 pounds.

Genuine Cyclone Vacuum Washing Machine

Blue Ribbon Model

$13.95

Let this dependable Washer relieve you of the hard work of rubbing clothes by hand. All you do is push the easy-moving handle back and forth. The special Vacuum Cups are worked up and down on the clothes, never striking the same spot twice in succession. This draws the dirt out of your clothes and leaves them fresh and white. The Cyclone washes entirely by suction—"the force that dirt can not resist." Yet so gentle is the action, that not even the finest fabrics are injured. The small picture at the left, below, shows the construction of the cups. They are made of smooth, non-rusting iron. One of the best washing actions known. Tub is made of water resisting cypress wood. All moving parts are protected by guards. Has handy rack for attaching wringer. Firm stand is strongly braced to make it steady when tub is in action. Diameter of tub, inside, 21 inches. Height, to lid 29 inches. Capacity, 8 shirts or 4 sheets or their equivalent. You will find this a reliable washer, and an unusual bargain at this special price. Something New

Boys' Wearproof Suit
Heavy Brown Denim

$1.49

Just the Boys' Suit that mothers have been waiting for—a suit with all the good wearing qualities of the heaviest overalls yet made in an attractive style that any boy will like to wear because it has such a good appearance.

Built to Wear

He can play just as hard as he likes—for this suit will stand all the hard knocks. It is made from one of the best wearing materials known—genuine surplus U. S. Government Denim. It is the very same grade of denim that is used to make men's better grade overalls.

Launders Easily

Every mother knows how well denim wears and she also knows how easy it is to wash and iron. The color of this suit is Medium Brown which does not show the dirt easily, therefore requires less laundering.

Made with a separate blouse and pants, and has a belt of the same material as the suit. Pants are open bottom style with two side pockets. Sizes 5, 6 and 7 button to blouse and have side opening; sizes 8 to 12 have fly front with coat style blouse.

Blouse has elbow length sleeves and sport collar; also two roomy pockets.

When you order this suit it would be a good idea to order an extra pair of pants. Your boy will then get practically the same wear as he would from two suits.

Saves Clothes

This is an excellent suit for your boy to wear every day to save his other clothes and it has the appearance that you would not get in regular overalls yet the price is very little, if any more.

Well Tailored Throughout

These suits are cut full and roomy to allow plenty of freedom of movement and are very comfortable. All strain points are doubled sewed with strong thread to guard against ripping. Buttons are sewed on to stay.

While this suit has the wearing qualities of the best overalls, it is not cut like overalls. The shoulders and sleeves are shaped and the entire suit is well tailored throughout. We have paid more attention to details than is customary with the suits selling at such a low price.

SIZES: 5 to 12 years. **State size.**

Ajax Heavy Poultry Fence

Buy Ajax for Long, Satisfactory Service

46 Inches High
14 Line Wires
Stay Wires 8 Inches Apart

44¢

A heavy Poultry Fencing priced exceptionally low. Made of tough drawn galvanized steel wire in 46 or 58-inch heights. Makes an excellent enclosure at small expense, and will outlast the best poultry netting. Top and bottom wires, No. 11 gauge; stay and intermediate wires, No. 14 gauge. The mesh at the bottom is 1⅞ inches, which is close enough to keep in small chickens. It widens to 8 inches at the top. The upright stays are 8 inches apart. It is not necessary to construct a framework on which to attach this fencing. Its stiff construction allows it to stand erect and firm, with only fence posts as occasional support. We have not sacrificed quality to make these low prices. Take advantage of this unusual opportunity and supply your needs now.

We recommend our steel fence post listed on Page 527 for further saving.

Our Greatest Radiator Bargain for Ford Owners

$10.35 With Shell — $9.75 Without Shell

During all of our many years experience, in which time we have sold millions of dollars' worth of supplies for Fords, we have never seen nor heard of a Radiator bargain like this one. Almost every Ford owner who has seen this radiator has said, "That is the finest and strongest radiator I have ever seen at any price." We know you will say the same thing when you see and examine it.

Guaranteed 18 Months—30 Days' Trial

This New Radiator is so strongly built that we guarantee the core a full 18 months—a year and a half—against breakage caused by freezing. If in any case freezing should injure the core within 18 months, we will give you a new core without charge. Simply send us your order in the regular way, enclosing remittance. Put the radiator on your Ford and use it. If at the end of 30 days you should feel for any reason that it is not equal in every way to any radiator on the market, return it and we will refund the price and all transportation charges.

$10.95 Reclining Rocker Special

Genuine or Imitation Leather Upholstery

Strongly Built Comfortably Overstuffed

Adjustable Back Sliding Foot Rest

Our own furniture experts worked for many months to design this Rocker so we would be able to sell it to our customers at this bargain price. The lowest price at which this rocker has been sold by us in the past was $16.85—and even then it was considered one of our best furniture values. Because of this remarkable reduction, do not underestimate the quality or comfort of this rocker. It will make your living room more cheerful, more comfortable and more inviting.

As an ordinary rocker it will give you every comfort you would expect. With the reclining feature added, you have one of the most satisfactory pieces of furniture obtainable at so low a price. The reclining back is adjustable to three positions. With the foot rest extended you can stretch out at full length and enjoy real solid comfort.

When the foot rest is not in use it slips under the chair, out of sight. Extra deep spring seat. Back softly padded with soft, new cotton. Roll arms and cushioned back and wings are carefully upholstered and rounded. Legs and runners dull finished mahogany. Kiln dried hardwood frame. Size of seat, 19 by 20 inches. Entire length, 28 inches. Height of seat above floor, 19 inches. Height of back from seat, 29 inches. Entire height, 48 inches. Shipped taken apart to save you freight. Shipping weight, 60 pounds.

And Now 24 Hour Service

Most orders are shipped within 24 hours
Nearly all orders in less than 48 hours

We have still further improved our service for you. After much study and testing new methods under the supervision of our experts we have developed a system that makes certain your orders will be shipped promptly.

Our records prove that during the past year most of our orders were shipped in 24 hours—nearly all of our orders within 48 hours.

Right Goods—24 Hour Service And the Lowest Possible Prices

Right Goods: We sell *only* the kind of goods that stand *inspection and use.* We offer no price baits on "cheap" unserviceable merchandise. We never sacrifice quality to make a low price.

24 Hour Service: Our new system of filling orders is over one year old. For over a year we have been making good our promise of prompt shipment of orders.

Low Prices: We search the world's markets for bargains, buy in large quantities, and pay cash. The savings made in this way we pass on to you. But we buy only goods of standard quality. We never sell inferior goods just to make our prices seem lower.

With Guaranteed Quality, 24 Hour Service, and the Lowest Prices on Serviceable Goods it is to your advantage to send your orders to Montgomery Ward & Co.

Good Friends for 22 Years

"Twenty-two years ago we sent you our first order. We had wanted the 'Kentucky Cardinal' by James Lane Allen. In my aunt's Montgomery Ward & Co. catalogue we found it quoted at 73¢, while the local store wanted $1 for it. So that started our first order to you.

"We borrowed grandmother's big catalogue and sent for some toweling, men's shirts, an ironing board, a wheelbarrow and the 'Kentucky Cardinal.'

"Do you know, that wheelbarrow had a larger wheel, was better made and pushed more easily than any wheelbarrow we had ever seen? It was actually the envy of our neighbors.

"At that time we lived on a farm in Wisconsin. Now we live in a city of over 40,000, but we still find it greatly to our advantage to buy from our old friend, Montgomery Ward & Co."

John M. Marquart,
Port Arthur, Tex.

Printed with Mr. Marquart's Permission

Ward's strong, easy rolling Wheelbarrows are shown on Page 523

Greets an Old Friend

"We had not ordered anything from you for quite a while, and when your little sale catalogue came it was like greeting an old friend, and I just realized what bargains I had been missing. When the goods came so promptly we remembered your always courteous treatment and my husband asked me to send this second order for him."

Mrs. Harry C. Ball,
Corydon, Ky.

Ordering by Mail from Montgomery Ward & Co. is Easy, Pleasant and Profitable

YOU will find shopping from this catalogue is an easy and pleasant thing to do.

You sit in the quiet of your own home. You are undisturbed by clerks or salesmen, and free to make *your own* choice, at your leisure. You can compare and decide as you please.

You turn from one kind of merchandise to the other, instead of walking from one store to another. You have an unusually large assortment of everything to choose from—always new, fresh merchandise of standard quality, and absolutely guaranteed. Everything is sold on the policy of your money back if you want it.

You simply write down what you want. We do the rest. Your goods are packed securely, and their safe delivery to you is guaranteed by us.

Millions of people are today shopping by mail at Ward's. It must be that they find it easy and profitable. This absolutely must mean that you, too, will find it the convenient and money-saving way for you to buy.

How to Order

Look through this catalogue and pick out the things you want, using the Index freely. The Index is on the blue pages just preceding this.

Write on our order blank, or any plain sheet of paper, the name of the things you want, our article numbers, and the descriptions called for.

Give your complete name and address and shipping instructions. Mail the order to us with your check, money order or draft covering the amount. Simple directions for figuring transportation charges will be found on Pages 314 and 315.

Please Lend This Catalogue to Your Neighbors

Will you do us a favor by lending this catalogue to your neighbors? Let your friends take advantage of its savings. We could not possibly print enough for everybody to have a copy. So please lend this catalogue to your friends. Write your name and address here.

The 52nd Year of Our Golden Rule Guarantee

Guarantee: It is our intention that every article in this book shall be truthfully described and be exactly as pictured.

Therefore we guarantee everything you buy from us to be satisfactory to you in every detail and to reach you in perfect condition.

You take no risk whatever in sending us your order, for unless you are completely satisfied with the goods and with your saving, you may send back anything you buy from us and we will promptly return your money and all transportation charges you have paid.

MONTGOMERY WARD & CO.

What Our Customers Say

Just as Described Always

"I have purchased many orders from Montgomery Ward & Co., and from the first one to the last, everything has given perfect satisfaction, and everything has proved to be just as described in your catalogue."

George W. Adams,
Andrews, Ind.

Saves Half on Every Order

"I have never seen better values or better service. I have been satisfied with every article I have ever ordered from you, and I have ordered many kinds of merchandise.

"I believe I have saved 50 to 60 per cent on every order."

Mrs. H. M. Slusher,
Floyd, Pa.

Had Good Service—Saved $7

"I received all of my order on the eighth and am well pleased with the goods. I saved $7 by sending to you. Thanking you for your good service."

A. E. Conrad,
Vanport, Va.

Finds Absolute Satisfaction

"I have found my orders perfect in every respect. I have been sending orders to other firms for a long time, but never have had the absolute satisfaction derived from the orders from your house."

Mrs. L. Kail,
Cleveland, O.

Ward's Promise Is Good

"I have been a customer of yours for several years, and I have found you the most reliable firm I have ever had dealings with.

"You are honest at all times, and you always do exactly what you say you will."

R. W. Brewer,
Buenavista, Tenn.

"A 100 Percent Firm"

"I have been delighted with everything I have bought of you for the past year. Your bargains are Great. I would call Montgomery Ward & Co. a 100 per cent firm."

Mrs. J.Y. Pratzner,
New Haven, Conn.

Brought Comfort To This Home

"The grist mill works fine; the bed springs fit perfectly and are the best I ever had for such a low price—a real comfort to sleep on. In every room of my home you will see furnishings from Montgomery Ward & Co."

Mrs. Margeret T. Muhr,
Freeport, Ill.

Pleasure to Order from Ward's

"The saw reached me in good condition and my son is very much pleased with it.

"We thank you for being so prompt, and will take pleasure in sending you more orders."

Mrs. Daisy Anderson,
Decatur, Ga.

Very Well Packed Promptly Shipped

"I want to thank you for your promptness in shipping my goods. They were perfectly satisfactory, and very carefully packed—not a bulb or shade broken. I shall always be ready to say a good word for Montgomery Ward & Co."

C. E. Munson,
Westfield, N. Y.

Quick Service High Quality

"I couldn't have done better anywhere.

"The order reached me within six days and I found the goods of high quality."

Tom Best,
Seaman, O.

Wonderful Quality

"I want to tell you how very well pleased we were with the rug. It is such a pleasing pattern and wonderful quality for the money. We also want to thank you for being so good about exchanging them."

Mrs. Lester De Pue,
Logan, Ia.

Always Comes Back to Ward's

"I have tried many other mail order houses but I always come back to Montgomery Ward & Co. You furnish goods exactly as represented, or send a letter explaining why things are a little different. Thank you for your wonderful service."

Edith May Martin,
Lawrenceville, Va.

Superior Quality

"I wish to express my appreciation of the splendid service, the superior quality of the goods and the fair and equable treatment you have given me."

T. M. Michael,
Falls, W.Va.

Promptness and Courtesy

"The shipment of goods has been received in first class condition.

"Your goods and service have both been very satisfactory to me, and I want to thank you for your promptness and courteous treatment."

Ray M. Lewis,
Waterloo, Ia.

Leads in Quick Service

"I received my order and was more than pleased with it. I surely was surprised at its coming so soon. People certainly will have to hand it to Montgomery Ward & Co., for quick action."

Be Be Linton,
Litchfield, Ill.

To Extremes To Please

"I appreciate the way you handled my order which was lost in transit. Very few would have settled so promptly. A concern that will go to such lengths to satisfy its customers is certainly deserving of some consideration."

Charles Laper,
Greenville, Mich.

Facts You Should Know About Freight Charges

1. No matter where you live, or with whom you trade, freight charges must be and are included in the final price of all goods you buy.
2. The freight charges plus our low prices still leave you a substantial saving.
3. The actual freight charges are small compared with the savings you make on the merchandise you order from this catalogue.

The examples below will give you a good idea of the approximate freight charges on the merchandise you order from this catalogue.

It Is Easy to Order from This Catalogue

For your convenience when ordering, we have inserted several order blanks in the back of this catalogue. Write your orders on them. You may, however, use any plain sheet of paper if you prefer. Be sure to give us the necessary information to enable us to fill and ship your order promptly.

Please Order Under One Name for the Entire Family

All orders for each family should be made out in the name of the head of the household, and the name should be written plainly and in full. For example—if you usually write your name John J. White, do not sign J. J. White. This will enable us to keep our records correctly. Give your post office and state. If you live in town, give street and house number; if you live in the country, give rural route and box number.

How to Order

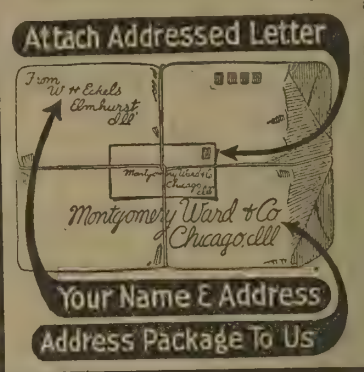
Go through this catalogue, select the articles you want and write out the following information:

1. Give article number of each item, quantity desired, name of article, size, color, price and other information according to merchandise ordered.
2. State the exact amount of money sent us with your order. Send remittances in the form of post-office or express money order, bank draft, or personal check. If you should send cash send it by registered mail, securely folded in heavy paper.
3. Be sure to give complete shipping instructions. There are three methods of transportation—parcel post, freight and express.

If you want your order shipped by parcel post or if there is no agent at your railroad station, send additional amount for transportation charges. If there is an agent at your station or express office the charges can be collected at destination and will be exactly the same as though we were to pay them in advance. Give shipping point if different from Post Office.

Ward's Simplifies Freight and Postage

On many articles shown in this catalogue we tell you the amount to send for postage so that it is not necessary for you to figure it. On certain items sent by freight, such as stoves and kitchen cabinets, we include in the catalogue description a statement of approximate freight charges.



How to Send Goods to Us

1. To return by parcel post, pack securely in heavy paper and tie with a strong cord.

Address the package to us and write your name and address on it. See illustration.

Write a letter telling why goods are returned and what we are to do. Enclose this letter in an addressed envelope. Seal the envelope and paste it on the package under the string, as shown in the picture. Do not seal the package.

Place a two-cent stamp on the envelope and sufficient postage on the package.

2. To return goods by express or freight be sure that your name and address are on the package or crate. Enclose the agent's receipt in your letter and mail it to us.

3. If the merchandise was shipped to you direct from one of our factories, be sure to write us for shipping instructions before returning.

How to Estimate Freight Charges

All freight charges are based on a rate for 100 pounds from one city to another and on the class of goods in the shipment. The rates are different, too, in different sections of the country. You can figure very closely the railroad freight charges on any shipment from Chicago by following carefully the directions given here.

1. **Find whether you live in Western, Eastern or Southern Classification. See Table A below.**
2. **Find how your merchandise is classed—whether 1st, 2nd, 3rd or some other class of freight. See Table B below.**
3. **Find your city or city nearest you and the rate per 100 pounds to that city. See Table C at bottom of next page.**
4. **Multiply the rate by weight of article given in catalogue description. You then will have the amount the freight will be.**

Remember All rates are for 100 pounds, and the railroads charge for 100 pounds on all shipments of less than that weight. Over 100 pounds the charge is for the exact weight of the shipment. If the rate to your town is 60 cents a hundred pounds, and your shipment weighs 65 pounds, the freight will be 60 cents. But if your shipment weighs 110 pounds, the freight will be 66 cents. Therefore, it is to your advantage to build up your order to 100 pounds or more.

Example Suppose you live in La Crosse, Wis., and want to find the freight charges on 5 rolls of Radio Roofing. Table A tells you Wisconsin is in the Western Classification. Table B shows that roofing is 4th Class freight. Table C gives the 4th Class rate to La Crosse as 38¢ for 100 pounds. Five rolls of Radio Roofing weigh 425 pounds. Therefore, the freight charges will be 4¼ times 38¢, or $1.59.

Freight Charges on Factory Shipments

Many articles we sell—especially heavy or bulky goods, are shipped direct from one of our factories in order to save you handling charges. Therefore when estimating freight charges on factory or warehouse shipments, remember that you pay freight charges from point of shipment and not from Chicago. The catalogue description tells you when an article is to be shipped from factory or warehouse. When in doubt about freight charges, write us—we will gladly give you further information.

Table A

Freight Classification

The classification is not the same throughout the country, and classes are given below under three heads.

WESTERN CLASSIFICATION applies to

Illinois, Iowa, Missouri, Wisconsin

EASTERN CLASSIFICATION applies to

Connecticut, Delaware, District of Columbia, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia

SOUTHERN CLASSIFICATION applies to

Alabama, Florida, Georgia, South Carolina, Louisiana (East of Mississippi River), Kentucky, Mississippi, North Carolina, Tennessee

Write Us for Exact Freight Charges

We maintain a force of expert freight clerks for your convenience. Write us if you would like to have us figure the freight charges for you on any article you are thinking of buying.

We pack all merchandise so the shipment will cost you the lowest possible amount for transportation charges. Every article is packed to reach you safely.

How to Estimate Express Charges—Freight Charges Shown on Opposite Page

This is an official scale of Graduated Express Charges.

These rates were in effect when this catalogue was printed. They are subject to change.

First refer to Table C at bottom of next page and find the express rate to your nearest station.

In the column below under your express rate for 100 pounds, will be found the amount you will have to pay on express shipments from 1 to 50 pounds. If the exact weight of your goods or the rate to your station is not shown, refer to the next higher rate or weight and the result will be within a few cents of the correct charge. For example, if you find by referring to the table on Page 315 that the rate to your town is $3.67 per 100 pounds, and your packages weigh 15 pounds, the express charge will be 84¢, except on groceries. The charge on foodstuffs is one-fourth less than the charge on other merchandise.

Express is a quick and safe method of shipping. The express agent in your town will explain his company's service, and will tell you the correct charges on any shipment.

Parcel Post Charges Explained Here

Postage Weight Limit
Packages weighing up to 70 pounds each may be mailed to any postoffice in Zones 1, 2 and 3. Packages which do not exceed 50 pounds in weight may be mailed to all zones.

How to Find the Postage on Any Package Going Anywhere

To find the parcel post charges on any package you are mailing from your home to any town within 1000 miles—use the chart at right, locating the proper zone by finding at the top of the column the approximate distance the package is to go. In other words, use the table as though the name of your town were printed there, in place of "Chicago." Then figure the postage as told in the Example.

ON this page we give the necessary information to enable you to figure correctly the parcel post charges on merchandise you order from this catalogue. The parcel post map shows the territory served by our Chicago House—the circles representing zones. The scale of parcel post rates shows the charges to the various zones for packages of any mailable weight. Before writing out your order, be sure to read instructions on Page 314, "It Is Easy to Order from This Catalogue."

Make Out Your Order and Figure the Parcel Post Charges as Follows

Go through this catalogue and make out your order. You will notice that in each description we tell you either how much to send for postage or we give the weight of the article packed for shipment.

To figure the parcel post charges on the articles for which we do not give the postage—

1. Add up the weights of the articles to find the total weight.
2. Refer to the map on this page and find the zone in which you live—either by locating your own town, or the one nearest you shown on the map.
3. Then look in the table below. In the column for the zone in which you live the upper figure pays the postage on one pound of your order, the lower figure is the postage for each additional pound. The Example under the chart tells you just how to figure it.

Add to that figure the amounts of postage for the other items on which we tell you how much to send—and you will have the proper total for postage to include with your remittance.

Packages weighing up to 4 ounces may be mailed for 1¢ an ounce.

See Map for Zone in Which You Live

How Far Do You Live from Chicago ..... / What will Your Package Weigh	If you live in Zone 1 — Not more than 50 miles from Chicago	If you live in Zone 2 — Over 50 miles —not more than 150 miles from Chicago	If you live in Zone 3 — Over 150 miles —not more than 300 miles from Chicago	If you live in Zone 4 — Over 300 miles —not more than 600 miles from Chicago	If you live in Zone 5 — Over 600 miles —not more than 1000 miles from Chicago
For weights up to 1 pound, the Postage is.....	5¢	5¢	6¢	7¢	8¢
For each additional pound or fraction of a pound, add.....	1¢	1¢	2¢	4¢	6¢

Example If you live in the third zone and order merchandise weighing 10 pounds, the parcel post charge is 6¢ for the first pound and 2¢ for each of the nine additional pounds (18¢) making a total of 24¢.

These Letters Tell You How You Too Can Save Money on Groceries

These Letters Printed with Permission of the Writers

Saved $20.19 on One Order

"Received the order of Groceries, and everything was very satisfactory. One of my neighbors used some of the goods. We both were more than pleased with their high quality and low prices. Order came to $55.06. The same order, if bought here, would cost at least $75.25."

Mrs. G. Swanson, Luzerne, N.Y.

Ward's Coffee the Best

"Your Golden Ray Coffee is the best I have ever tasted. The quality is much better than the 45 cent coffees most stores sell. I would never buy any other kind. It is the best; and I always save money on every pound I buy."

Mrs. J. Simmons, Lake City, Mich.

Quality and Prices Can Not Be Beaten

"My order for Groceries arrived perfect in every detail—a credit to your house. Quality and prices of goods are most satisfactory. A considerable saving was made, even after allowing transportation charges."

George Morris, Whitehall, Mich.

Saved $10 on a $30 Grocery Order

"The order for Groceries which I sent to you was received, and I found every article satisfactory in every respect. As stated in your catalogue, the goods were very carefully packed; and this no doubt accounts for the perfect condition in which they were received. Can truthfully say that I saved $10 on this $30 grocery order. I want to compliment you on your prompt service."

John Holsten, Stephenson, Mich.

Makes Big Saving

"Received shipment of Groceries yesterday. Everything was in fine condition. I was well pleased with the quality of the goods, besides I made a big saving when compared to the prices I would have had to pay at local stores for the same good quality."

W. E. Timmons, Jackson, O.

Better Quality—Lower Prices

"Your Groceries are of excellent quality; far better than I can buy here at home. And your prices are much lower."

Paul Gossett, Belmont, O.

YOU can see from the Trial Order of Groceries shown above, just how much Ward's can save you on your grocery bills. Then remember too, every article you buy from us is of high quality. Ward's never sacrifices quality in order to give you a low price.

We want to send you a free copy of our latest Grocery Catalogue. This book lists and describes more than a thousand grocery items on which you can save money. You can economize if you will order groceries from this catalogue—for you buy direct.

Why It Pays to Buy Direct

Groceries are usually sold by a manufacturer to a jobber through a broker. The jobber sends his salesman to sell to the retailer. The goods are shipped to the retailer; then the retailer sells them to you. There is the manufacturer's profit, the broker's profit, the jobber's profit; the salesman's salary and traveling expenses; the handling, shipping and storage charges; and finally, the retailer's profit. You pay all these—and the goods are no better either. But when you buy at Ward's, the goods come from producer to us, and we sell them to you—the shortest, quickest, most direct way—and the most economical way for you.

Ward's Better Blend Tobacco for Smoking Satisfaction

Wardgrade Long Cut Tobacco

Great care was taken in selecting and preparing this Wardgrade tobacco. The choicest and tenderest parts of the sweet Kentucky Burley leaf tobacco were cured and aged by a process that makes it a fine mellow chewing tobacco as well as a cool, fragrant and mild smoke. It is steel cut into long threads of very narrow lengths.

Made and shipped direct to us to assure you of receiving only absolutely fresh stock. The tightly sealed can keeps the contents in good condition and retains its delightful flavor. Many customers have found Wardgrade such a satisfying tobacco that they will use no other.

Wardgrade Cut Plug Tobacco

Like our long cut Tobacco, this cut plug is made of the choicest quality sweet Kentucky Burley tobacco, acknowledged to be the best pipe tobacco grown in the United States. Carefully aged and cured this is cut into pieces larger and coarser than most smoking tobaccos. It is preferred by many old time smokers as it burns more freely and does not pack so tightly. Delightful in flavor, cool and does not bite the tongue—a most enjoyable smoke. We are glad to be able to offer it to you at this unusually low price.

Why 50,000 Boys Selected Forward Coasters

$4.98 Large Size Has Extra Strong Double Disc Wheels with Roller Bearings

EVERY boy who ever owned a Coaster Wagon or wanted one, knows just the things he wants his coaster to have. He wants an up to date model and that's what the Forward is—whether he uses it for play or work. The new, double disc ball bearing steel wheels make riding in this coaster a pleasure. And it's quiet too, the heavy rubber tires take care of that. It is so big and roomy that two can ride comfortably. The red trimming appeals strongly to the heart of any real boy, or his sister. Just enough flash to show off the natural varnish finished body, yet striking enough to catch the eye. Speedy? Just try it. Hop in, give a few gentle pushes and away you go. For a quick stop, push on the hand brake.

The Forward is made by men who are experts. They know from their experience exactly what the boy wants, and they've given it to him in this coaster. That's why 50,000 boys selected the Forward Coaster; and it's why your boy will be proud to own one.

Why the Forward Gives Such Unusually Long Service

1. Body—Is soundly made of good quality varnished hardwood. Trimmed in red. Generous size, 16 by 36 inches.

2. Bolster—Is made of tested steel and is firmly riveted to axle and bottom of bed. Makes the Forward extra strong and rigid.

3. Wheels—Roller bearing. Made of steel, double disc. Enameled red. Have ⅝ inch tires. Nickel plated hub caps.

4. D Handle—Shaft is made of hardwood with metal D handle. Securely riveted and bolted to bolster and will not wobble.

Handy brake over rear wheel. The wagon is easily and quickly stopped by pushing brake forward. Shipping weight, 30 pounds.

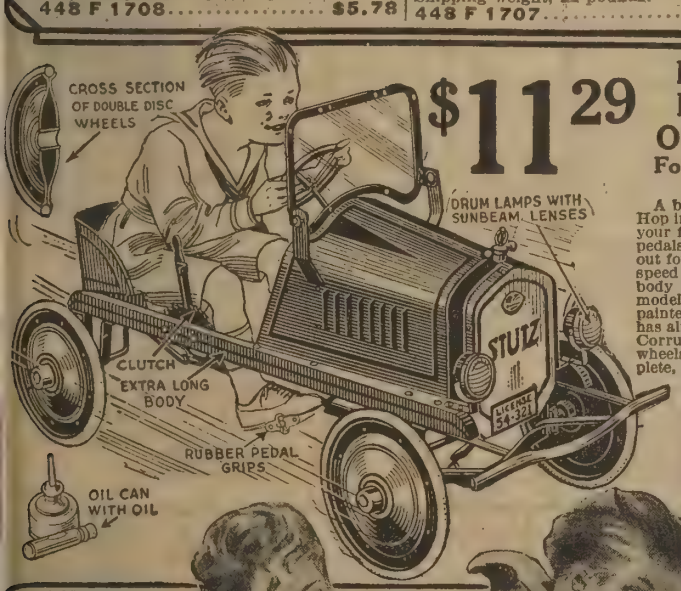
448 F 1709..... **$4.98**

Brake on Rear Wheel

You are always sure of perfect safety in the Forward Coaster, because at a moment's notice you can pull the brake and stop.

The Forward Coaster is so strong that it will stand up under the weight of two dozen good size children. This is many more times the weight ordinary use would require, but serves as an example of how sturdily the Forward is built.

$5.78 **Ball Bearing Forward Coaster**



Similar to above but smaller and has hardwood bolster and single disc, 10-inch wheels. Heavy rubber tires. Nickel plated hub caps. Brake over rear wheel. Size of body, 14 by 32 inches. Shipping weight, 30 pounds.

448 F 1708..... **$5.78**

$4.39 **Artillery Wheels Dreadnaught Coaster**

Strongly made and well braced. Built like Forward Coaster 448 F 1709 but with hardwood bolster. Has sturdy 8-inch spoked artillery plain bearing wheels. ½ inch axles. Shipping weight, 22 pounds.

448 F 1707..... **$4.39**

Papini's "Life of Christ"

$1.48

Regular Advertised Price $3.50 a copy

Public libraries all over the country have been unable to supply the great demand for this wonderful book. This is your opportunity to own this book for less than half the regular advertised price. You should order your copy today.

The Most Widely Discussed Book in America

Written by a man who for many years was an atheist—an unbeliever. Suddenly, during the war, he saw the light of religion and turned to the simple faith of Christ. After months of careful preparation he wrote this book, pronounced by critics as the greatest work of its kind ever published. It has for months outsold every other non-fiction publication.

Will Appeal to All Beliefs

Papini's "Life of Christ" will appeal to people of all beliefs. The story of Christ as a man and as a saviour is written in simple everyday language that all will understand and appreciate. It will help you to understand your Bible better than ever before.

Everyone Should Read It

This book should be in every home in America. Written in story form, it is instructive and intensely interesting to young or old. Being one of the best sellers on the market, the regularly advertised retail price is $3.50 a copy.

Ward's Special Low Price

Through an exclusive arrangement with the publishers we offer a special limited edition to our customers at the very low price of $1.48. You can buy this book at this low price only from Montgomery Ward & Co.

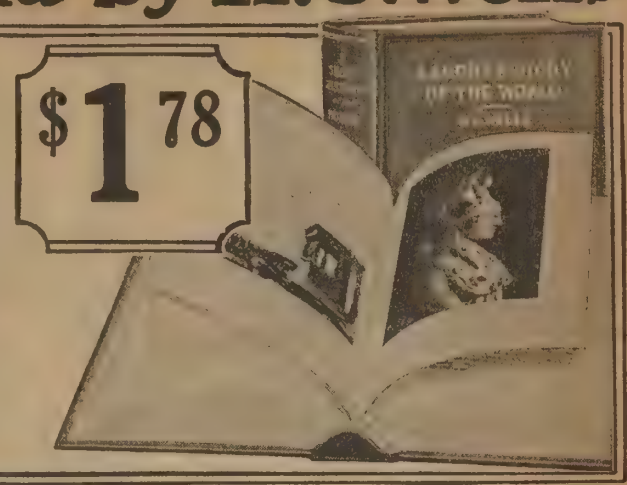
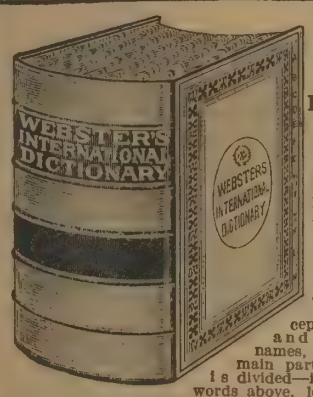
"Short History of the World" by H.G. Wells



The World Since the Beginning of Time—In One Volume



It is acknowledged that never before has such a complete history been brought together in one volume. H. G. Wells takes the reader on an intensely interesting arm chair excursion from the beginning of time, up through the different stages of civilization, through the period of the World War and until 1922. He describes the world before the dawn of even the most ancient civilization, through the rise and fall of Empires, the beginning of Christianity, and all in such an interesting manner that anyone, young or old, will enjoy reading it. Will appeal particularly to the busy reader who wants to know history but cannot find time to study extensively. This history is not just a record of bare facts and happenings, but an interesting story of world development written in simple, everyday language. Everyone should read it.

H. G. Wells has been called the most realistic writer of the day. He has the reputation of knowing better than any other writer how to make as interesting as a novel the long list of dates and events that one associates with the subject of history. That is exactly what he has done in this book, which everyone will benefit by reading. One of the most widely read books of the day. It contains 455 pages and over 300 fine illustrations. It is sold by all leading bookstores at $4.00 a copy. Our contract with the publishers enables us to offer this book to you, for a limited time, for only $1.78. At this low price you can buy it only from Montgomery Ward & Co. Attractively bound in cloth, and printed on good paper in large type. Size, about 6 by 9 inches.

Webster's New Modern Dictionary
For Home, School or College Use

Self Pronouncing

Full Page Illustrations in Color

$1.28

Every home needs a good Dictionary. The children in their school work and the older folks in their reading will find it a great help, almost a necessity. A thoroughly reliable and strictly up to date reference work; based upon the broad foundation laid down by Noah Webster, L.L.D.

The Dictionary proper is compact in form and contains 921 pages of definitions which really define. Wherever an illustration or diagram would help make the meaning of a word clearer, you will find one. Many new words and special features have been added to this edition. In addition to the dictionary proper, there are 211 pages of valuable information. The following exclusive departments greatly add to the value of this volume:

Dictionary of radio terms and wireless words, terms and phrases.
The Latest Words developed during the World War.
Synonyms and Antonyms.
Foreign Words, Phrases and Proverbs.
Commercial and Legal terms.
Glossary of Automobile terms.

And many other chapters of useful information. Well illustrated. Printed on good book paper in clear, readable type. Bound in imitation leather seal grain, flexible. Size, 5½ by 7½ inches; 1132 pages. Order yours today—it will be one of the best investments you ever made.

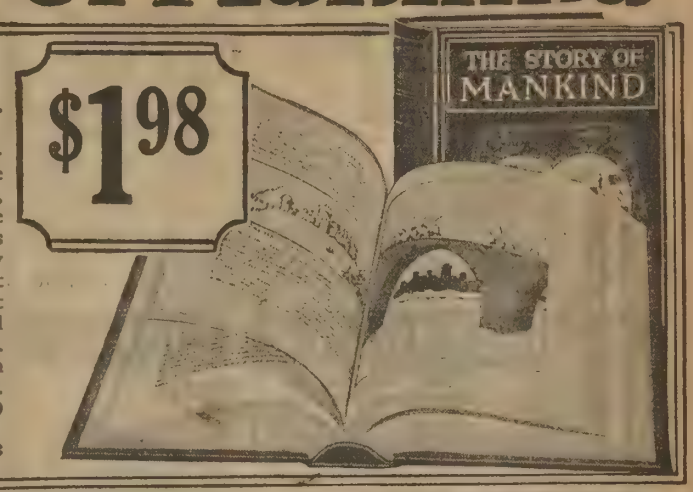
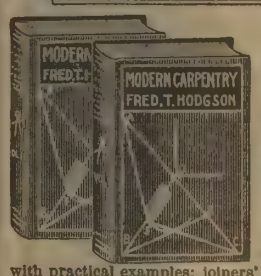
Van Loon's "Story of Mankind"



Written to Educate Children—Intensely Interesting to All

Hendrik Van Loon has become world famous because of his simple, interesting manner of relating history. The "Story of Mankind" is probably the most important book that has ever been written for children. But the entire family will find it one of the most interesting of all books, because it deals with such a fascinating subject.



The "Story of Mankind" relates the entire history of the human race. Beginning in the dim and mysterious past, when the earth was without life of any kind—it tells of the beginning of life—the origin of the human race. The reader is conducted through the different stages of civilization—the middle ages, into the history of the last few centuries—our own modern civilization. Many subjects are covered which the average child has no opportunity to study in school.

Instead of a lot of dry, uninteresting technical description, Mr. Van Loon treats these subjects in a delightful story telling way, which immediately captures and holds the interest of the children and grown folks as well. This widely read book sells regularly at bookstores for $5.00 a copy. It is in great demand at all libraries. We have a contract with the publishers of this book for a special edition, which we offer at $1.98 a copy. Montgomery Ward & Co. is the only store in the country selling this book at this low price. Cloth bound. Size, about 6 by 9 inches; 489 pages.

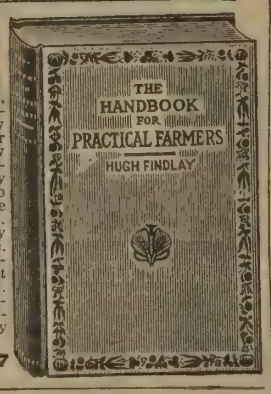
Farm Helps



The Handbook for Practical Farmers

$2.57

By Hugh Findlay.

What makes farming profitable? Good weather, good soil, good equipment and proper methods. The successful farmer today must be a good business man. He must also know something of the science of agriculture. You can make your work easier and your profits larger if you will take only a few minutes a day to study this fine book, which covers all subjects that good, practical farmers should know. Carefully written by men who are experts of long experience, and who are well known in agricultural circles—men chosen because of their ability and their thorough knowledge of farming. Special chapters on farm problems, truck farming, poultry and animal raising, dairying, keeping farm records, etc. Written in simple everyday language. This book sells regularly for $5.00 a copy, but through a special arrangement with the publisher we offer a limited quantity at only $2.57. At this low price this book can be bought only from Montgomery Ward & Co. 558 pages of good sound helpful suggestions for the farmer. Printed on good paper in large, easily read type; 250 fine illustrations. Bound in cloth.

Standard Wall Safe

The walls of our Safes are made of one continuous heavy steel plate, electrically welded to heavy steel front and back. This gives remarkable strength as well as attractive appearance. Front doors are massive and strong. Heavy hinges with nickeled tips. Secure bolts and tenon and groove arrangement will hold the door securely, even if hinges were knocked off.

Non-pickable Yale combination lock on door practically eliminates the chance of any one, not knowing the combination, from gaining entrance.

A special cement filling between the walls solidifies them and also makes them fire resisting. Safes are shipped direct from factory. We put your name on safe in gold letters without extra charge, when so ordered. Our name does not appear. This usually causes a delay of 15 to 30 days, but shipment is made at the earliest possible moment.

Genuine Oliver Typewriter

Brand New Not Rebuilt

Model No. 9

Our Price $39.75

Positively the Lowest Price Ever Offered on a New Oliver

Letters written on a Typewriter are easy to read and usually receive quicker attention. This is your opportunity to obtain a Standard Oliver No. 9—brand new, for less than $40; hardly more than what you would be asked to pay for a rebuilt second hand typewriter.

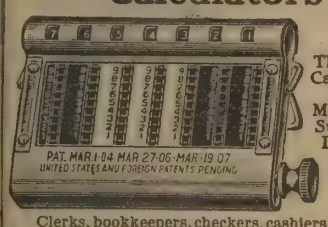
Serviceable—Dependable

This Oliver No. 9 is truly a writing machine for all purposes. No matter what your requirements—in home or office—it will take care of them. With its full keyboard, it writes 84 characters and the writing is always in plain sight. The convenient arrangement of all operating keys and levers makes operation very simple. Built sturdy and strong, and good looking, too. It has fewer parts than any other standard typewriter. Delicate springs and thin wire parts—trouble makers in practically every other typewriter—are not to be found in the Oliver. Only thoroughly tested, wear resisting parts are used. That is the reason for the dependable service the Oliver always gives.

Used and Endorsed by Thousands

Today there are more than 500,000 Olivers in use by individuals and firms the world over. The New York Central Lines, United States Steel Corporation, Hart, Shaffner & Marx and many others of the country's largest firms are being served by the Oliver. Montgomery Ward & Co. has used it for 20 years. And this machine which we offer you at such a big saving is exactly like the Olivers used by these concerns. In every respect it is the same and guaranteed by the Oliver Typewriter Company.

Try the Oliver for 30 Days



Try this new Oliver No. 9 in your home or office for thirty days. Put it to every test—make comparisons. Then if you are not satisfied tell us. We will give you return shipping instructions and refund all of your money, including any transportation charges you have paid. Order your typewriter today. With the machine, free of charge, we include a substantial rubber cover, box of tools, bottle of oil and an instruction book. We can furnish the Oliver with extra length carriages on request.

If you wish more information we will mail you a special catalogue.

A Few of the Oliver's Features: Automatic linespacer; back spacer; line lock; shift lock; two color ribbon; stencil cutting device, tabulator; letter indicator; ruling device, automatic paper feed, and removable carriage.

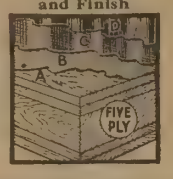
TRADE MARK

Master-Made Furniture-Why Its Beauty Lasts



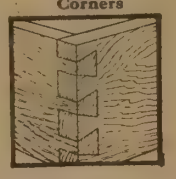
F. E. DEUBERT
Department Manager

WHEN you buy Master-Made Furniture, you can be absolutely sure of two things—well designed furniture, built for long satisfactory service, and a price lower than you would usually pay for such good quality elsewhere. We have invested hundreds of thousands of dollars in furniture factories to build furniture up to Ward's standard of quality—to be able to sell you furniture that we can guarantee to be right in every detail of construction.

Take, for example, our Master-Made Period Bedroom Outfits. In this furniture we use five-ply veneer for tops instead of three-ply. This gives greater strength and is a sure protection against warping. We could buy three-ply cheaper, of course, but it would not be good enough to offer our customers.

The illustration at the right shows the method used in building these five-ply tops. The cross graining gives the added strength necessary to good service and long wear. In this illustration we also give you an idea of the fine, lasting finish on Master-Made Furniture.

Construction and Finish



The letter A marks the genuine Walnut Veneer that has received the first coat of stain. B shows the next coat which is varnish. This is rubbed down to a fine smooth finish and another coat, C, is applied. The surface is then hand rubbed in oil giving the final beautiful dull finish D, that is so lasting and permanent. Joints are dovetailed and glued, both front and rear, to prevent pulling apart. (See illustration below.) Drawers are veneered and finished on the inside. Mahogany and walnut finishes are rubbed instead of the glossy finish that you would expect on furniture selling at such low prices.

It is these features that determine the quality of furniture, and our inspectors at the factories see that every piece of Master-Made Furniture is built to meet our exacting standard for fine quality.

We take great care in crating our furniture, to be sure that it will reach you in good condition—another precaution that makes satisfied customers.

Dovetail Corners

Another small but very important detail in Master-Made Furniture is the hardware used. All drawer handles and pulls are designed and finished to harmonize with the period of the furniture. Illustration at right shows enlarged view of antique silver drawer pulls used on set below.

I wish you could read the enthusiastic letters that we receive from customers stating that they never expected to receive such high grade furniture for the price they paid.

Make your own comparison of prices—but be sure to compare construction, workmanship, quality and finish as well. Furniture of poor quality may be well finished but outward appearance is not always an indication of good workmanship. Master-Made Furniture is the finest quality—inside and out. You will be surprised how much you can save by furnishing your home at Ward's.

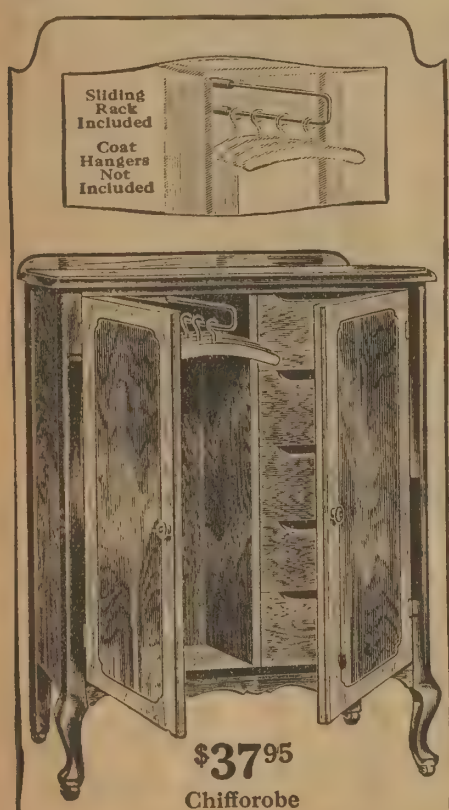
New Three-Tone Walnut Veneer



Queen Anne Design

Beautiful design, refined lines, perfect proportions and the finest cabinet work make this one of the most atttractive Queen Anne Bedroom Sets on the market to-day. If you could visit all the high grade furniture stores in the large cities, you would find sets very similar to this, featured in the new and beautiful three-tone finish. The ebony posts and edges make a pleasing and delightful contrast with the two tones of the richly figured Genuine Walnut Veneer. This design and finish is selected for many of the finest homes because it is so attractive and harmonizes so perfectly with almost any other furnishings.

Detail Showing Contrast in the New Three-Tone Finish

This set is an exact reproduction of one of the finest and most expensive designs of a leading manufacturer. By purchasing many hundreds of these sets at one time, we are able to make a price just about half what you would pay at the average retail store for furniture of equal quality. Every piece is Master-Made, which means that you can depend absolutely upon the quality and the workmanship. You are sure of furniture that is beautiful in appearance and that will give long lasting service. When you see this furniture in your own bedroom you will be surprised that it is possible to buy such beautiful high grade furniture at such a low price.

$37.95
Chifforobe

Three-Tone Walnut is so popular because it provides such a pleasing contrast. Dark, beautifully grained walnut is combined with walnut of a lighter color, and with ebony finish trim. The finish consists of many coats, carefully rubbed to secure a dull, smooth surface that does not easily show scratches. Full dustproof construction throughout, to keep the dust from your clothes. Heavy plate mirrors are set in massive frames. Drawer pulls are silver plated.

Every man will appreciate the many conveniences of either the Chifforobe or the Chifforette, and the large well designed Vanity Dresser will appeal to every woman because she can sit down to comb her hair. The big triple mirrors of the vanity may be adjusted to any angle desired. Bed has full bow ends and wood side rails, which look much better than the steel side rails usually furnished at this price. The Dresser, with its roomy drawers and large mirror, presents a fine appearance and provides an abundance of storage room.

Chairs and bench are of exceptional quality as to materials, workmanship and finish. Genuine Walnut with hardwood finished to match in the beautiful three-tone effect.

All tops and fronts in this set are made from five-ply veneer—a big feature in any furniture because it will not warp easily. Joints will not pull apart. The set is exceptionally well finished throughout. Any piece may be bought separately.

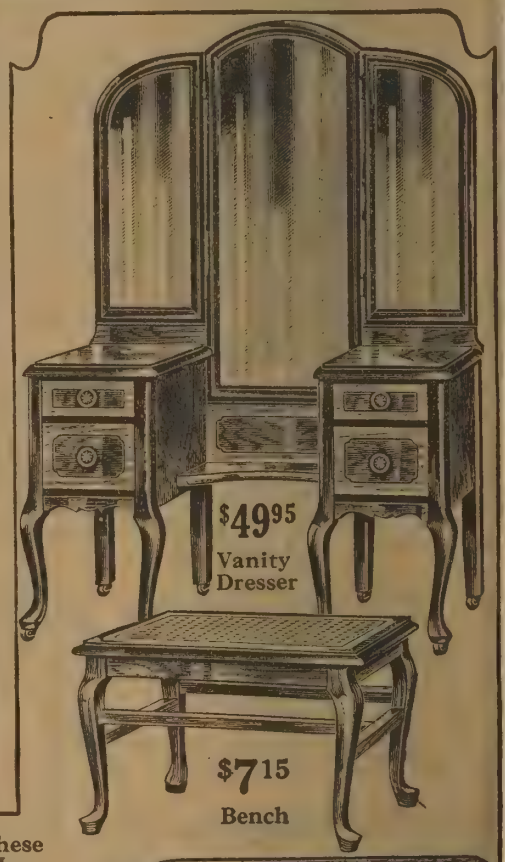
Master-Made Construction Throughout

Bed. Strongly built with five-ply veneer panels. Finish carefully rubbed. Wood side rails. Foot end finished on both sides. All legs fitted with easy rolling casters. Entire height, 54 inches. Furnished in 54-inch width only. Full bow ends. Bedding not included.

Dresser. Full dustproof construction throughout, which means every drawer is separated from the one beneath or above by a dustproof partition. Top is 45 by 20 inches. Heavy plate mirror, 30 by 24 inches, in a well designed frame, supported by handsomely turned posts. Legs fitted with easy rolling casters.

Vanity Dresser. Every woman loves a Vanity Dresser because of its many conveniences. This one is extra large with base, 46 by 18 inches. Full dustproof construction and high grade rubbed finish. Big center mirror, 46 by 18 inches. Side mirrors, each 28 by 10 inches. Can be tilted to any angle desired. Easy rolling casters. Mirrors are heavy plate, set in massive frames.

Chifforette. Plenty of room for the man to keep his clothes. Top, 34 by 18 inches. Two large drawers, and top section contains three roomy trays. Closes up with two attractive doors. Fitted with easy olling casters.



Chifforobe. Many men prefer a chifforobe because of the roomy compartment fitted with hangers for suits. Height, 55 inches, 38 inches wide and 20 inches deep. In addition to the wardrobe compartment, there are five roomy trays, 12 inches wide and 15 inches long. Equipped with easy rolling casters. Five-ply veneer construction. Finish carefully rubbed.

Chairs. Rocker and chair are strongly constructed, well braced and designed for comfort. Genuine Solid Walnut top and lower back slat. Five-ply walnut veneered back panel. Seats are of genuine cane, such as is found in the highest grade furniture.

Louis XVI Design Bedroom Set

All lovers of fine furniture will be proud of this beautiful and artistic set in their bedroom. Every piece is so gracefully proportioned and so charmingly designed that any choice of pieces suited to your needs will make a beautiful room you will be pleased to show your friends. And you can have this entire set, or any choice of pieces, by paying only a small amount down and the balance in monthly payments.

The overlay panels on the front of all pieces are an indication of good furniture design and workmanship. The pleasing figure of the wood in these panels makes an unusually effective decoration. Seldom will you find this feature in furniture at so modest a price. The long sweeping curves of the bed and mirror frames suggest the refined lines so much desired in fine furniture. Notice the artistically turned supports of the dresser mirror and the characteristic fluted and turned Louis XVI legs. The bottom edges of all pieces are trimmed with a distinctively designed moulding. Mirrors are heavy plate glass. Drawers in all pieces are separated by dustproof partitions. All drawers have genuine mahogany bottoms, all corners are dovetailed and glued. Ebony finished frames, posts and edges. Antique silvered handles and drawer pulls. All pieces have easy rolling casters.

Bed. Graceful bow end foot. Attractively decorated in overlay panels. Strong wood side rails. Height, head end, 51½ inches; width, 54 inches. Bedding not included.

Dresser. An important part of your bedroom; useful and handsome. Height, 70 inches. Top, 48 by 22 inches. Plate mirror, 34 by 28 inches.

Vanity Dresser. Longer mirror and lower top than on ordinary dressers. You can turn the 28 by 10-inch side mirrors to any angle. French plate center mirror, 40 by 18 in. Top, 46 by 18 in.

Chifforobe. Four drawers, hat compartment, and long closet with clothes rack. Top, 40 by 22 inches.

Chifforette. One of the most convenient pieces of furniture for the orderly arrangement of clothing. Panels are beautifully matched and carefully finished. Deep drawer at bottom; three sliding trays. Height, 48 inches. Top, 38 by 21 inches.

Small Monthly Payments Will Make Your Home Attractive

A new two-tone Set we have added to our bedroom furniture because so many of our customers have wanted a design in which the light and dark tones were more prominent. We had our designer make this set to meet that requirement. It is very unusual and attractive—a pleasing set for any bedroom. Made with American Genuine Walnut veneer dull rubbed finish. Just imagine! You can own a set like this for only a small amount each month. You need not be without good furniture any longer. We are glad to help our customers beautify their homes.

In this set the light bands and panels bring out the beauty of the darker toned finish. Not until you have seen this set in your own bedroom will you realize how attractive a two-toned set can be. Remember when you buy furniture you buy for the future. You will own it for a long time and you should select a style and design that will be in good taste for many years. Master-Made furniture is built to give long service and designed in a style that is neither too plain or too extreme. You will find our sets are made and finished to give many years of faithful, dependable, wear. Note the full length mirror in the chifforobe—a great convenience. All pieces have easy rolling casters.

A Master-Made Bedroom Set of Character and Beauty

Queen Anne Two-Tone Walnut Veneer Bedroom Set

Beautiful Rich Walnut Graining

$52.85 Vanity Dresser

$34.85 Bow End Bed

Chair, Rocker and Bench in Set Shown Above will Match This Set

$49.85 Dresser

$36.85 Large, Roomy Chifforobe

Every woman wants to have the kind of furniture which will make her bedroom a room of beauty. Of course Master-Made bedroom furniture always is built with that in mind; but in making this Queen Anne Period Two-Tone Set we have gone even further than usual in striving to produce furniture which you will be proud to have in your bedroom. This is one of our finest sets and it is of exceptional quality, yet as always, you get the benefit at Ward's of a lower price than you would pay for such fine quality elsewhere.

American Walnut Veneer

Built in genuine American Walnut Veneer construction in combination with high grade, select hardwood. This veneer construction has a twofold advantage. First, it prevents warping and cracking of the wood, thereby producing exceptional strength and durability. Second, it brings out the full beauty of Walnut and at a great deal lower cost than if solid walnut were used. The finest pieces of furniture are today made of veneered woods because of this fact.

Joints are mortised and tenoned which is the method used in the most expensive furniture. Drawers are made with extra strong, three-ply bottoms, instead of the usual single ply. Drawer joints are dovetailed. Hardware is silver plated. These are all important details; they are marks of superior value — signs of quality furniture. You will always find these small details in Master-Made Furniture receive first consideration.

Two-Tone Walnut Finish

The finish is dull rubbed Walnut, with overlays of Walnut veneer finished a harmonizing, lighter tone. Much of the beauty of this set lies here in the rich effect procured by the clever use of the toning on these panels. You will find very few sets that really are beautified by two-toning—But here our experts have procured an unusual contrast that will at once be noticeable when you have this set in your home.

Bed. Bow end style with gracefully arched head end. Embossed molding along bottom of foot end. Gracefully curved and beautifully carved feet. Height at head end, 48 inches. Wood side rails. In 54-inch width only. Easy rolling casters. Bedding not included.

Dresser. Extra large, with 45-inch top, 22 inches deep. Landscape style adjustable plate mirror, 24 by 30 inches. Top has beveled edge; embossed molding on lower edge of front; carved feet. Easy rolling casters.

Vanity Dresser. Tall center plate mirror, 44 by 16 inches. Adjustable side plate mirrors, 24 by 10 inches. Entire width, 45 inches. Depth, 18 inches. Two drawers and shelf. Easy rolling casters.

Chifforobe. Arranged to give the greatest convenience at one side is wardrobe section with hangers, allowing you to hang a large amount of clothes in a small space; four drawers and a hat compartment. Will be found to be a great convenience for small articles of wearing apparel. Doors are dustproof. Entire height, 54 inches. Width, 36 inches. Easy rolling casters.

A Master-Made Set Three Finishes

Everybody who has selected from this Ten-Piece Bedroom Set is convinced that we offer high quality furniture at extremely low prices. It is so well made and so attractively designed that it will add to the appearance of any home.

The popular Queen Anne pieces have beautiful proportions and lines of artistic beauty. Gracefully curved legs, arched top rails, and beautifully matched panels. All the large pieces are veneered on tops, fronts and sides in genuine American Walnut, rich dark brown Mahogany, or quartered Golden Oak. Chairs, rocker, and bench finished to match. Every piece is skillfully joined and reinforced and must pass the careful inspection of furniture experts.

Door and drawer pulls are finished in antique silver. The perfect fitting, dovetailed drawers are cherry stained inside. Handsome dull rubbed finish—like all of our Master-Made sets.

Bed. Bow end gracefully curved and braced. Height, 32½ inches. Metal side rails. Height, head end, 47 inches. Width, 54 inches. Easy rolling casters. Bedding not included.

Charming Seven-Piece Louis XVI Bedroom Set

$22.75 Bow End Bed

$27.75 Dresser

$7.45 Rocker

$40.95 Vanity Dresser

$24.75 Chifforette Sliding Trays and Hat Compartment in Upper Section

Improve the appearance of your bedroom with this fine Set in Ivory Enamel or American Walnut Veneer. The artistic Louis XVI design with its trim, graceful lines, will add much to the beauty of your home. It is one of our most pleasing sets because of its attractive appearance and sturdy construction. The entire set consists of seven pieces.

This set is very popular in the cheerful Ivory Enamel finish, because it reveals the fine two-tone effect in the decorations. This attractive and charming finish always looks bright and new as it is easy to keep clean.

In walnut the soft dull rubbed finish gives each piece a remarkably fine appearance. Tops are of closely matched 5-ply walnut veneer. Fronts are cut from one large piece of walnut veneer which harmonizes perfectly. All exposed surfaces are veneered with genuine American Walnut. Upright posts and standards are carefully made of hardwood, finished walnut.

You will at once recognize the beauty and exceptional quality of this attractive set. Combined with these two features you have the added advantage of an exceedingly low price that will enable you to own a Period Bedroom Set at a small outlay. Master-Made construction throughout is your assurance of the best.

Ivory Enamel Bedroom Set - Adam Period

Durable Ivory Enamel—Easy to Keep Clean

Ivory Enamel Set in the popular and pleasing Adam Period. This combination of design and finish makes a most charming and attractive set of bedroom furniture. Not only will this set add much beauty to your home but it will present a bright and cheerful appearance to your bedroom. Enamel furniture is especially suitable for the guest room or your daughter's room. The embossed decorations in darker shades of ivory produce the interesting high lighted ivory finish.

Wiping occasionally with a damp cloth will keep the finish clean and in perfect condition. The tops and fronts of all pieces are five-ply veneer construction, all other exposed surfaces, three-ply. All drawer bottoms, three-ply veneer to prevent warping. Every piece in this set is strongly made and carefully finished.

Antique silvered drawer pulls and knobs on dressers, chiffonier and writing desk. All pieces finished and designed to match so any pieces you choose are sure to look well in your bedroom. The desk in this set is a piece of furniture often needed but seldom found at so low a price to match the set.

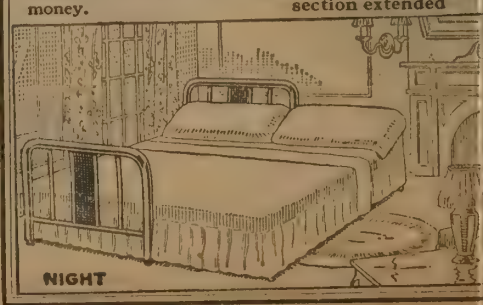
Showing extra sleeping section concealed

This simple operation almost doubles the width of the couch, making a large size roomy restful bed.

The soft cotton felted mattress folds. Folded up it is the width of the Day Bed, unfolded it is the width of the bed. The springs are of the restful linkwire fabric type. They are reinforced and have non-sagging side bands of flexible steel.



All the Day Beds on this page are Master-Made which means longer and better service and more value for your money.

From a handsome Couch to a full size comfortable double bed, in two simple operations. Having one of these Master-Made Day Beds is just like adding an extra room to your home.

In the sketch at the left you see the construction of the day bed with its mattress and drape removed, showing the extra bed section concealed beneath the couch. To make a full size comfortable bed you merely pull out this extra section which takes only a few seconds.

Comfortable Folding Cots

There are so many ways in which these Cots are useful, that every home can use one or more. They are ideal for the spare room, the boy's room; or for a summer cottage they serve very practically and cost so little. For camping or as a bed for the sleeping porch, they can not be equalled. The head and foot ends fold compactly, and slide out of the way under the spring. They are very light, yet strong enough for every ordinary use. Folded flat, they occupy very little space and can be stored away in a closet.

Oxidized Copper Finish

A necessity in every home. And at this low price you will surely want one. The restful link fabric wire spring is 17 inches above the floor, and is supported at both ends by strong spiral coil springs, giving equal sleeping comfort to most full size beds. Head and foot ends are 25 inches high. Continuous 1½-inch steel tubes form the head and foot pieces. Finished in a durable oxidized copper. Rigidly built and strongly braced. Steel casters. Luxurious Double Deck Spring—For Refreshing Sleep

One of the Best High Grade Coil Springs You Can Get for Your Home

Compare This Price with Other Springs of This Quality

$13.75

Built for Years of Service

Notice the double deck coils with cross wires through center and fastened at the top by metal plates and spiral springs.

Illustration Shows Adjustable Metal Brackets and the Riveted Double Truss Construction

Arrow Points to Strong Spiral Spring Which Supports Heavy Steel Border Wire and is Fastened to Rounded Angle Steel End

No matter how little or how much work you do during the day, when night comes you need sound, refreshing sleep. In order to get the greatest benefit from your night's rest, all muscles in the body must relax completely; and only if you rest comfortably is this possible. Naturally the way to attain this comfort is by sleeping in a good bed—and a good bed demands a good bed spring. Here is a spring that yields to every movement of the body and makes complete relaxation possible. The spiral cross springs make your bed silent—a most important factor to good rest. Remember one third of your life is spent in bed—why not spend it in restful comfort.

Ninety-nine Coil Springs. Firmly set in individual sockets, on steel slats, are 99 oil tempered large spiral springs. They are built into the frame in what is known as the double deck construction. This means that the steel slats at bottom of the bed spring are lower than the side rails and that all the springs except those at the edge, which are 7 inches deep, have the advantage of extra length. Long coils are more resilient than short ones, so this spring, with its 9-inch spirals, gives perfect cushioning.

Noiseless Cross Springs. The top of each large coil is firmly tied to four coiled cross springs. Where these small cross springs come together, they do not cross one another, but each group of four is attached to a small square plate. This prevents rubbing of spring against spring, and quiet rest is assured. Friction is reduced and life of the spring prolonged.

Reinforced Side Springs. Strong, 7-inch coil springs support the heavy side border wire which is attached to the angle ends. The two sides are further strengthened by a heavy ⅝-inch steel border wire which prevents sagging. These border wires, one on each side, are fastened to the angle ends by flexible spiral springs. This produces the square box edge so much desired by all housekeepers. These spiral springs prevent the edges of the spring from sagging after a short time.

The Double Truss Bottom Frame is an extra bottom support which adds more strength and supporting power to the frame and can hold much more than the ordinary weight. This feature alone will make this spring last you many years longer. All springs are machine riveted—a much better method than hand riveting.

Strongest Construction. The angle ends with rounded corners are made of sturdy steel, not simply wire, and rigidly braced against the angle iron sides of the frame. They absolutely do away with side sway or sagging. The heavier 7-inch springs along each side are all attached at the top to the extra strong wire edges, which are spring supported and attached to the angle ends. All the large spirals are set on steel slats which extend across the spring at the bottom.

Careful Inspection after the spring is finished, of every detail of workmanship is made by men who have had years of experience in making high grade springs. These springs must also undergo a special process of heating and tempering to give the springs the proper elasticity.

Adjustable Metal Corner Brackets fit any full size bed. You can adjust them to rest on the side rails of a steel or a wooden bed with steel rails or will fit a wood bed with wood rails. Handsomely finished with baked-on French gray enamel. If you want sleeping comfort and rest such as you have never known before, get this spring—one of the finest that can be built. Shipping weight, 54-inch width, about 83 pounds.

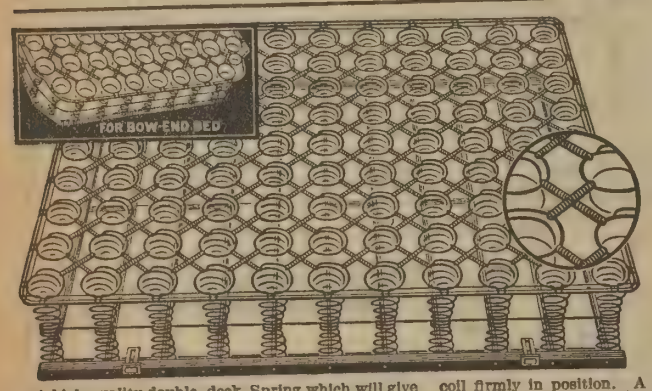
Cross Coils Give Added Comfort and Prevent Disturbing Noises

$7.45 Non-Sagging Coil Spring 99 Large Flexible Coils



You will have many nights of restful sleep if you use this well built coil Spring. It is of exceptionally good quality and construction and the price is unusually low. Made as a spring should be made—every inch of sleeping surface a spring surface. The tops of the 99 large flexible coils are held in place by 160 smaller spiral springs and are fastened at the bottom to strongly riveted steel slats. The spiral springs at the top are extra long and increase greatly the strength and springiness. This spring can not sag, the flexible coils support every part of the body comfortably. Even two persons of greatly different weights will not roll toward the center. It is comfortable for heavy or light persons alike and will not readily lose its shape and resiliency. The whole spring will keep its shape for years. Heavy angle steel frame, the strongest possible bed spring construction. Heavy steel border wire with rounded corners. Adjustable metal corner brackets. Fits wood or metal beds. Gray enamel finish. Shipping weight, 54-inch width, about 60 pounds.

Flexible Double Deck 99 Coil Springs Cross Construction

$9.85

A Good Spring means a good foundation for your body at night.

A high quality double deck Spring which will give you many years of excellent service. This is the kind of double deck spring which is so flexible and well built that it always keeps its shape. It has 99 9-inch coils of heavy tempered steel wire fastened at the bottom to flat cross rods of specially treated steel. At the top these cone shaped coils are held together by 160 cross springs which make the spring buoyant and strong. In the center of each coil are wires running both lengthwise and crosswise; these hold each coil firmly in position. A heavy border wire with rounded corners keeps the whole spring square and even. The angle iron frame has adjustable corner brackets for wood or metal beds. Shipping weight, 54-inch width, about 68 pounds.

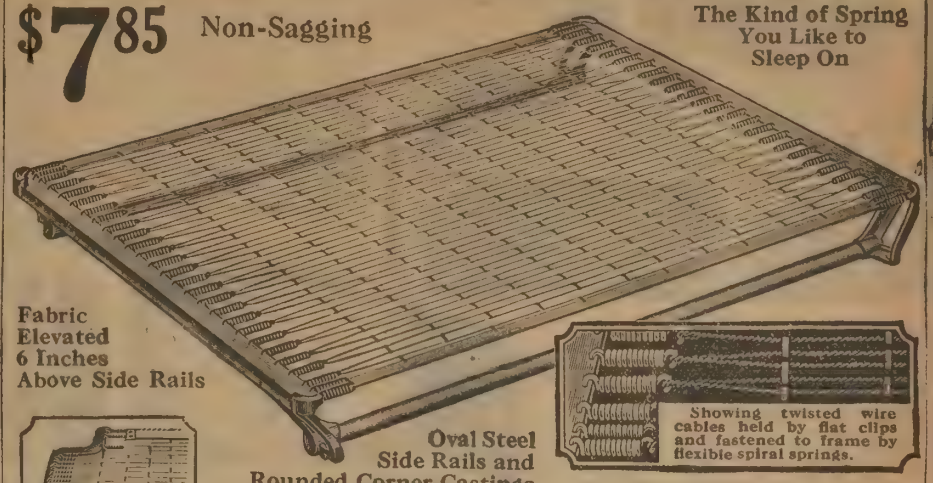
Steel Slat Fabric Spring

Buoyant Sleeping Surface
Rounded Corner Castings

To get the utmost comfort and rest out of your beds, they must allow the body to relax. Only by having a Bed Spring that conforms to every contour of the body, can this be accomplished.

Lasting comfort has been built into this restful slat fabric Spring. Specially priced. Built to stand a great deal of service without sagging or losing its buoyancy. The sleeping surface has just enough give for comfort. The surface of galvanized steel slats is firmly held together by interlocking cross wires and fastened to the heavy angle steel ends by 54 tempered spiral springs. Each edge is strengthened by a flat steel band, 1¼ inches wide. Because of this construction the edge of the bed will not sag under your weight and is as comfortable to lie upon as the center of the bed. The ends are connected to side rails of 1⅛-inch oval steel tubing by smoothly rounded and very strong malleable iron corner castings, which elevate the sleeping surface six inches above the side rails, so it can not strike the sides of the bed. Durable gray enamel finish. Shipping weight, largest size, about 50 pounds.



WIDTHS: For metal beds or wood beds with steel rails, 48 or 54 inches. For wood beds with wood rails, must be made to order—about three days required. **State size wanted.**

Flexible Cable Fabric Spring

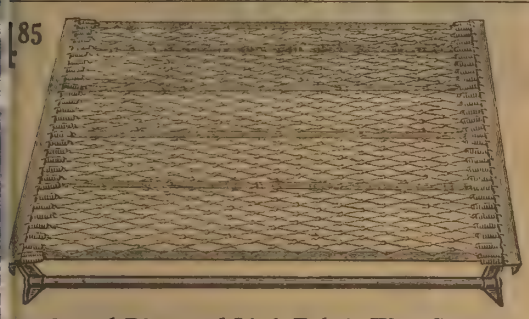
$7.85 Non-Sagging

The Kind of Spring You Like to Sleep On

Fabric Elevated 6 Inches Above Side Rails

Showing twisted wire cables held by flat clips and fastened to frame by flexible spiral springs.

Oval Steel Side Rails and Rounded Corner Castings



One of the very best cable fabric Springs made. A comfortable, squarely dressed bed—the pride of every housekeeper—is assured when you use this spring. The independent action of the separate strands of the fabric makes it possible for persons of uneven weight to sleep on this spring without disturbing each other or rolling to the center. This spring has a remarkably good sleeping surface.

The sleeping surface is as flexible as anyone could wish because it is made of **wire cables**, each one consisting of seven tightly twisted and very strong wires. **Flat links** hold these cables so that the mattress rests on a perfectly level surface, and prevents it from being torn. **Highly tempered spiral springs**, 54 in all, hold the wires to the angle steel ends of the frame. Here is where you have strength, firmness, and elasticity—just where it is needed most of all.

The edges of the sleeping surface are well supported by **broad, flat steel bands**, 1¼ inches wide, which make the edges as comfortable as the center. These steel bands lengthen the life of the mattress by keeping it in shape and they form a straight, even edge. They are slightly flexible but very strong and carry the extra weight if you sit on the edge of the bed. At each end of these steel bands are two strong, spiral springs which also help to keep the edges of the spring level at all times and add still greater strength and elasticity to the sleeping surface. **The side rails are of 1⅛-inch oval steel tubing.**

Strong malleable iron castings—which are practically indestructible—have double arms for strength and security and connect the side rails to the angle steel ends. The castings elevate the sleeping surface about 6 inches above the side rails, giving the much desired box spring effect. **This well made spring has smoothly rounded corners** which prevent tearing of any of your bedding. Durable baked on French gray enamel. Made for straight end or bow end metal beds only. Width, 54-inch only. Shipping weight, about 55 pounds.

Bed and Spring Outfits

$10.98

Finished Ivory Vernis Martin Oxidized Copper

You will like these steel Bed and Spring Outfits for several reasons: Lower price; a complete two-piece outfit in one; and, best of all, a bed which needs no side rails of its own because the side rails are built into the spring frame. When you sit or lie on the edge, the sleeping surface will not strike the rail below, because it is built several inches higher. This makes the edges just as comfortable as the center. The bottom rods and the uprights in both ends of the bed are of oval construction. All these features mean a lighter outfit that is easier to move, better built, and more desirable in many ways for your home. These outfits have so many decided advantages that you will be highly pleased with any one that you may decide to order.

Colonial Four-Poster in Steel Has 2-Inch Posts

Just imagine how attractive your bedroom will become by the addition of a Colonial four-poster. Its charm and appeal are irresistible. The Colonial four poster is one of the most beautiful Beds ever designed. It was first built of wood in the Colonial days, and its quaint charm and artistic beauty have endeared it to lovers of fine furniture all these years.

Now it is coming into greater popularity, and one of the strongest reasons for its growing favor is the fact that it can be purchased in steel, grained, and finished like rich wood. The "Inner-Strap" Mattress Will Never Spread or Widen

Will Always Retain its Original Shape

You Can Buy "Inner-Strap" Master-Made Mattresses Only at Ward's

When You Buy a Mattress —Buy Comfort

Nothing is more invigorating or refreshing than a good night's sleep. Without restful sleep you cannot have perfect health. The one thing most important to restful sleep is comfort. And comfort in sleep can be found only if you have the proper sleeping foundation or mattress.

Master-Made Mattresses are designed and built to fit every curve and line of the body. One night's rest on a Master-Made Mattress will convince you that with this mattress you can enjoy sound, refreshing sleep.

In addition to the great comfort of a Master-Made Mattress it has the "Inner-Strap" feature which insures long service. The "Inner-Strap" construction prevents the mattress from spreading or losing its shape. It is made of several thicknesses of pure fluffy cotton, fresh and clean, felted into smooth, even layers. These layers are built one upon the other to form a deep, downy mass, then compressed to the proper thickness, to give a smooth, soft, yielding and restful surface.

Our Finest Felted Cotton Mattress Sateen Border in Solid Color

For supreme comfort and restful sleep you need a downy mattress which yields to every contour of your body. When you have one of these "Inner-Strap" Mattresses you will realize just how important a mattress is in promoting health and vigor—no more of that early morning tired feeling. This is the kind of mattress you will be proud to own. It has extra heavy drill ticking with an attractive floral design. The handsome sateen border is in a solid color and harmonizes beautifully with the ticking. This mattress is furnished with an excellent quality cotton filling, and should not be compared with that usually found in others selling at about the same price as ours.

The Imperial roll edge with its three rows of side stitching—an extra row, by the way—gives you a better looking mattress with a firm edge, as well as one that holds its shape and enables you always to have a neat appearing bed. Side hand loops at each corner of the mattress make it easy to remove or turn over. For shipment the mattress is first wrapped in heavy paper, then covered with burlap. Guaranteed to reach you clean and sanitary. Size, 54 by 76 inches. Actual weight, 50 pounds. Shipping weight, 53 pounds.

What "Inner-Strap" Means to You

Strong reinforcing straps sewed inside the ticking, both top and bottom, prevent the mattress from spreading or widening. These straps hold the filling in place and absolutely prevent bulging The mattress always remains soft and comfortable. In addition, it always will fit your bed just as it did the day you bought it. A mattress made in this way may cost a little more, but it is worth far more in comfort and appearance and will greatly outwear any ordinary mattress.

These "Inner-Strap" Mattresses Will Not Spread or Widen

No matter how slight the pressure on the cushions, the mattress "gives" just enough to carry any weight comfortably. The cushioned tufts make the surface springy, yet firm; soft, always shapely and neat. To meet the demand in many homes for a light mattress we show here our "Inner-Strap" Mattress in the three most popular lighter weights. These mattresses have an excellent quality of felted cotton filling built up layer on layer and covered with a medium weight strong drill ticking which has a decorative floral art design. The heavy Imperial Roll edge keeps these Master-Made Mattresses in shape and makes them last longer than others. That is why choosing an Inner-Strap is always a wise selection.

Comfort Is Assured with the "Inner-Strap" Guaranteed Not to Spread or Widen

Every Master-Made Mattress with "Inner-Strap" construction will remain always true to form and will not sag in one place, bulge in another, or overhang the bed. This method of construction assures you a perfectly shaped mattress.

The Imperial roll edge (as shown in oval at left) makes our mattresses more durable and attractive, and helps them to hold their shape. That, together with the "Inner-Strap" construction, is why we guarantee to replace any mattress on this page if it spreads or widens. Think what such a guarantee means to you.

See how uniformly and evenly spaced are the tufts on these Mattresses. The rows of smoothly rounded, cushiony tufts on which your body lies make your bed much more comfortable and springy than possible with an average mattress. These tufts can not sag, and you know that this helps much to make your bed neat looking after it has been made.

This very popular mattress has a heavy weight drill ticking. The material and handsome floral art design are the same in the border as in the cover. This mattress wears and holds its shape as well as the mattress shown above. It is the same weight—50 pounds and is filled with a select grade of felted cotton. It also has the imperial Roll edge and is firmly sewed all around with three rows of side stitching. A high grade mattress that you can use for years. Shipping weight, 3 pounds more than actual weight.

"Inner-Strap" Means Your Mattress Will Always Stay in Shape

Most of the satisfaction of sound refreshing sleep depends upon the quality of the Mattress used. In producing these lighter weight and lower priced mattresses we have not overloooked the comfort and long wearing qualities. Don't forget that these, too, are "Inner-Strap" Mattresses which keep their shape.

The built up layers of cotton filling are bound together by a firm pressure at top and bottom so that no amount of use can disarrange them. If you have ever slept on a hard, lumpy mattress you know the advantages of a feature like this. Compare the low prices of these mattresses with the prices you would have to pay elsewhere for equal quality. You will appreciate the saving you can make here.

Invite Restful Nights with This Master-Made Mattress

Almost one-third of your life is spent in sleep. So you certainly owe it to yourself to secure sound slumber. We have named this superior Mattress the **Master-Made.** It has a heavily padded center with layers of cotton built in just where the weight falls heaviest. This preserves the shape and buoyancy of the mattress and prevents sagging in the center. It thoroughly supports the full weight of anyone resting upon it. Furthermore, the entire surface is perfectly level. The Imperial roll edge with three rows of side stitching insures a firmer edge mattress which never loses its shape.

The mattress weighs full 50 pounds and is carefully made of layer on layer of fine, felted cotton. The durable covering—closely tufted to prevent lumping—has a handsome floral design. The plain sateen border in an attractive solid color harmonizes beautifully with the covering. Hand loops at corners make it easy for you to turn mattress. Size, 54 by 76 inches. Weight, 50 pounds. Shipping weight, 53 pounds.

Why Master-Made Mattresses Are Better

All Master-Made Felted Cotton Mattresses have extra padded centers. This detail, although it may seem small, adds much to the comfort as well as the life of a mattress. By increasing the padding in the center, the mattress holds its shape better and will not easily sag after continuous service.

Our mattresses have proven so satisfactory that we are able to recommend them to our customers. You can feel sure that when you receive a Master-Made Mattress you are getting the best that can be made when price and quality are taken into consideration.

A bed is no better than its mattress in producing restful sleep. Are you getting all the comfort possible from your bed? You may have a faulty mattress. If so, we suggest you replace it with one of our padded center mattresses and enjoy more restful sleep. The selection of a good mattress is one of the best investments in solid comfort that you can make.

50-Pound Felted Cotton Mattress Imperial Roll Edge

If you are looking for a good quality Mattress which has been very carefully built, this is the one you want. This mattress has the same padded-center feature as the Slumberwell shown above. It is filled with a very good grade of felted cotton. The strong covering has a pretty floral pattern. The Imperial roll edge binds firmly so mattress will hold its shape. Hand loops make turning mattress easy. The price is a real investment in comfort and sound sleep. This you will appreciate through many years of use. It Has the Extra Padding Just Where It Is Needed

Cotton Felted Mattress with Roll Edge and Round Corners

$9.48

There has been no sacrifice of quality here. These Mattresses have been made merely lighter weight and priced lower. Those wanting a durable mattress at a more moderate price will find here an opportunity to get remarkable value for the money. Compare these prices with those quoted by your nearest retail store. You will find your savings well worth enjoying.

The springy cotton stock is thoroughly felted and built up—not blown in or stuffed. The tufts are machine made, uniform and firm, producing that even compression so necessary to rest and comfort. The roll edges and round corners also are machine stitched and extra strong. The roll edges at sides, top and bottom, add greatly to the appearance, and help the housekeeper make a neater bed. The round corners prolong the life of the mattress, as they do not catch and interfere in handling; they also prevent sagging at these points. Straps near every corner on two largest sizes make the mattress easy to handle. A poorly made mattress is an expensive investment. You soon have to replace it, besides lose in restful sleep during its short life. We do not hesitate to give this mattress our recommendation, as it is a mattress made of very good material by expert workmen. It will give you just the comfort you want. Roll Edges, Round Corners—Felted Top and Bottom

A better Mattress than you usually can buy for the money anywhere. Although low in price, it is a good mattress, and is remarkably comfortable. Both the materials and workmanship are good, as we use special care in making our low priced mattresses to insure good service. The center is of clean cotton material, covered on top, bottom and sides with a thick layer of fresh genuine felted cotton. Every inch of material is clean and sanitary. The filling will not lump because of the close, firm tufting which holds it permanently in place and also insures a soft surface. Good strong art ticking, in a pretty floral pattern, is used. Strong stitching throughout, with roll edges and round corners indicate the excellence of its construction. At this very small cost, why not renew your worn out mattress today? An exceptional value that will give years of service at an unusually low price. Shipping weight, 3 pounds more than actual weight.

Famous KAPOK Mattresses

Inner-Strap Construction with Imperial Roll Edge

No mattress has more desirable features than our kapok Inner-Strap mattress. It can only be obtained from Ward's. Think of having an Inner-Strap Master-Made Mattress of snow white kapok—that fluffy, silk like floss, one of the best fillers known—weighing only 30 pounds—20 pounds less than most full size mattresses.

Although this kapok is packed as tightly as possible, it is still a great deal lighter, softer and more buoyant than the average mattress sold at the same price as this high grade Inner-Strap. Kapok is the most remarkable material that has ever been used in mattresses. If you have never examined a kapok Inner-Strap mattress you will be surprised when you discover the many excellent features of this mattress. The inner straps hold the mattress so that it must keep its shape. No spreading or widening—will not bunch together. Always fits your bed just like it did the day you got it. The Imperial roll edge with three rows of side stitching keeps edges of bed neat and even. The floral art cover has a fine sateen border in a harmonizing solid color.

So light you can turn it over every day almost as easily as a comforter. Cloth handles sewed on the sides make it still easier to handle. Tightly packed filling, yet very soft and springy. You have to feel and lift this unusual mattress to realize what it really is. The most careful housekeeper would be proud of it. Becoming more popular everywhere. One of the best and softest mattresses for comfort and sleep that can be made and offered at this price. Size, 54 by 76 inches. Actual weight, 30 pounds. Shipping weight, 33 pounds.

Far Away Java Gives You This Light, Soft Mattress

Kapok—sometimes called Silk Floss—is a pure, absolutely clean vegetable product. This fine, silky material comes from the seed pod of the randoe tree—found only in Java. Very light and fluffy, it makes a wonderful filling for high grade mattresses and is often used as a substitute for down or feathers in cushions, pillows and upholstering.

The reasons for its popularity for mattresses are many. The extremely light weight assures a mattress easy to turn and handle. Fine for outdoor sleeping because kapok does not absorb moisture, in fact it sheds water like a duck's back. And being a vegetable composition, you are never troubled with bugs or vermin, which in itself is a great advantage.

With a Kapok Mattress you can be sure of the greatest sleeping comfort, as it always remains just as soft and pliable as the day you bought it. Never gets hard or lumpy. Where a good light weight mattress is desired, kapok has no superior.

30-Pound Kapok Mattress

This deep, thick Mattress is very buoyant and comfort giving. In these kapok Master-Made Mattresses we use only the finest and softest Javanese kapok. This material is a fluffy, snow white vegetable fiber, light and airy, which will not bunch up, pack together and become hard and lumpy and uncomfortable to sleep upon. It is so delightfully soft, clean and silky, and is more commonly known as Silk Floss.

Although tightly packed and full size, the kapok mattress is very light, and you will find it surprisingly easy to turn or handle on the bed.

The mattress is covered with an excellent quality of drill in a pretty floral pattern which will add as much to the neat, attractive appearance of your beds as the mattress itself will to its comfort. Not an Inner-Strap, but a high grade mattress which is evenly machine tufted and is finished with the Imperial roll edges all around and at top and bottom. Corners are neatly rounded — which saves them from wear and makes the bed easier to make, and has strongly stitched side handles on two largest sizes, a most desirable feature. Comfortable Mattresses – Priced Notably Low

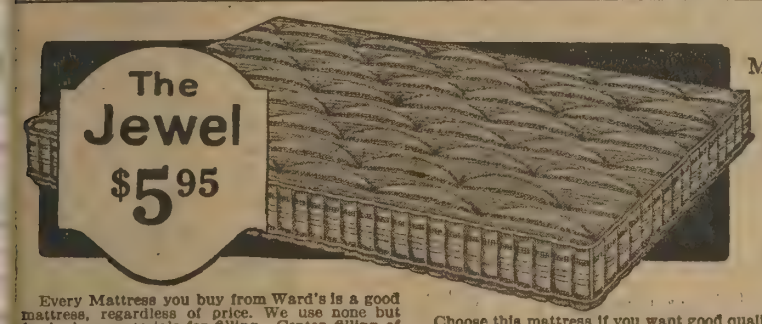
New Well Built and Comfortable



In this sanitary Mattress we use the same exacting care to insure both cleanliness and comfort as we do in our higher priced mattresses. The center is filled with a layer of sea moss with thick layers of wood wool, curly and resilient above and below them. Finally, to insure restful comfort, layers of genuine felted cotton are placed at both top and bottom so mattress may be reversed. Covered with good quality striped ticking. The even machine tufting and strongly stitched edges insure a lasting, comfortable mattress. A genuine bargain at this price. Shipping weight, 3 pounds more than actual weight.

Ward's "Imperial" All New Feathers and Pillows

IF YOU could spend just an hour or two in the factory where our Imperial Pillows are made, and where our Imperial Feathers are treated, you would never be satisfied with any other kind. You would know just why they are so soft and downy, why they are so clean and sanitary, and why a pat or two restores any Imperial pillow to its original fullness and comfort.

Guaranteed All New Feathers and Dry Picked. No butchers' feathers, scalded feathers, or used feathers ever are sold by us. You enjoy healthful sleep and rest when you buy your feathers and pillows here. Not only are all our feathers new and dry picked, they are thoroughly cleansed, sterilized and deodorized.

Cleansed and Sterilized by Live Steam. By a special process, our feathers are double dusted, then subjected to the cleansing and sterilizing power of live steam under a pressure of more than 100 pounds to the square inch. Think what that means! Live steam forced into every part of every feather—inside the stems and over the entire surface! This removes all animal matter and foreign substances, leaving each feather absolutely clean, thoroughly sanitary and entirely free from odor. Imperial feathers more than meet the requirements of the strictest sanitary bedding laws ever passed by any state or board of health.

Curled and Dried by Air Blast. After the steaming process, our feathers are dried rapidly by powerful fans. This fast drying curls the feathers. And while the air blast swirls them about the drying room the quills, pin feathers and scales, being heavier, drop through screens in the floor. The finishing process leaves the feathers a downy heap, clean, bright, light, soft and fluffy.

Cover Patterns Carefully Matched. All our pillow covers are strongly sewed with the patterns carefully matched at the side and both end seams. In closing the covers, no feathers are allowed to stick out at the seam.

Exact Descriptions. In every pillow description, we tell you the exact quantity and kind of feathers used so you can be sure of the value. In comparing weights, remember that our process of removing quills, stems and heavy feathers means plumper, softer pillows, weight for weight.

Shipping Weights. Add 2½ pounds for each pair of pillows, if they are to be shipped alone. If included with other merchandise, use actual weight only.

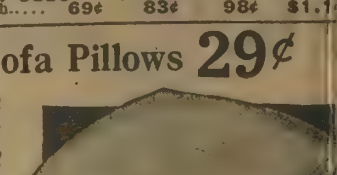
Feathers



When you order from us you get the exact weight of feathers you order—the bag is not weighed in. The weight of the bag would make quite a difference if it were counted as part of the weight of the feathers. Our feathers are weighed entirely separate from the bag and you get your full money's worth.

All the feathers listed below represent the best and truest values possible, because we describe the exact kind and quantity of feathers in every instance. All feathers absolutely free from quills, pin feathers, coarse feathers, and scales. They make plumper, softer, ticks and pillows. For shipping weight of bulk feathers, add from 2 to 8 ounces to actual weight.

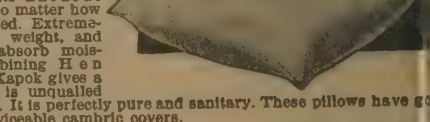
Keep Your Mattress Clean



A Mattress Cover Pays for Itself

We don't need to tell you that a mattress can not be cleaned satisfactorily in the home. And you know, too, that sending a mattress to the renovator is an expense you would avoid gladly. Why not save that expense and at the same time add years to the life of your mattresses by giving them the protection of Mattress Covers? Our covers are durably made of cotton sheeting so closely woven it is practically dustproof and will stand a lot of hard laundering.

Simply slip the mattress cover over the mattress and fasten with the snaps at the end. Covers fit snugly and without wrinkles because they are cut over accurate patterns and carefully sewed. They are easy to wash; no trouble to take them off when they become soiled. They not only keep the entire surface of the mattress clean and sanitary but they add greatly to the life of the mattress by keeping out the dust and taking most of the wear off the mattress itself. You will find them a good investment. Shipping weights: 2 and 2½ pounds.

Moth Proof
By U.S. Government Tests
Clothing and Furs are Safe from Moths and Dust

U. S. Government tests have proved that the odor of Red Cedar is death to moths. Seventy full grown moths were shut in a cedar chest full of wool clothing and left for several months. When it was opened every moth was dead, and no eggs had been laid. The clothing was untouched.

If you ever had valuable furs or clothing ruined by moths, you will realize what a relief it is to know, when you store away clothing, that it is safe from this pest. You can appreciate how quickly a cedar chest pays for itself in the clothing it saves.

Genuine Tennessee Red Cedar

Our chests are made from solid Tennessee Red Cedar thoroughly seasoned and kiln dried, and free from defects but rich in fragrant cedar oil. At every point our aim is to build chests that shall be not only mothproof, but dustproof and dampproof —so beautiful that they will add to the appearance of any home, so sturdy that they will last for generations.

Locked Corners

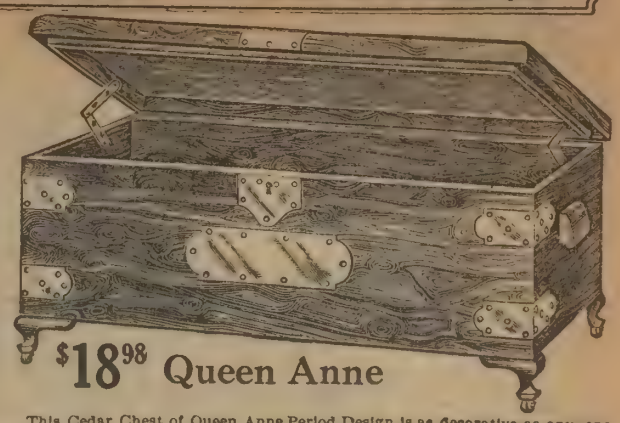

Illustration shows how our extra strong corners are made. These invisible lock joints are driven together, forming a self locking brace. They are glued under pressure and again braced by a strong, three-cornered strip. This is the best dovetail joint that can be devised for a cedar chest. It makes a neat corner without nails or screws, keeps out all dirt and dust, and makes the corner the strongest point in the chest.

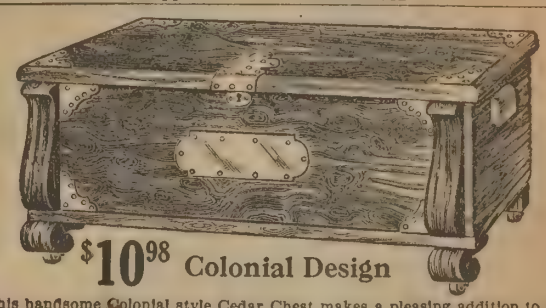
Dust-Proof Lids

Lids fit perfectly and a cedar molding around the inside seals inside against dust. Patent lid stay braces lid in open position. Extension hinges are of strong brass, firmly secured.

Cedar Never Fades

These chests are finished to preserve the rich natural color. They are sandpapered to a smooth velvety finish, and varnished with a transparent varnish which protects the wood but does not alter its beautiful coloring. Decorated with genuine 10-ounce brass, heavily lacquered to prevent tarnishing.



$18.98 Queen Anne

This Cedar Chest of Queen Anne Period Design is as decorative as any one could desire. Cushioned, it makes a delightful window seat or cozy lounge at the foot of the bed. It will add to the beauty of any room as well as giving you a lifetime of service. It is mothproof and dustproof and retains for years the fragrant odor that protects your clothes.

Made from the choicest Tennessee Red Cedar, natural finished with hand rubbed top. Bound with copper. Dustproof lid fitted with strong brass hinges and lid stay. Wood handles. Yale lock. Casters. Bag of cedar shavings included.

Mission Design Davenport Bed Set

Only a small payment down brings this handsome Bed Davenport, Chair and Rocker into your home for you to use and enjoy. You pay for it as you use it. Why wait until you have money saved to buy the furniture you need and want today? It is much easier and just as businesslike to use your credit and pay on easy terms. Take advantage of this opportunity—have a comfortable, practical bed davenport set in your home—now.

The complete Davenport Set makes an attractive and homelike living room. The biggest furniture value is found in the bed davenport because it practically adds another room to the house.

This set is an exceptional value. It is built throughout of seasoned, carefully selected Oak with front and sides veneered with Genuine Quarter Sawed Oak, showing the flaky grain pattern of the wood. Careful workmanship marks each piece, and the artistic design is very pleasing.

The large size of these pieces makes it possible to build comfort into them. The long davenport seat is built up over thirty-six oil tempered spiral springs with top filling of moss and cotton. Seats of arm chair and rocker are spring filled, and the backs of all pieces are fully cushioned in a comfortable curve. Upholstery in your choice of Brown Imitation Spanish Leather or Brown Genuine Spanish Leather. Finish is Fumed Brown or Golden Waxed. A single, simple operation changes the davenport into a bed. A fabric bed spring is built into it, and you sleep on spring and mattress just as in a regular bed. Sanitary construction gives plenty of air circulation beneath the bed. When closed, there is room inside for bedding and mattress.

$76.95 Short Style Davenport Bed

Stationary Davenport

With this set we furnish a Stationary Davenport for those who do not wish the bed davenport feature. Its rich finish and handsome upholstery are in keeping with the best in modern home furnishings. It is a large size and comfortable and matches perfectly the other pieces of this set. The only difference in this stationary type is that it can not be converted into a full size bed, although as a davenport it will accommodate an extra guest comfortably on its soft, restful removable spring filled cushions.

You Get Double Service from this Living Room Set

Lasting comfort is equally as important as fine design and beautiful coverings, so don't let outward appearance alone determine the selection of your Davenport Bed Set. Master-Made davenport beds and upholstered chairs are built of the best from the inside to the outer covering. Their supreme comfort is a delight, even to those accustomed to the finest upholstered furniture. Whether you sit alone, sit with others, or stretch out for a quiet half hour, your body gets complete relaxation and rest.

Master-Made For Long Service

There is comfort in every piece of Master-Made Furniture. Master-Made davenport beds and chairs retain their shape and never become saggy or uncomfortable. Then, too, have you considered the double service this type of furniture gives you? By day the davenport bed is simply a deep, comfortable lounging seat. But when the need for additional sleeping accommodations arise, it is quickly and easily changed into a real bed—a bed with mattress and spring of regulation size and the kind that assures complete rest and refreshing sleep.

Like Adding an Extra Room

UNEXPECTED visitors and every bedroom occupied. But you need not be embarrassed if you have one of these Davenport Beds—for it is a davenport, bed and spare bedroom all in one. Looks just like any other high grade davenport—but what a difference. It conceals a big, roomy bed ready for instant use. Think what this means to you—no need to crowd the rest of the household; no sleeping on couch or sofa. You don't even need an extra bedroom. It is an article of many uses as well as a beautiful piece of furniture for your home. Because it is intended to serve a double purpose, great strength has been built into these fine davenport beds so they will give years of service. It is a necessary piece of furniture in practically every home.

The davenport is upholstered after your order is received so that it is practically made to your order. When you receive it, the covering is bright, clean and new. This service requires a little more time. Shipment will be made in about two weeks after your order is received.

All Pieces Have Removable Cushions Filled with Coil Springs.

Many people still believe that a living room, to have beauty and comfort must be expensively furnished. But such is not the case—it is more a matter of good taste and economical buying. We have made Master-Made Living Room Sets in good taste, and sell them at low prices to prove that you can buy good, well designed furniture at a reasonable cost.

This is one of our very best styles of furniture—comfortable, extra large, and beautiful in appearance. When your friends see such furniture as this they will realize that you have made an unusually wise selection. Overstuffed furniture is an excellent investment because it will give you many years of comfort, satisfaction and service.

Popular Marshall spring construction—this means the cushions, arms and backs are stuffed with cotton, over cone shaped steel springs. Cushions easily removed for cleaning all crevices and corners. Hidden beneath the comfortable cushions is a massive, reinforced frame of sturdy hardwood—built for years of service. Gracefully curved Queen Anne legs and runners in dull Mahogany finish. Noiseless gliding casters on all feet.

Tapestry, Velour or Mohair Upholstery

Tapestry upholstered sets are covered in an attractive floral pattern consisting of a black background, and a design in which the principal colors are green, old rose, and dull gold. The Velour is covered in figured blue, brown or mulberry. **If you order velour state choice of color.** The Mohair sets are covered in combination figured brown mohair and plain velour. Figured mohair is used on back cushions, arms and seat cushions. Plain velour is used on the outside sides and back.

Removable Cushion Seat

FIRST of all, a Rocker must be inviting. It is not enough that it be simply a handsome piece of furniture; that it be strong, well built and durable—it must have these qualities too. But first, it must invite you to relax. The rockers shown on this page are of that sort. They have that "sink way in" solid comfort appearance about them which makes you want to stretch out and rest.

Illustration shows box spring construction—a feature that contributes to the strength and restfulness of the two rockers shown at top of page.

Spring Edge and Seat

Built for Lasting Comfort

Every curve of this Rocker invites you to sit right down and rest. The spring edge seat is of the famous Marshall spring construction. This means that the loose cushion, built with many spiral springs and stuffed with cotton, is set over a spring foundation of seventy-two cone shaped springs. Back is inlaid with spiral springs, overstuffed with cotton. Choice of upholstering—Tapestry or Brown Genuine Spanish Leather. Hardwood frame and runners finished in Mahogany. Seat, 20 by 21 inches. Height of back from seat, 26 inches. Shipping weight, about 90 pounds.

A fine comfortable Rocker with Marshall spring construction seat. To make the seat, a number of cone shaped spiral springs are fastened to the braced hardwood frame of the rocker. Over these is stretched a layer of heavy drill. The small illustration shows how the seat is then built up, with seventy-two spiral springs, overstuffed with flax fiber and cotton. Back of the rocker is also of spring construction. Choice of Tapestry or Brown Genuine Spanish Leather. Wood runners finished Mahogany. Size of seat, 19 by 20 inches. Height of back from seat, 26 inches. Shipping weight, about 90 pounds.

Beautiful Master-Made Fiber Reed Furniture

Ivory or Brown Finish
Spring Seats
Cretonne Upholstery

You can use Fiber Reed Furniture in any room in your home. Not only is it appropriate in the Living Room and Sun Parlor but also will give service and add beauty to the bedroom as well. Fiber Reed furniture is easily cleaned and always looks bright and cheerful.

MASTER-MADE Fiber Reed Furniture is made on specially designed machines which convert the raw material into a smooth fiber cord with hard surface. A tough steel wire is concealed in the center of this fiber cord giving the finished material unusual strength and stability. The illustration shows the method of winding the raw material over the steel wire. All Master-Made Fiber Reed Furniture is woven over a frame which gives each piece uniformity in shape and strength. It combines beauty, lightness and pleasing finish—features so much desired and appreciated by women. Master-Made Fiber reed furniture gives beauty and comfort at a very low cost. Suitable for almost any room in the home.

Fiber Reed Furniture Makes the Home More Attractive

Fiber Reed Furniture is becoming more popular each season. It may now be used in almost any room in the correctly furnished home. This set is attractive and well built. Ward's Finest Dining Room Suite

Popular Modern Tudor Style—Three-Tone Walnut Finish

Good furniture need not be expensive, and style doesn't necessarily add to the cost. This is absolutely proved by our low price on this fine MASTER-MADE Dining Room Suite of Genuine Walnut Veneer, made in the exclusive Tudor design.

Why Ward's Furniture Prices Are Never High

If you should walk into any high grade furniture store in the large cities and price dining room furniture of this popular design and finish, you would find a complete suite of eleven pieces selling for from $350 to $450. And many suites would be sold at these high prices because there still are many people who don't seem to realize that it is not necessary to pay high prices to get good furniture.

But did you ever stop to consider that high furniture prices are really the result of high rents, large selling expenses, and the fact that most stores buy only one or two suites at a time?

Now consider Ward's method of selling furniture. First, we buy hundreds of suites at a time to get the costs down to rock bottom. We buy for cash, and you know what that means. We add only one profit to the manufacturer's price, and we sell direct to you by mail from this catalogue. No high rents, no salesmen, large quantity purchases for cash, and only one profit. Naturally we can sell furniture at much lower prices—and the big saving on this set proves it. Furthermore, although you buy furniture from Ward's at very low prices, you do not sacrifice quality in any way, and you get the very latest designs. Your satisfaction is guaranteed.

Make Your Own Comparisons

Undoubtedly there are thousands of customers who have long wanted a fine Period Dining Room Suite, but did not feel like paying $350 to $450 for it. Realizing this demand, we went direct to a manufacturer who specializes in making period furniture of a better grade.

We offered to buy hundreds of suites of this one design and quality, provided we could buy at prices that would enable us to sell this fine furniture for about one-half of what is usually asked for equal quality. The answer is in this MASTER-MADE suite. We invite you to make any comparisons you wish. **Ward's price for the complete eleven-piece suite is only $190.00.**

Attractive Server $22.00

Any dining room will be made more complete with one of these Servers. Size, 38 by 19 by 39 inches high. Two doors in front. Finished to match rest of suite. Shipping weight, 100 pounds.

266 F 3577—Server only..**$22.00**

Furniture You Will Be Proud To Own

Nothing adds more to the home than a cheerful, well furnished dining room; and a good suite of dining room furniture may well be expected to last a lifetime. With these thoughts in mind, we offer this fine MASTER-MADE suite—knowing full well that the beauty of design, the expert workmanship, and the fine durable finish will be a constant source of joy and satisfaction to the entire family three times a day—year in and year out.

Beautiful—Stylish—Durable

It would be difficult to find a design more attractive or popular than the English Tudor style. It is to be found in many of the very finest homes, and it is a design that will not go out of style or of which you will easily grow tired. In this suite the Tudor Period style is indicated by the heavy well braced legs of excellent proportions, by the attractive raised decorations and the wood knobs with silver back plates. This design possesses a tone, character and individuality all its own.

Popular Three-Tone Walnut

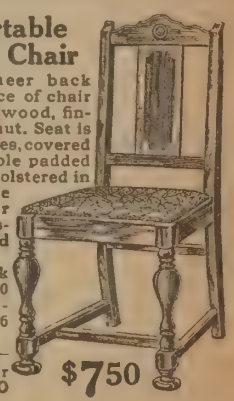
Walnut has long been recognized as one of the very best woods for fine dining room furniture. The modern tendency is to get away from plain walnut; so in this suite a very pleasing contrast is provided by the beautiful three-tone effect, sometimes referred to as "trio-tone." The legs and bevel edges are ebony black. The decorative panels and outlines, as indicated in the picture, are of a much lighter shade. The body is a dark walnut shade, full grained, and with a beauty possessed only by genuine walnut.

Carefully Finished

First, the wood is carefully smoothed down with sandpaper and then covered and protected by many coats of the finest fillers and transparent varnishes so as not to destroy the natural grain and beauty of the walnut. After the finish is applied, it is carefully rubbed to secure the beautiful dull finish so popular nowadays, because it does not show scratches so easily.

Expert Workmanship

Real worth in construction, well seasoned woods, tight joints, and expert attention to details of cabinet work are the points of excellence which mark every piece in this fine MASTER-MADE suite. Tops and fronts are five-ply Genuine Walnut Veneer—which is far superior to the solid walnut because of its freedom from warping or cracking—and it permits more beautiful grain effects. In the end panels, where such great strength is not needed, we use three-ply veneer.



Drawers are three-ply veneer, full boxed in construction—and are dustproof. Made with what is known as lip construction, so they will always slide easily. Chairs are well braced and strong, with removable slip seats of Blue Genuine Leather or Floral Tapestry. Nothing has been overlooked that will add to the attractiveness or durability of every piece in this suite.

The Advantages of a Complete Suite

While any of these pieces may be purchased separately, we recommend that you consider the complete suite—because of the greater beauty and satisfaction it will give from having every piece match. Complete suite includes table, five straight chairs as shown at the right, one arm chair, buffet, china cabinet, server, and polychrome mirror, as shown. Shipping weight, 860 pounds.

Italian Renaissance Dining Set

Genuine American Walnut Veneer
Dull Rubbed Finish

You can furnish your dining room with this beautiful Master-Made Italian Renaissance Set without paying the full amount at one time. It pays to buy the best because good furniture lasts longer and is more serviceable and durable. Especially will you appreciate the beauty of this attractively designed and well finished Italian Renaissance Set. It has always been a favorite by those who admire good furniture and is one of the most popular and best liked designs on the market. When you consider the low price of the set and the additional convenience of being able to buy it on Easy Monthly Payments, there is no reason why you should not have the pleasure and enjoyment of a new dining set like this one in your home.

Buying a Dining Set is one of the most important considerations in furnishing your home. Many people believe that the only requirements of a good dining set are appearance and price. Although these two points should receive careful thought, there are other details that are equally important. Be sure to choose a design that will look well with your other furnishings. Select a wood, such as Walnut, that has a beautiful grain and rich appearance. Buy furniture such as "Master-Made," which is carefully constructed and properly finished. Then when you are ready to purchase, compare quality and price. Here is an example of a dining set that meets all the requirements of good, honest furniture at a reasonable price.

These Are Your Easy Terms of Payment on This Dining Set			
Any Single Piece	$ 7.00	Down	$ 5.00 A Month
Any Two Pieces	12.00	Down	8.00 A Month
Any Three Pieces	17.00	Down	10.00 A Month
Any Four Pieces	20.00	Down	12.00 A Month
Any Five Pieces	25.00	Down	15.00 A Month

In estimating payments on a set, figure six chairs as a single piece.

The buffet, cabinet, server, and table have beautifully embossed moldings and are veneered on tops, fronts and ends with Genuine American Walnut, dull rubbed. Carved legs and chairs are of hard wood, finished to match. Drawer pulls are wood embossed.

The Buffet is especially convenient. When you put your knives, forks, napkins and table linens into the drawers, and your coffee urn, bowls and other things in the two end compartments, you will realize its great usefulness as well as its beauty.

The china cabinet is the very latest design, with paneled doors. Your china will be kept safe, clean, and convenient for use. The server will save you many trips to the kitchen. The table is unusually strong and rigid; its cut off corners are particularly stylish. The Chairs are built to last for many years. Choice of Blue Genuine Leather or Figured Tapestry seats. **State upholstery wanted.**

Queen Anne Dining Set

Genuine American Walnut Veneer
Two-Tone Dull Rubbed Finish

You can enjoy any single piece or the entire set of Dining Room Furniture in your home while you pay for it in small monthly payments. By purchasing a good set of furniture on small monthly payments, you can buy better quality, and you will get more service and pleasure out of your investment. This Easy Payment Plan enables you to buy the best, and have furniture that will serve you for many years to come. In this set our designers have produced a pleasing Queen Anne Period design that really is distinctive. The legs are moderately slender and graceful, yet of sufficient strength to give all pieces a firm and rigid foundation. The two-toning is unusually effective, and by its contrast adds much to the beauty of the already richly figured walnut. The gracefully curved bottoms on all pieces enhance the pleasing lines of the Queen Anne design, and the small raised decorations are but one of the minor details that have been carefully considered in giving this set individuality. The beautiful figure of the Genuine Walnut Veneer gives this set its final touch of distinction and rich appearance.

There is no other wood quite so beautiful as Genuine Walnut, when it is properly finished as in this set. Every individual piece in this set has been given every consideration for convenience of arrangement and ease of cleaning. All corners are gracefully rounded, and every piece is correctly proportioned according to the latest design.

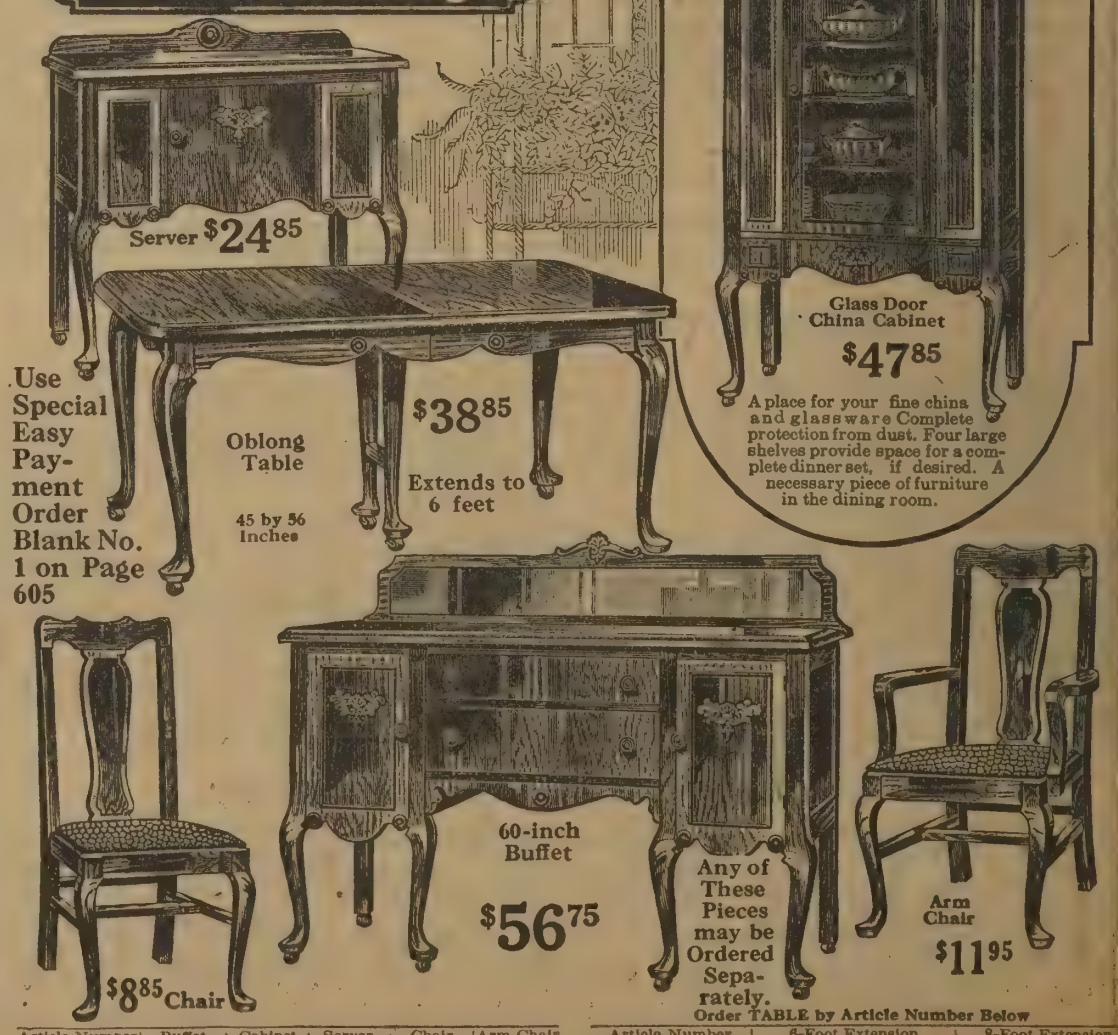
Remember, when you buy furniture at Ward's you get full value for every dollar you spend; and you get the best merchandise it is possible to give without sacrificing quality. Consider these advantages when you decide to buy your new dining room set.

Our best Dining Set. Our designers have produced here a set that really carries all the pleasing characteristics of the Queen Anne Period. The legs are moderately slender and graceful, yet strong enough to give ample strength to all pieces. The two-toning is unusually effective and has not been overdone, as is so often the case in many dining sets. The scroll bottom of the table, server and sideboard is so much more attractive than ordinary straight lines. The small raised decorations are another indication of careful thought by our designers. The mirror on the buffet will greatly increase the beauty of any decorative object you place upon it.

Buffet. Artistically finished in two-tone Walnut Veneer with, convenient cupboards and two drawers, one lined for silver. Top, 60 by 22 inches. Casters.

Table. Top made five-ply, with genuine Walnut Veneer. Top is 45 by 56 inches. Two sizes—6 and 8-foot extensions. Casters.

China Cabinet. Not only serviceable, but the most attractive piece in this set. Glass door and three adjustable shelves. Size of top, 17 by 40 inches. Height, 44 inches. Casters.



Server. Harmonizes perfectly with other pieces in this set. A large door gives easy access to large lower compartment. Size of top, 19 by 36 inches. Casters.

Straight Chair and Arm Chair. The two-tone finish harmonizes with buffet, china cabinet and server. Genuine Walnut Veneered back panels. Removable cushion seats—straight chair, 17½ by 14¾ inches; arm chair, 19 by 16 inches. Height of back from seat, 22½ inches. Brown Genuine Spanish or Blue Genuine Leather upholstery. **State upholstery wanted.**

Tudor Dining Set

Genuine Walnut Veneer

We doubt if you have ever seen a more pleasing and thoroughly useful set than this modern Tudor Period Dining Set. Everybody admires an attractively furnished dining room and this set in your home is sure to please you and bring praise from your friends. The table is of the popular oblong style with a Genuine Walnut Veneer top, rubbed to a soft dull finish. The artistically turned legs and the scalloped apron are two details that make this table more attractive than the usual styles. The design of the chairs will appeal to the lover of beautiful furniture.

The two-tone Genuine Walnut Veneer back panels add much to the beauty of the set. The chair coverings are furnished in Blue Genuine Leather or Figured Tapestry. Either of these coverings wear exceptionally well and are very much in demand in higher priced sets. Every detail of this set indicates quality and refinement — but our price is exceptionally low.

Table. Oblong, 45 by 54 inches, with genuine five-ply Walnut Veneer top, dull rubbed finish, beveled edges, well rounded corners and hardwood turned legs finished in walnut. Two sizes, extending to 6 or 8 feet.

Adam Period Dining Set

Oak or Walnut

Simplicity and beauty are the features of Adam Period Furniture. This Set—a modern adaptation of the Adam design—has long been a favorite with our customers. The simple dignified lines add a touch of richness to the dining room that is at once noticeable. Being of good period design this set will never be out of date and if given ordinary care will serve you many years. Remember, when you buy furniture you buy for the future. By selecting Master-Made designs you can always feel that you have the best quality at a low price.

This set is furnished in two attractive finishes, Walnut Veneer and Jacobean Oak, which is similar to fumed oak, but richer and more serviceable and lasting. The table top is veneered in beautiful figured Oak or Walnut, the legs are hardwood stained and finished to match the top. The walnut has the popular dull rubbed finish, and the oak pieces are beautifully waxed. The chairs are finished to match and are sturdy and well made, with strong rigid joints and braces. Upholstering is in Blue Genuine Leather or Figured Tapestry. **State upholstery wanted.** Table or chairs may be ordered separately.

Table. Diameter, 48 inches. Extends to 6 or 8 feet. Side and legs are hardwood, finished to match veneered top.

Colonial Design Dining Set

Genuine Solid Oak

The selection of the right kind of furniture for your dining room is one of the most important considerations in buying new furniture. The dining room is where your friends are entertained at dinner and it is there they receive their most lasting impression of your home. A room furnished with well matched pieces is never as attractive as a room in which all pieces are of the same style and design. Here we offer you a Genuine Solid Oak Dining Set of Colonial design—extension table and six chairs, that will transform a room into a cozy, inviting, gathering place for the family.

Sturdy construction throughout means that you will get many years of service from this set. If you are considering a new dining set and you want something attractive at a low price this set will exactly fill your need. Note particularly the strong, well braced chairs, with broad, comfortable backs and padded slip seats of genuine leather. The table is the right size for the family and when occasion demands it can easily be extended to accommodate a greater number of persons. You have your choice of the 6 or 8-foot extension.

The table top is solidly supported by the 8-inch pedestal, non-dividing and carefully turned. Heavy 25-inch platform base with casters. Table has concealed drop legs which give ample support to ends when table is extended. Shipping weights: 6-foot, 130 pounds; 8-foot, 140 pounds. Chairs well built. Ward's Dining Chairs Have Great Strength

These Chairs are masterpieces of the woodworkers' skill, made according to the most modern ideas of style, construction and finish. Note these features.

A—The back panel is grooved perfectly onto the tops of the posts and is joined and glued solidly, without the use of screws.

B—The back posts are bent to make the right curve instead of being cut to shape. This adds much to their strength and permits an even grain.

C—Note the bolted construction holding the back posts to the seat frame. These bolts—much longer than ordinary screws—are ¼ inch thick and 3 inches long, and run through each back post deep into the seat frame where they are securely bolted.

D—These chairs have strong stretchers connecting the legs on each side, making them perfectly rigid. Double dowels hold the front legs firmly to the seat frame.

You are not going to have any weak, wobbly chairs if you furnish your home with these Master-Made chairs.

What to Look For When You Buy a Dining Table

1. It must be small enough for family use, yet built so it can be quickly extended for company.
2. It must not lose any of its strength when extended. Each of our pedestal extension tables has solid, non-dividing pedestal. It remains in center and forms a solid base for the extra leaves. Our tables are built to last.
3. The ends are braced by concealed drop legs on the 8 and 10-foot sizes.
4. All of our tables are furnished with close fitting and very carefully seasoned extra center leaves.
5. It is not enough, however, that a table be only well built. It must also be pleasing in design and finish. You are sure to feel proud of the tables you buy from Montgomery Ward & Co.

Genuine Walnut or Quartered Oak Veneer Top

A very desirable extension Table in Queen Anne Design, in the new oblong shape. Built of hardwood with Genuine Walnut Veneer, or Quartered Oak Veneer top, Golden finish. The "Luxury" 48 Inches Wide

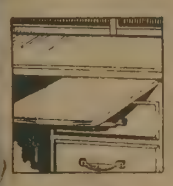
White Enamel or Golden Oak Cabinet



White Porcelain Extension Top

Center compartment has easy rolling shutter. When down cupboard is dustproof. Rolls up out of your way.

Convenient wood block makes firm place to attach food chopper. Also handy swinging towel rack.

Hardwood cutting board extends with top. Firm solid wood.

Antproof casters, a sanitary protection in your kitchen. Just place a few drops of kerosene in the metal cup.

THE Kitchen Cabinet no longer is the novelty that it was considered at one time. Every woman knows it is her greatest kitchen help. It is in reality the housekeeper's work bench, for here she can store all utensils and food necessary for the preparation of the entire meal. What could be more convenient than to be able to stand in one spot and have within easy reaching distance everything required for preparing a meal or for baking? A kitchen cabinet is the greatest step saver and time saver, therefore the greatest money saver.

Every woman knows the convenience of a good kitchen cabinet. You can now obtain this extra large size, well equipped cabinet on easy monthly payments. Just a small cash payment with your order brings it to your home, and you can enjoy the full use of it while paying the balance.

The woman whose kitchen work is made easier by the Luxury begins each new day with time gained from the start. In this cabinet we have included features of excellence not found in any other cabinet. You will be pleased with its handsome appearance in your kitchen, and welcome its help in making your work lighter and more pleasant.

White Enamel or Golden Oak

You may have your choice of White Enamel or Golden Oak. The white enamel cabinet is built of select seasoned hardwood, and is finished white enamel inside and outside. This attractive finish is especially suited for the kitchen because it is spotless white. Easily washed with a damp cloth, and the hard enameled finish is unharmed by steam and gases which often fill the kitchen at cooking time.

If your choice is the golden oak cabinet, you are equally certain of beautiful appearance, long service and durability. It is made of select Genuine Oak, built sturdily and carefully, up to Master-Made standards of construction, and the interior of upper section is finished in white enamel. The cabinet is given several coats of a varnish not affected by steam or gases. As a result your oak cabinet will retain its clean, handsome appearance.

Labor Saving Features

Large lowering flour bin which will hold forty pounds of flour, has sifter and hinged metal cover. Window front so you can see at a glance when it needs refilling. Swinging sugar jar, with metal cap and metal automatic dispenser. One coffee, one tea, and five spice jars—all with metal covers. Metal bracket and block for food chopper. Nickel plated towel rack. Upper cupboard with wood shelf and art glass doors. Lower cupboard of upper section closes with roll curtain front. Three convenient small drawers. Removable bread board.

The design of the base of this cabinet shows the care and thought used to make it the greatest possible assistance to the housekeeper. It has four drawers, all a different size. Special metal cake and bread drawer with sliding metal lid. Extra large cupboard with removable wire shelf. Metal tray on bottom pulls out, bringing pots and pans within easy reach. Pan racks on doors. Antproof easy rolling casters.

All the doors of the Luxury are equipped with automatic latches, and the drawers with metal pulls. All hinges, latches and pulls are heavily nickel plated. Doors and drawers are dustproof—an added feature. The porcelain enamel table top can be extended to provide a large working surface—stainproof and acidproof.

The "Luxury" Is 48 Inches Wide

The large size of the Luxury provides added storage capacity and a larger table top—two most desirable features. Entire height, 73 inches. Height of table top from floor, with casters, 31 inches. Size of table top when closed, 48 by 27 inches; extended, 48 by 37 inches. Dishes and groceries are shown to illustrate the uses of the cabinet, and are not included. Shipping weight, about 300 pounds.

The "Beauty" 40 Inches Wide

Will Save a Thousand Steps a Day

White Enamel or Golden Oak

THE housekeeper spends the greater part of her day in the kitchen. And practically one-third of this time is spent in making unnecessary steps back and forth between pantry, kitchen table and stove. With a convenient Kitchen Cabinet, near the stove, you can do away with this most tiresome part of your housework. Master-Made cabinets have been designed to help you at every step in your work—flour, sugar, etc., are located right at your fingertips; it is not even necessary to reach for them. You can sit on a stool and mix an entire cake without once having to get up for materials.

Less Work In The Kitchen

Have you ever stopped to consider the difference a high grade, conveniently arranged cabinet will make in your kitchen? If you could only fully realize how much a good kitchen cabinet would help you in your work, you would never be without one like this. It brings within your reach, practically everything you need for preparing a meal, thus saving you many unnecessary steps every day. Choice of seasoned Golden Oak, with sliding extension top of either nickel or white porcelain enamel; or hardwood, white enameled throughout, with porcelain enamel top. In the golden oak cabinet, the interior of upper section is finished in white enamel—easy to clean and keep clean. Strongly braced and reinforced throughout.

This cabinet has more drawer and cupboard space than most cabinets. There are five roomy drawers in the base. (Notice large linen drawer just above the big kitchen utensil cupboard.) Use the three other drawers for various articles which you need every day in your work. Large bottom metal drawer to keep your bread and cake fresh and tasty. Drawer rests on sliding platform, which remains in the same position when extended.

Features That Save You Time

Lower metal utensil cupboard has sliding metal tray, sliding wire shelf and metal pan rack. In fact, there is a place for all your kitchen utensils in this cabinet. Attractive floral design on outside of door, on the inside are special file hooks, coin and check tray and card rack.

Lower part of cupboard is covered by easy rolling, full canvas back curtain, perfectly dustproof. At back are wire racks with five glass spice jars; rolling pin rack, and tilting sugar jar with nickeled top and metal scoop. Rack with glass tea and coffee jars on large door at left. Doors have strong nickeled hinges, and sturdy nickeled catches that really catch and hold. White enameled flour bin, forty pounds capacity, swings forward and downward so that opening at top of bin is level with porcelain top, making it much easier for you to fill the bin with flour and swing it up into place again. Keeps your flour clean, dustless, dry, and ever ready for use. Convenient cutting board, 14 by 20 inches, slides with top and enables you to cut your meat, bread, vegetables, etc., without marring the white porcelain top. Also has block for attaching meat chopper. High grade, antproof casters. No need to bother with insect poisons. Just a few drops of kerosene in the metal cup, above the casters, and you can forget about the ants.

Master-Made—Up to Date

You will find this superior cabinet, although low in price, has all the important, up to date conveniences found in any strictly first class cabinet. It is strongly made to give years of service. Care has been given even to the smallest detail, and the entire cabinet is so arranged that everything is within easy reach, yet nothing is in your way until needed. This cabinet is a real labor saver—one which you will use and appreciate for a long time in your home. You will be delighted with this money saving value. Groceries and dishes are shown to illustrate the uses of the cabinet, and are not included. Shipping weight, 210 pounds.

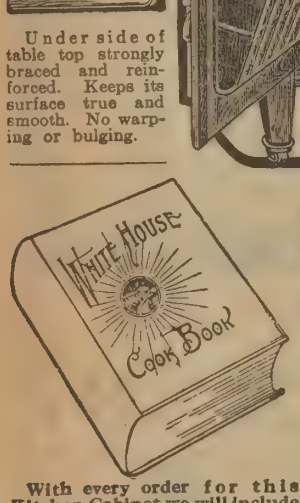
$39.95 Golden Oak Saves Thousands of Steps in Dozens of Convenient Ways



DID you ever stop to figure how many steps a woman takes each day—and that thousands of these steps could be saved with the proper kitchen equipment? If you are still keeping house the old roundabout pantry-to-table-to-cupboard way, we want you to consider seriously what this "Good Fairy" Cabinet will do for you. It will cut your steps in half.

Every Desirable Convenience Included

Suppose you are baking a cake. First you want the recipe. It is on a card, filed in one of the small drawers provided for just such purposes. Your flour is just above the table space in a sanitary metal bin with a glass front so you can see when your supply is low. A few turns of the crank and you have it sifted, all ready for use. Sugar is right at hand in a sanitary, dustproof glass jar where you get it without a step; and you don't even have to scoop it out; instead, just press back a simple lever and the sugar runs freely into your cup. Pull the lever back and the jar is closed! Eggs, chocolate and extracts are in one of the little cupboards; baking powder and spices are right at the fingertips in airtight glass jars. Egg beater and nutmeg grater are in one of the drawers within easy reach. Crocks, cake pans and other utensils are in the bottom cupboard, and you don't have to crawl in to get them out, either, because this cupboard has a sanitary sliding metal tray. Simply pull the tray out and the utensils come right along with it. You do your work on a sanitary porcelain enameled table top, which pulls out to give you more room. When your cake is done, there is the lower right-hand drawer with a sanitary metal box in which to place it. And the box is perfectly ventilated to keep it sanitary!

Absolutely Antproof. Which means that you never have to worry about troublesome ants getting into your flour or sugar. They can not get any higher than the casters.

Priced at Practically Half What You Would Expect to Pay for This Quality

With every order for this Kitchen Cabinet we will include without extra cost a copy of the famous White House Cook Book. It will help to solve many difficult problems in the kitchen and is a valuable reference book.

Antproof casters, a sanitary protection in your kitchen.

The sliding wire shelf can be used to rest hot dishes before serving.

A sliding bread board—for cutting bread and meat—firm and solid.

This "Good Fairy" Master-Made Kitchen Cabinet is meant for women who demand the best, and it is so well built and conveniently arranged that it has been tested and approved by the Good Housekeeping Institute. You know what that means. It means that this cabinet supplies every convenience to lighten the usual drudgery of kitchen work. If you were to design your own cabinet just as you wanted it, we doubt if you would change a single one of the features shown here! The finish is in a beautiful Golden Oak with art glass doors.

The full sliding top, of stainproof and acidproof White Porcelain Enamel, with its strong frame work underneath, never bulges, warps or gets out of shape. Provides a working surface, 40 by 36 inches, when extended. Interior of top compartments white enameled; compartment over table closes with a rolling shutter. Equipment consists of a swinging glass sugar jar with metal cap and shut-off; one coffee, one tea and five spice jars. White enameled sifter flour bin lowers easily to proper height for filling. Special bracket and block for food and meat grinder. Has sliding bread board, metal bread and cake drawer with sliding lid, and base cupboard equipped with sliding sanitary metal tray. Removable metal shelf and pan rack, and special compartment for pan covers. The big cutlery drawer is partitioned into sections. Dustproof lip construction on all doors and drawers. Nothing has been forgotten! If you prefer White Enamel Finish throughout, we can furnish it that way at a slight additional cost. Height, 70 inches; width, 40 inches; depth, 25 inches. Groceries and dishes not included. Shipping weight, 240 pounds.

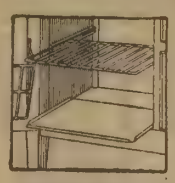
Kitchen Cabinets

A Cabinet That You Will Use Every Day

$43.95 Golden Oak

Extra Large—48 Inches Wide

ANY housekeeper would be proud to own such a cabinet as the Princess. And after carefully considering all of the features of this cabinet, we believe you will agree that no kitchen cabinet ever has been offered that has more practical time and labor saving conveniences. Just notice the convenient arrangement: how everything is at your fingertips. No need to walk back and forth across the kitchen or to the pantry, every time you want a knife, fork or pan. We have provided in this roomy cabinet a place for everything! There are roomy drawers properly divided so you can keep all your cutlery and small utensils separated. The generous size flour bin may be lowered instantly to a convenient height for filling, and it holds 40 pounds of flour. When it is filled it is readily replaced into its compartment out of sight, and you always can see exactly how much flour you have because there is a glass window in the front. Your sugar is kept always clean and right at hand in a spacious glass container, easily removable for filling. The well arranged cupboards above provide ample room for canned goods; in fact, this cabinet is made extra large and provides practically as much usable space as you would find in many pantries.



White Enamel or Golden Oak

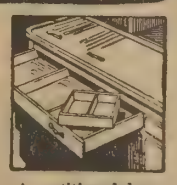
Every woman appreciates the advantages and beauty of a kitchen cabinet finished all in White Enamel, which is perfectly sanitary in appearance and is easily kept so with a little soap and water. The Princess is all white, and equipped with a sliding Porcelain Enamel top having a firm, hard surface which does not spring or warp. Also furnished in Golden Oak with interior of upper section White Enameled. Here is, indeed, a value in kitchen cabinets that you cannot duplicate in any retail store. This same statement applies to every kitchen cabinet and base shown on these pages.

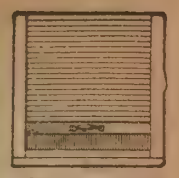
Compare the price of this cabinet with what it will do for you, year after year, in lightening and speeding up your kitchen work, and you will realize that the cabinet is far more necessary to you than the money it takes to purchase it!

All-metal flour bin has a capacity of one 40-pound sack of flour. Lowers on steel arms to convenient height for easy filling. Simple, easy push sends it back into compartment. Window in front tells how much flour is in your bin. Sifter firmly attached to cone shaped bottom.

Sliding metal tray and wire shelf gives plenty of room for utensils. Slides quickly forward into easy reach. Can be removed entirely for your convenience in cleaning. Adjustable shelf.

Airtight tea and coffee jars with aluminum tops.

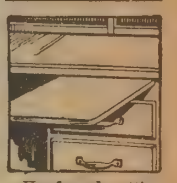




Ant proof casters—a sanitary protection in your kitchen and a reliable means of shutting out this bothersome pest. Ants cannot pass the metal flange just above the caster when the cup is filled with insect powder.

A dustproof all-metal bread box is provided, keeps bakery goods fresh longer.

A partitioned drawer is provided for keeping your cutlery in an orderly arrangement.



Center compartment has easy rolling shutter. When down cupboard is dustproof. Rolls up out of your way.

Compartment for filing recipes and receipted store bills. Keeps them out of way but within reach.

Convenient wood block makes firm place to attach food chopper. Also handy swinging towel rack.

Hardwood cutting board extends with top. Firm solid wood.

This Aluminum Set Included with This Cabinet

Here is a sturdy, compact, all-aluminum set, containing salt and pepper shakers, graduated measuring spoons, doughnut or cookie cutter, tea ball, coffee percolator, and measuring cup. You will use them daily, and all are included without extra charge with this cabinet.

Fingertip Convenience That Replaces Footsteps

The big advantage of this Princess lies in the fact that you have everything right in your kitchen where you can reach it in an instant. All of the necessary jars are provided, for spices, teas, coffee, etc. Your pots and pans are out of the way in the bottom compartment, yet readily accessible because pulling out the sliding metal tray brings them right to the front whenever you want them. And when your cakes and bread are baked, they are kept fresh and crisp in the large metal bread box concealed in the lower right hand drawer. Attached to the doors in the upper section you have convenient want lists, recipe lists, coin holder, card and book rack, and hooks for filing bills. In fact, nothing has been overlooked to make this cabinet as complete as any on the market, regardless of price. Your saving, moreover, compared with what you would have to pay in any retail store for any cabinet as good as this, is truly unusual. So, in considering the many time and step saving advantages and the genuine high quality of this cabinet, don't overlook the positive saving in money that it is possible for you to make by putting it in your kitchen!

This Cabinet Is 48 Inches Wide

The Princess is made especially for the home requiring a large cabinet. It is 71 inches high, 48 inches wide, and 27 inches deep. Table top closed is 48 by 27 inches in size. When extended, the working surface is 48 by 36 inches in size. Shipping weight, 300 pounds.

LOOM WOVEN Lloyd Wicker Carriages

Trade Mark

BECAUSE our customers demand the best in Baby Carriages and Sulkies, we are showing here seven of the most popular styles from the Nationally Advertised Lloyd Loom Woven Wicker Line. Every Lloyd loom carriage is woven from a continuous strand of wicker—giving a smooth, even shape, with no sharp corners or unsightly ends. Strong, resilient springs give unusual riding comfort, and are a protection to the baby. Other important Lloyd features are: Patented automatic hood adjustment, foot brakes, and reclining back.

Storm shield shown on carriage above is furnished without extra cost, with each carriage, unless otherwise stated. The frosted finishes on two of these carriages is something entirely new. The frosted silver adds a very rich and unusual effect, blending in with the brown or blue color. Remember: When you buy a Lloyd Loom Wicker Woven Carriage, you buy the best not only in appearance, but in service and convenience as well.

Old Ivory or Blue Frosted Silver

Extra large size, graceful shape and curving beauty are at once noticeable in this Carriage. The unique tinsel edge adds a pleasing touch of distinction to this, our finest baby carriage. Cleaner Floors and Bigger Savings

For rooms that get the hardest use, there is no better wearing floor covering than durable Ward-o-leum Rugs. Thoroughly waterproof and made with a sturdy felt base, they will give you lasting, satisfactory service. And we are offering you these rugs in the newest patterns at just about half the usual retail price.

We went direct to a factory, famous for their strong, durable floor coverings and placed our order for thousands of these rugs. And we paid cash, which, of course, enabled the manufacturer to make us a special low price. We are giving our customers the benefit of this big saving.

Ward-o-leum Rugs are easy to clean. Just wipe them with a damp mop—grease and dirt can not penetrate the bright enamel-like surface. They lie flat on the floor and never curl at the edges.

In no other rugs will you get such lasting satisfaction for such a low price.

Genuine Linoleum Rug at A Big Saving

One of the biggest values we have ever offered—genuine Linoleum Rugs at less than the usual wholesale cost. You know that Linoleum Rugs—germproof and durable—make an ideal floor covering. But do you realize how inexpensively you can buy them? Our low price is several dollars less than you would expect to pay for rugs of this same quality. And remember, every rug is of the finest quality—perfect in every way. You are sure to want at least one of these fine rugs in your home.

Genuine Burlap Base

Just lay them on the floor—Linoleum Rugs lie flat without fastening and do not curl at the edges. The tough burlap base means long service and the thick layer of prepared cork over the burlap makes these rugs springy and almost noiseless to walk on. Easily cleaned by an occasional light mopping. The allover pattern comes in a very desirable color combination, suitable for dining room, bedroom or kitchen.

89¢ A Running Yard 6 Feet Wide
172 F 3750

Our Ward-o-leum and Linoleum are sold by the running yard. This means that for one yard of 6-foot width you get 2 square yards; one yard of 9-foot width, 3 square yards; one yard of 12-foot width, 4 square yards. Remember this when comparing prices.

Only because Ward-o-leum is our own product can we offer it to our customers at these low prices. Thousands of satisfied customers are using Ward-o-leum today, which is a certain indication that it meets the widespread demand for economy and quality. Made of dependable materials on a sanitary, waterproof felt base.

Our faith in its dependability is backed by the same policy which covers everything we sell—**Satisfaction Guaranteed or Your Money Back.**

To Lay. Spread material flat on the floor, allowing about ¼ inch on all sides for expanding. Cut it clear through—never attempt to tear it. Allow it to remain without tacking for about a week. You will have a smooth, neat floor covering that requires tacking only at the seams.

Super Ward-o-leum. An extra heavy grade Ward-o-leum. At this low price is a good investment, for its specially selected materials will give you long, continuous wear. When ordering, see table at bottom of page for amount required to cover your floor.

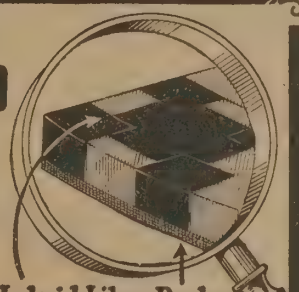
Descriptions of Linoleum pictured in colors on opposite page



Made by pressing a mixture of ground cork and oxidized linseed oil into the mesh of a strong, heavy burlap. This is then covered with several layers of wear resisting paint in various attractive patterns. This makes a very strong product that will give you long, satisfactory service. The surface is easily cleaned and kept in good condition. Linoleum makes your floors much quieter as the cork used in its construction is shock absorbing and does away with the usual noise of footsteps on wood floors. See table at bottom of page for amount required to cover your floor.

$2.10 A Running Yard 6 Feet Wide
172 F 4230

Inlaid Linoleum. Sold by the running yard. This means that for one yard of 6-foot width you get 2 square yards; one yard of 12-foot width, 4 square yards.

The superior quality of our Inlaid Linoleum makes price only a secondary consideration. Same construction as our printed linoleum illustrated above, except that the colors are put in during the manufacture—inlaid like tile—through to the burlap base, lasting as long as the linoleum. You can't wear them off. Made with the genuine burlap back, strong and durable. Comes in wide variety of patterns, appropriate for living room, bedroom and nursery as well as bathroom and kitchen. Will give excellent service. Our wide variety of patterns and colorings will enable you to choose a design that harmonizes with the decorations of any room. Makes not only a floor covering but a permanent and long lasting floor. When ordering, see table at bottom of page for amount required to cover your floor.

How To Order Carpets and Rugs of Special Size

We Furnish You Free Estimates

Absolutely free of charge, and without obligating you in any way, we will cheerfully estimate the cost of floor covering for any room in your home.

When Ordering Carpets

Follow These Simple Instructions

State exact size of room. Make a diagram to show the room and mark on it bay window, fireplace, and any offset or irregularities in the shape of the room, giving exact measurements of each. State whether you wish stripe to run the long or short way of room. Unless otherwise specified, we always cut carpet the long way of room. Allow about 1½ yards waste for matching pattern for every 25 yards of carpet.

Be Sure to Include Sewing Charges

For sewing Ingrain or Rag Carpet, add 3¢ per yard extra. For Velvet Carpet, add 4¢ per yard extra. When ordering hall runners made from stair carpet, allow three-quarters of a yard extra for mitering ends and $1.00 extra for sewing.

Use the Table Below

In case the size of your room is not given in this list, allow enough money for the next larger size. The necessary waste for matching is included. In case we use less, we will return the balance to you. We do all cutting, matching and sizing free of charge.

The Newest Ideas in Window Dress

THE very latest fashion in window arrangement is the use of these fringed Panel Curtains. It is correct as well as economical to hang just one of them alone; but if your windows are unusually wide, the use of two panels gives a better appearance. For group and odd size windows this attractive type of curtaining is now most popular.

To make your windows more bright and cheerful hang overdraperies at the top and sides of these curtains. It is easy to make draperies from the gay cretonnes, casement cloth and velours shown in this catalogue.

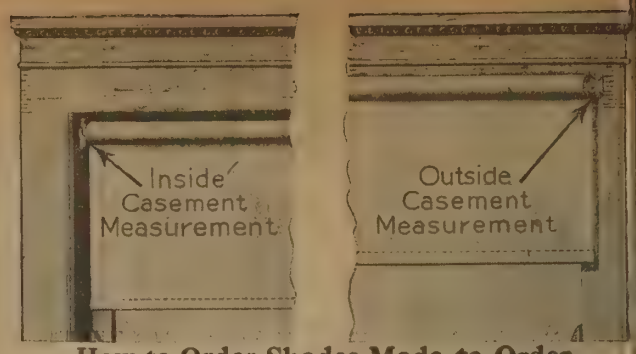
Window Shades that Wear Better and Last Longer

WHAT about your Window Shades? Look at them closely. Do they add to the attractiveness of your rooms, or are they limp and full of tiny cracks and pinholes? Do they roll easily and quietly, or do they stick, jerk and pull?



Attractive Window Shades Beautify Your Rooms

At surprisingly small cost you can put attractive, dependable Shades at your windows—shades that will not only look well, but wear well. Ward's shades are better shades. Do not judge them by shades usually selling at low prices. Our shades conform in every way to the usual Ward's standard of high quality and good workmanship. You can make selections from these two pages with the full assurance that your shades will give long and satisfactory service.

Better Quality—Wear Longer

Our Shades are good all the way through—not made for temporary good appearance, but for long time service. Only high quality shade cloth is used in their manufacture. The guaranteed rollers run in metal sockets, and are specially adjusted to run easily and noiselessly. A reserve spring adds at least one-third to the life of the roller. All moving parts are protected by a metal cap.

Don't try to economize by buying poor quality shades. Buy from Ward's—and you get best quality at a low price always.

How to Order Shades Made to Order

Be sure to state in your order whether you want your shades to hang on the **inside** or **outside** of the window casings.

When shades are wanted to hang on the **inside of the casing**, give measurement from tip to tip of roller, **including** the extreme tips of the iron ends—and ask for **inside** brackets. Do not measure with a cloth tape line.

When shades are wanted to hang on the **outside of the casing**, state the exact width of the shade cloth, and ask for **outside** brackets.

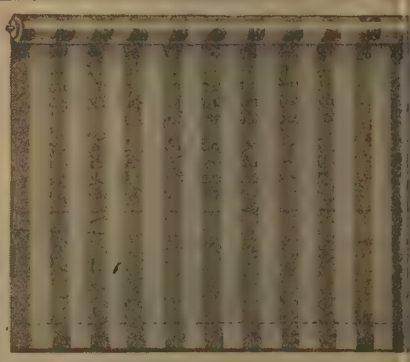
For **length** of shades, measure from top to bottom of window, and add 6 inches to allow easy raising and lowering. For inside width, measure at top of casing.

State color wanted. If you want your window shades to match in color, order them all of the same quality—as different qualities will show different colors since lighter weight cloth allows more light to pass through. For sizes larger than we have quoted, or for colors not listed, prices will be sent promptly on request.

Lettering. We letter shades for stores and offices in shaded gilt. Prices for lettering sent promptly on request.

When exact size wanted is not shown in table, allow price for next size given.

Oil Opaque Window Shades Made to Order



These firm texture shades will mellow glaring sunlight into soft, becoming tones. Their substantial quality prevents easy cracking. They are mounted on dustproof, self acting spring rollers and furnished with either inside or outside brackets, Neatly hemmed and finished. The prices include roller, slat, brackets and nails. All sizes up to 7 feet in length and 54 inches in width, in colors listed below, will be shipped at once. When ordering special sizes, allow 5 to 7 days after order reaches us.

COLORS: Dark green; olive green; buff, or white. **State color, width and length wanted; also whether inside or outside brackets are desired.**

The Secret of Good Housekeeping Is Proper Household Equipment

T. E. MALEY, *Manager*
House Furnishings Dept.

YOU know, as well as I do, how necessary it is to have good labor saving equipment for your housekeeping—tools that you can rely on to give you practical, everyday service—all the handy household helps you need. When you buy from Ward's big housefurnishings store, you can depend on getting exactly what you want. I make it my personal work to see that every article shown on these pages is sound, dependable merchandise—just the kind I would buy for my own home. I want you to feel that I am looking after your interests here at Ward's. You can look through these pages and say: "These are Ward's housefurnishings; so I know they are good." And you can say it with perfect assurance of having every expectation fully satisfied.

You Can Depend on Ward's Quality

Every article on these pages is tested by actual use before it is offered to our customers. Every article has to prove itself of practical value—has to measure up to Ward's usual standard of quality. To millions of customers throughout the country, the names you will find on these pages have come to stand for real worth—"Royal" on Aluminum; "Damascus" on Sewing Machines; "Wardway" on Vacuum Cleaners; "Windsor" on Refrigerators. They are marks of distinction and quality—like the word "Sterling" on silverware.

It is not low price that sells our goods—because merchandise can be made to sell at any price. We insist that every article we offer to our customers shall be good, dependable merchandise, first of all. If it is a question of a few cents more profit for us, or a little more quality for you, the quality wins every time. It is merit, worth, and practical value that sell our Housefurnishings. So we ask you not to judge the quality of our goods by our low prices. The quality is there always, regardless of how little or how much you pay.

You Receive the Benefit of Our Big Savings

We are able to offer you low price also, because of the way our business is organized. We always buy for cash, when the markets are most favorable; in large quantities, to supply the five million homes that we serve. That means we are able to get unusually low prices on almost everything we buy. Our own big factories enable us to keep down the cost of manufacturing. And we sell direct to you at one small profit, with this catalogue as our only salesman. All this means lower costs and bigger savings. It is a rule here at Ward's that such savings shall be passed on to our customers. You get the benefit of the buying economy made possible by our great business organization.

The Advantages of Shopping by Mail at Ward's

Beside the big savings, think of the wonderful convenience of shopping from this catalogue. Only the largest city department stores can begin to offer you the variety of household helps that are spread out before you right on these pages. You can sit in your favorite arm chair and select everything you need for your home, from a cookie cutter to the latest improved electric washer. You will find it a fascinating excursion to look through the Housefurnishing Section of this catalogue. You will see the many conveniences that science and the experience of other housekeepers have brought together to make your housework easier and more pleasant.

Ward's catalogue knows no closing hours. Shop whenever you like, take your time for comparisons — and remember: Our guarantee of "Satisfaction or Your Money Back" applies to everything we sell.

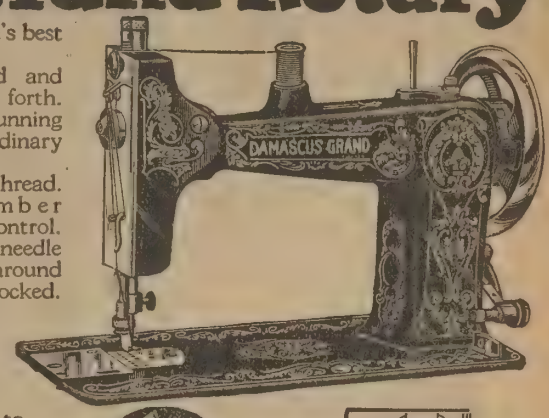
Sewing Stands

EACH of our Sewing Stands is sturdily built of a high grade, heavy Japanned cast iron, and is exactly the right height for comfort. Each machine is equipped with ball bearings, making it light running and quiet. The treadle is carefully adjusted to make it easy to run, and the large flywheel is provided with a belt retainer which prevents the belt slipping off the wheel when the machine is closed.

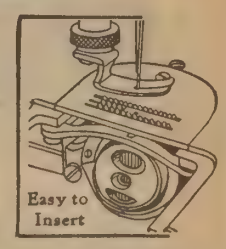
Sewing Machine Features That Give Service and Satisfaction



Machines Shown on Pages 408 to 411

ON this page you will find a description of the special features found on our Sewing Machines. Read the details carefully. They will help you decide which type of machine best suits your needs. Then turn to Pages 408–411 and select the Stand you prefer. We offer a variety of stands for each make of sewing head.

Damascus Grand Rotary



Six exclusive features make this machine Ward's best and most popular model.

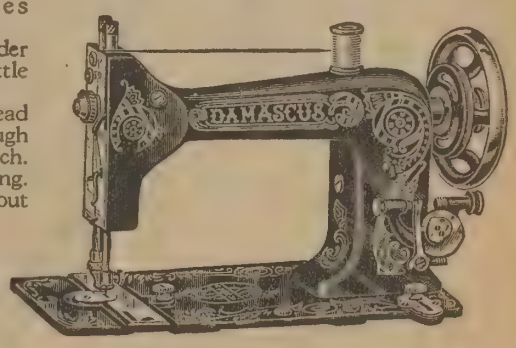
1. **Rotary Principle.** The bobbin case is round and moves in a continuous circle instead of back and forth. This Rotary principle makes a light, quiet running machine that sews one-third faster than any ordinary sewing machine.
2. **Automatic Tension** adjusts itself to any size thread. You may use any weight material or any number thread without giving a thought to the tension control.
3. **Strong 2-Thread Lockstitch.** Each time the needle goes through the cloth, the upper thread is passed around the bobbin, pulled up firmly, and the whole stitch locked.
4. **Stitch Size** is conveniently regulated by a small lever. You simply push it along a gauge and it stays—no danger of its working loose.
5. **Automatic Bobbin Winder.** It stops when the bobbin is full.
6. **Easy Action.** Best of materials, expertly put together and carefully adjusted.

Rotary Hook

Easy to Insert

The **Damascus Grand Rotary** is in every respect a well built machine, combining ease of operation with every possible device for convenience. Every machine is tested with both silk and cotton thread before it leaves our factory. Backed by Montgomery Ward & Co.'s 20-Year Guarantee against defects in material or workmanship.

Sewing machines equipped with the Damascus Grand Rotary Head are shown on Pages 409 and 411



Damascus Vibrating Shuttle

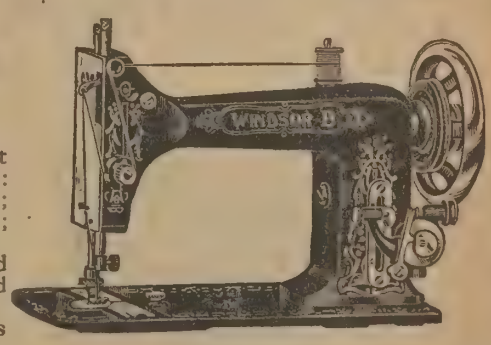
If you prefer a vibrating shuttle head, you can not find a better machine than the Damascus Vibrating Shuttle. It is sturdily built for long use, and skillfully made to give smooth, easy action. Exclusive Damascus features make it convenient and easy to use.

1. **The Vibrating Shuttle,** unlike the rotary, is cylinder shape and carries the bobbin back and forth. The shuttle is conveniently self threading.
2. **Lockstitch.** The needle carrying the upper thread dips with each stitch making a loop of thread through which the shuttle passes, and forms a secure lockstitch. Damascus take up draws it tight and prevents raveling.
3. **Automatic Tension** insures perfect stitching without changing tension for light or heavy weight thread.
4. **Stitch Length** is regulated by a simple thumbscrew near base of arm. A gauge indicates length of stitch being made.
5. **Improved Presser Foot** holds any weight material smooth, while the positive feed carries goods evenly under the needle.

All Damascus machines are carefully tested with both silk and cotton thread before leaving the factory. Fully guaranteed against defects in material or workmanship.

Sewing Machines equipped with Damascus Vibrating Heads are shown on Page 408

The Self Threading Cylinder Shuttle

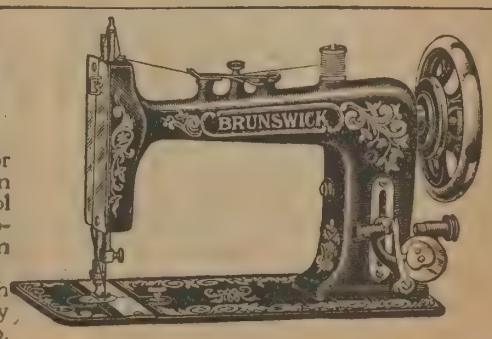


Windsor B Vibrating Shuttle

The Windsor B is an excellent, easy running machine at an attractively low price. Windsor B features include: Disc Tension; Handy Thumbscrew Stitch Regulator; Automatic Bobbin Winder; Automatic Tension Release; Self Setting Needle; Self Threading Shuttle.

All Windsor B machines are tested with both silk and cotton thread before leaving the factory. Fully guaranteed against defects in material or workmanship.

Cabinets equipped with Windsor B Sewing Heads are shown on Page 410.



Brunswick Vibrating Shuttle

The Brunswick will prove a dependable machine for general use. Brunswick features are: Automatic Bobbin Winder; Self Threading Shuttle Carrier; Tension Control conveniently located at top of sewing arm; Handy Thumbscrew Stitch Regulator in base of arm; easy Tension Release.

Each Brunswick machine is carefully tested with both silk and cotton thread before it leaves the factory. Fully guaranteed against defects in material or workmanship.

A Set of Greist Attachments for Making Dainty Trimmings, Ruffles and Tucks Is Included Free with Each Machine

Damascus Grand Rotary

YOU can not fail to appreciate the unusual value of a Damascus Grand Rotary at this price. The handsome case is made of richly grained, well seasoned Golden Oak; table and drawer frames of quarter sawed oak; front drop, side panels and top lid of built up stock, all carefully matched and highly polished. Convenient 18 inch measure on front of case. As you raise the lid the sewing head swings easily into position, and at the same time the front panel drops back, giving your knees ample space for sewing. The space under sewing arm is large and roomy. The four convenient drawers with attractive beveled edges and wooden knobs will hold sewing supplies. The Damascus Grand Rotary head insures perfect sewing service. Complete set of Greist Attachments included free with each machine. **For full description of sewing head, see Page 407.**

When the front drop is closed the Damascus looks like a cabinet.

Damascus Grand Rotary

THIS roomy Six-Drawer Model will appeal to the woman who wants the best of sewing machines and at the same time wants a case which will add to the appearance of the home. This is an unusually handsome model. Substantially built of well seasoned oak; table and drawer frames of quarter sawed; top lid, side panels and front drop of built-up stock. Finished in golden oak, highly polished. There could be no better choice than this Damascus Grand Rotary Model. Its swift, smooth action; the broad, well placed treadle; the sewing table at just the right height for comfort; all combine to make it possible for a seamstress to sew for hours without becoming tired, and to turn out perfect work. The convenient automatic lift brings the sewing head up with a single, easy motion and draws the front drop well out of the way of the knees. When the work is done, the sewing head is quickly lowered down into the case where it is protected from dirt and dust. The stand is firm and well braced. A complete set of Greist attachments included free with each machine **For full description of sewing head, see page 407.**

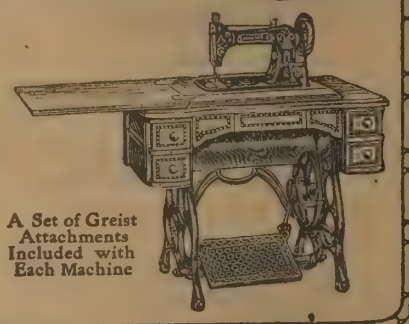
Windsor B Five-Drawer Model

$28.95

THE best way to judge the quality of a Sewing Machine is to sew with it. Our 90-day trial offer allows you to have this machine in your home and test it thoroughly for three months. During that time you may use it for any sewing you would do with the most expensive machine and see how quickly, easily and perfectly it performs the work. We want you to make this test—to convince yourself the Windsor B is all we claim for it. We want you to assure yourself that both case and sewing head are well made and well worth the low price asked. This five-drawer model case is substantially built of oak. The side panels are mortised and secured to the legs with iron clamps. The top lid is of genuine oak veneer, excellently finished. It will not warp. Finished in handsome dark golden oak. An accurate 18-inch measure is imprinted on sewing table, and convenient slots are in center drawer for holding extra bobbins.



A Complete Set of Greist Attachments Included

Although it is a less expensive model than our Damascus heads, it is made by sewing machine experts, and is carefully inspected and tested with both silk and cotton thread before it leaves the factory. It is backed by our 20-year guarantee against defects. Complete set of Greist attachments, included free. Shipping weight, 110 pounds.

SEW all day—if you like. Evening will find you still fresh if you let the Damascus Electric do the hard work. All you do is guide the stitching. The sturdy little motor operates the machine and relieves you of the tiresome pedaling. If you have electricity in your home, you will find this machine a great convenience and a remarkable time saver. You can do more and better work than you ever have done with a foot power machine, and with almost no effort. It is economical, too. You can sew for hours with only a few cents worth of electricity. This machine is equipped with our Damascus Grand Rotary Sewing Head fully described on Page 407. The electric motor is a high grade standard make and is conveniently attached to the Sewing Head. Just an easy pressure of your foot on the control pedal starts the motor and runs it as fast or as slowly as you wish, and the machine stops instantly when the pressure is removed.

Useful and Attractive Also

This attractive piece of furniture will give you double service. Open, it is the fast sewing, quiet running, Damascus Grand Rotary Sewing Machine. Closed, it is such a convenient and attractive table that you will be glad to have it in any room in your house.

The cabinet is built of quarter sawed Oak with a dull hand rubbed finish. The lid has the convenient automatic lift. There are pockets on the inner side of the door for attachments and patterns.

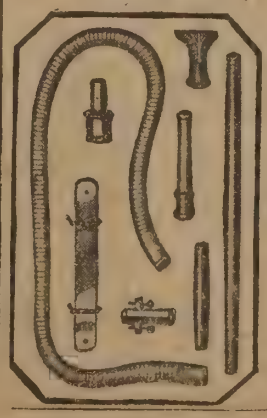
Wardway Electric Vacuum Cleaner

$5.00 Down



$30.95 Cash Price

A bigger value than ever. Our genuine Wardway Electric Vacuum Cleaner, with complete set of cleaning attachments included at no advance in price. So many customers have written us what a great convenience the attachments are in their work, that we have made special arrangements to include a full set with every cleaner. And we are doing it without a penny of extra cost to you. This means bigger value and added cleaning convenience. Use the attachments for cleaning draperies, couches, upholstered chairs, polished floors, all the small places that are so hard to clean. The powerful suction of the Wardway—stronger than that of any ordinary cleaner—lifts the nap and sucks up the deeply embedded grit as well as the surface dirt. A twist of the handle turns the current on or off.

The Wardway is made of cast aluminum with a dustproof bag and ebonized handle. A special thumb screw attachment raises or lowers the height of the nozzle and brush from the floor, for use with long or short nap rugs. The Universal motor is compact, sturdily built and has self-feeding oil wells. A fan attached to the motor prevents overheating. The Wardway may be used on either direct or alternating current of 100 to 130 volts, 60 cycles or less. There is 19½ feet of electric cord, complete with sockets, furnished with each Wardway. Shipping weight, complete with attachment, 20 pounds.

Helps that Make Cleaning Easier

98¢ Oil Mop Combination

Polishing and Dustless Mops with 12 ounces of Polish

A special combination Mop and Polish Set that every housekeeper needs. It is priced unusually low for such a complete set. There is a mop with which to dust the floor and one for polishing, and a 12-ounce bottle of polish. If floors are gone over several times a week with the dust mop and once a week with the polishing mop, they will always be kept in good condition. Frames of both mops are bound with cloth to prevent injury to woodwork. Three corner style makes it easy to clean in corners and the hinged handle keeps the mops flat on the floor. Mops may be washed and the polish mop re-oiled. Shipping weight, per set, 4½ pounds.

486 F 363—Per set.....98¢

Dustless Mop — 59¢

Long fiber cotton, chemically treated to pick up instead of spreading the dust. Three-corner style makes cleaning easy in out of the way places. Not treated with oil. May be washed with soap and water. Frame is bound to prevent injury to woodwork. Shipping weight, 2 pounds.

486 F 366.....59¢

Polishing Mop — 59¢

Renews the luster on linoleum or varnished floors. May be washed and renewed with polish. Three-corner style makes it easy to clean corners. Frame is cloth bound on edges to protect woodwork. Hinged handle keeps mop flat on the floor. Shipping weight, 2 pounds.

Our Standard Carpet Sweeper — $2.49

An easy running Carpet Sweeper priced low. The strong brushes loosen and sweep all the dust into two pans, which are easily emptied by pressing small levers at top. Oak finished metal case. Has braid-covered bumper to protect furniture and woodwork. All metal parts are nicely japanned. Rubber tired metal disc wheels. Small lever opens both dust pans at the same time. At this low price you make a great saving in the purchase of a good carpet sweeper. Shipping weight, 7 pounds.

486 F 861.....$2.49

Our Pride Vacuum Carpet Sweeper

$4.98

No brushes to get clogged with hair and lint. Our Pride Vacuum Sweeper is made on the bellows principle. Moving the sweeper back and forth produces a strong, even suction. Metal strip pushes up the nap of the rug and the suction of the bellows draws all the imbedded dirt into the dust bag. This is a hand operated Vacuum Sweeper—it requires no electricity. Just slide it over a rug or carpet and you will be surprised at the fresh, new look it gives them. Case is made of veneered wood finished like mahogany. Removable dust bag. Height, 00 inches. Shipping weight, 15 pounds.

Old Faithful $17.98

High Speed–Easy Motion

High Speed Ball Bearing Flywheel

Easy Rolling Casters

Wringer Not Included

When you wash with the Old Faithful, all you do is push a lever back and forth. No need of stooping over a wash tub and rubbing by hand. At every movement of the lever two curved washboards move in opposite directions, with the clothes between them. This motion washes the clothes spotlessly clean. As the dirt is loosened it settles into a separate chamber below the boards instead of being kept in the washing water. This dirt chamber is easily cleaned when the washing is done. The high speed ball bearing fly wheel is operated by cogwheels. The cogs are all protected for safety. Long double bearings make the machine easy to start and easy to run. Hardware and castings are galvanized to prevent rust.

You will find this reliable machine a big value at this price as well as a great labor saver.

Height, 30¾ inches. Length, 35 inches. Width, 20¼ inches. Capacity, 12 shirts. Shipping weight, 120 pounds.

Water Queen Power Washing Machine

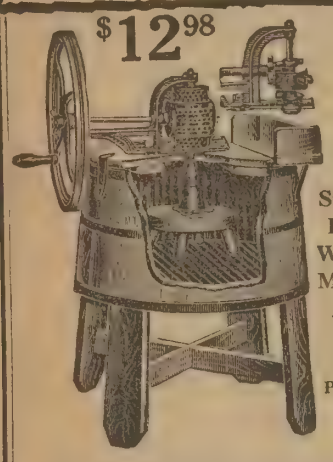
Equipped with Pulley for Attaching to Gasoline Engine

Can Be Operated by Hand

Washes on the Dolly Principle

Let the Water Queen do the hard work on washday. It is a thoroughly reliable power Machine, which may be run direct by gasoline engine or be connected with drive shaft. A belt shift makes it possible to throw the power on tight or loose pulley, or if desired, this machine may be operated by hand.

Washes on the Dolly Principle



Built on the dolly principle. The dolly mechanism swishes the clothes around with a circular motion, forces the water through them and takes out every particle of dirt. Tub is well made of southern cypress. Has strong sturdy wood base so there is no danger of tipping. A holdfast clamp holds cover to body of tub while washing. Handle for lifting lid. A handy wringer board makes it convenient and easy to wring clothes from machine to rinse water.

Guaranteed for 5 years against breakage (except through misuse). Inside of tub, 23½ inches at bottom, 19¾ inches at top, 12¼ inches deep. Equipped with 8-inch pulley to run 240 revolutions per minute. Shipping weight, 100 pounds.

How the Nu-Way Electric Washes Your Clothes

How the Nu-Way Washes Your Clothes

The action of the Nu-Way Washer very simple. There is absolutely thing to injure the most delicate garments—nothing to tear the clothes or wear them out. The Nu-Way does entirely by the action of rapid-whirling currents of hot suds, which solve away the dirt and leave your ches clean, fresh and unharmed.

No Waste Motion

The mechanism of this washer is such that the tub is always tilted at an angle. When the power is turned on, the tub tilts in a circle. It does not spin like a top; therefore no force is wasted—all the power is used to produce motion in the water and the clothes.

Pictures **Nos. 1, 2, 3 and 4** above illustrates in a very simple manner how the tub works. These four views show that it swings about in a complete circle, but that the tub itself does not revolve.

This simple yet complete motion produces the **perfect washing action.** The hot suds rushes and whirls through the clothes at a tremendous speed.

Three Figure 8 Movements

Pictures **Nos. 1 and 3** show the motion of the water. The tilting of the tub sends the water dashing from one side of the tub to the other, where it is caught and turned aside by the special wedge shaped plates. These plates send the suds whirling around in three complete figure 8 movements **—the nearest approach to hand rubbing we ever have seen.**

Complete Washing Action

It is easy to see what a thorough washing action this produces on your clothes. You know that the more friction you get between the clothes and the water, the more quickly they are washed spotlessly clean. These three figure 8 movements give the clothes **more washing action than any other electric washing machine made.** Three rapidly whirling currents of hot suds are hurled through the clothes **forty times every minute.** This forces out the dirt and leaves your garments snowy white. Yet there is no possibility of the clothes being harmed in any way.

Handy Swinging Wringer

Picture **No. 5** shows the wringer swung into position ready to wring the clean clothes out of the tub into the rinsing water. Notice that the high side of the tilting tub brings the clothes well up out of the water—no need to dip your hands into the hot suds. Wringer swings to three positions, making it easy to use with stationary tubs or tubs on benches

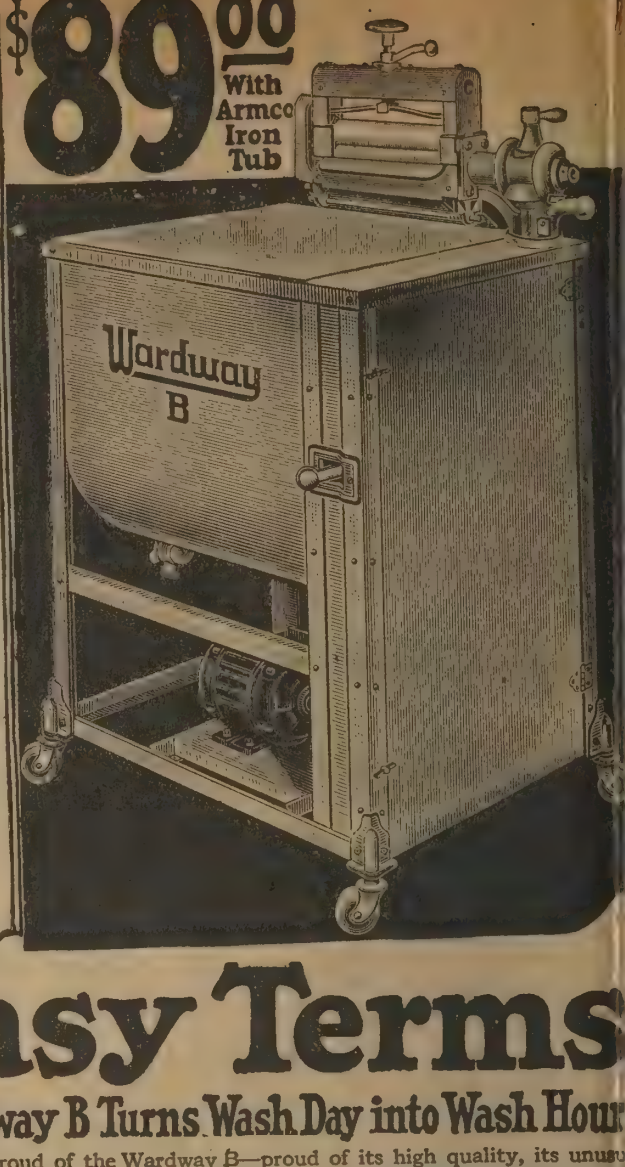
At Last—
The Washing Machine You Have Been Looking For



YOU have found it. Just the Washer you want, at a price far less than we thought was possible.

For years our experts have been on the lookout for better washers. They have tested literally hundreds of machines. We knew what our customers wanted—thoroughly high grade washing machines mechanically perfect, equipped with all the latest improvements and conveniences, yet simple and sturdily built for service. And we wanted to be able to give you all this at a cost far less than ever before had been possible.

At last we have found two machines—the Minnehaha B and the Wardway B. And we knew our search was ended. We had found the machines.

Expertly made in every detail, these washers combine to an unusual degree, quality, durablity and convenience. And we spared no effort to reduce the cost to the lowest possible figure. We are offering these washers to you today at an almost unheard of price for Electric Washing Machines of such high quality. We wanted these washers to be easily within the reach of all our customers. And they are. You can not afford to be without one now.

The Minnehaha B Electric—Well Known Figure 8 Action

Monday morning—the dread of thousands of housekeepers who wash by hand. But suppose you are using the Minnehaha B Electric Washer. Monday's washing is reduced to an hour or two of comfortable activity.

Attach the washer to the nearest electric light socket and put the clothes in the machine with plenty of soap flakes and hot water. A touch of the button and the machine begins its work, smoothly and almost noiselessly. The Minnehaha B tosses the clothes back and forth, sending through them again and again swirls of hot soapy water. Gently but quickly every particle of dirt is removed.

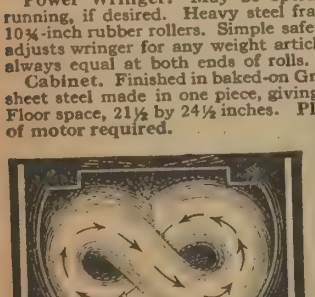
After fifteen or twenty minutes, press the button again and the machine stops. Your clothes are snowy white and spotless—much cleaner than if you had rubbed them by hand a whole hour. The dirt has settled to the bottom and all the work has been done by machinery while you were busy with other tasks.

Now you are ready to wring the clothes into the first rinse water. Just press the conveniently placed lever and the wringer starts working. Simply guide the clothes—the wringer does the hard work that has given women backaches for years. You can operate both tub and wringer at once if you wish, going ahead with one batch of clothes while another batch is being washed. No need for loss of time. Your washing is finished before you know it and your clothes are on the line.

A Minnehaha B Electric Washer in your home means: No evening backache from Monday morning's washing.

A Washer One Minute—a Table the Next

The removable cover of the tub is flat and may be used as a table when washer is not in use. The wringer folds out of the way under the cover. Special Minnehaha B casters—made of solid rubber, are steel bound. Very easy running. Machine rolls and slides without marring floor. Casters are self-oiling and squeakproof.



The construction of the Minnehaha B is simple. It washes on the oscillating principle. The copper tub rests on a cradle which swings back and forth. Fifty-eight times per minute a perfect figure "8" of hot soapy water sweeps through the tossing garments, loosening every particle of dirt. In a few minutes you can remove the clothes from the washer, spotlessly clean.

Tub. Capacity, 6 sheets or 12 shirts, or their equivalent. Made from heavy sheet copper, tinned on the inside. Non-rusting and easy to clean. Slanting side of tub gives added strength and makes it splashproof.

Motor. Splashproof ½ H.P. motor of standard make. Machines are carried in stock equipped with 110-volt 60-cycle alternating current motors. We can supply other voltage motors at an extra cost of $4.00.

Power Wringer. May be operated at same time washer is running, if desired. Heavy steel frame with self oiling bearings; 10¾-inch rubber rollers. Simple safety release. Automatic tension adjusts wringer for any weight article put through wringer, and is always equal at both ends of rolls.

Cabinet. Finished in baked-on Gray Enamel. Frame. Heavy sheet steel made in one piece, giving great strength and durability. Floor space, 21½ by 24½ inches. Please be sure to state voltage of motor required.

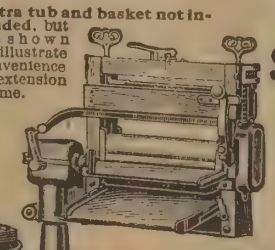
Tired of Washing?
Let a Machine Do the Hard Work
The Improved Triumph Electric Washer

A very smooth running, practically noiseless copper tub Washer at a price within the reach of all. We are truly proud to offer a value so great as the Improved Triumph. It cleanses thoroughly and quickly, the clothes coming out clean and unharmed—ready for rinsing. The Dolly mechanism swirls the clothes around in the corrugated tub forcing the soapy water through every fiber of the cloth, and loosening every particle of dirt. While you are rinsing and wringing out one tub of clothes, more can be put in the washer.



The Improved Triumph Washer works right with you—it does all the hard work for just a few cents.

The gears are steel cut and run in grease, but are entirely enclosed. There is no danger of clothes being soiled.

You will find the Triumph is not only economical to purchase, but equally economical to operate. An entire tubful of clothes may be washed in 10 to 15 minutes at the cost of only a few cents of electricity. Corrugated Copper Tub is tinned on the inside—it is impossible for it to rust and soil the clothes. The corrugations on the sides not only add to its good washing qualities, but give it additional strength. A Bronze Faucet is conveniently placed at the side of the tub for draining. **Swinging Wringer** is driven by electricity and may be used at the same time as the tub or separately. The extra large 12-inch rollers will wring the heaviest bedspread as well as the lightest fabrics. A special lever permits the wringer to be swung and locked in any desirable position. Has an extra wide reversible drainboard. **Steel Extension Frame** holds two extra tubs and wash basket. When not in use, the frame may be folded against the side and the entire machine takes up no more space than an ordinary wash tub.

If you know the cost of the average copper tub electric washing machine, you will appreciate the wonderful value we offer in the Improved Triumph Washer.

Extra tub and basket not included, but are shown to illustrate convenience of extension frame.

Wringer Swings in Any Direction

Platform Holds Two Extra Tubs and a Wash Basket

The rustless galvanized iron vacuum cup is set in motion as soon as the lid is closed, and stops when it is opened. Produces a positive, cleansing current that removes every particle of dirt and can not harm the most delicate fabrics.

Thuro washes clothes by the vacuum method in about one-fourth the usual time. Has folding frame which holds two tubs and swinging wringer with safety clutch.

Tub is of best water resisting Southern Cypress, corrugated inside. This feature increases the rubbing surface and produces greater agitation. The vacuum cups produce a gentle yet powerful force which literally sucks up the dirt, at the same time rotating the garments through the soapy water. You can trust your daintiest apparel to the Thuro without danger of harm; yet heavy pieces are washed equally well. Has special screw plug water drain with rubber hose attachment for emptying tub. Every improvement has been included to make the Thuro a real wash day convenience.

It Pays to Buy A Good Refrigerator

A Windsor Refrigerator Costs Less Money Uses Less Ice and Saves More Food

Ten Walls of Insulation maintain an even, low temperature and will cut down your ice bills.

Continuous Circulation of air keeps your food fresh and makes the refrigerator absolutely sanitary.

Sanitary Drain of solid copper, nickel plated. Can not rust and is easily removed for cleaning.

Rounded Corners provide no lurking places for grease or particles of food. Easy to clean.

Removable Ice Rack insures perfect drainage. Of non-corroding galvanized iron. Is readily removed.

These special Windsor features are included in both refrigerators listed below.

No need to waste good food. No need for big ice bills either. A Windsor Refrigerator will keep your food fresh and sweet and actually reduce your ice bills.

You know how hard it is to keep meat, milk and butter fresh. Perhaps you keep them cool in the cellar or in an ice chest or ordinary refrigerator. But you realize these are only makeshifts.

You want a refrigerator that w keep your food fresh and who some as well as cool—a refrige tor that is as sanitary as the chi dishes on your table. In oth words, you want a good refrig ator. That is why you will the Windsor, for the Windsor everything that a good refrige tor should be, yet it is moder in cost.

Cuts Down Your Ice Bills

First of all, the Windsor does more than keep your food cool. It sends a constant current of cold, dry air over and around the food. There is no damp, stagnant air—even crackers and pastry keep fresh and crisp. The ice compartment has a special false bottom.

When the air below the ice gets very cold and heavy, it sinks through this bottom to the food compartment below. See illustration. This forces the warmer air up through the refrigerator, through the flue at the top and back to the ice compartment to be purified and cooled. All the impurities are taken out of the air as it passes over the ice— pure, cold air is sent through the food c partments. Because of its special const tion, the Windsor does all this with a small amount of ice. If you have been u an ordinary refrigerator, you will be prised how greatly the Windsor will down your ice bills. The small illustr shows the ten walls of insulation that out the warm outside air and keep the i air cool without wasting the ice. The fitting doors have double trip locks w work easily and quietly and hold the d snugly to the frame.

Easy to Keep Clean

Another feature—the Windsor is as easy to clean as a china dish. The roomy food compartments are made entirely in one piece of sanitary porcelain or white enamel with all corners perfectly rounded. No possible hiding place for particles of food or germs. The doorsill and floor of the refrigerator are on a level to make cleaning easier. The adjustable shelves are heavily retinned and may be easily removed. The removable ice rack, of heavy, non-corroding galvanized iron, insures perfect drainage. The copper waste pipe and drain are n plated and can easily be taken out for clean

Let us send you a Windsor now. Pro yourself in your own home that a good frigerator is a real saving. And remem you run no risk in ordering a Windsor you are not entirely satisfied—if you are convinced that the Windsor is a better frigerator for less money—return it to Ward's guarantee absolutely protects y

Seamless White Porcelain Lined

The food compartments are lined with heavy white porcelain coated sheet steel. No seams or crevices, no possible lurking places for particles of food or grease. Thoroughly sanitary and one of the best wearing finishes it is possible to make. Will last for years. Case is of ash, thoroughly air seasoned and finished in Golden Oak. Rounded corners and raised panels add to the attractive appearance of the case. Heavy nickel plated locks and hinges are both strong and good looking. When selecting your refrigerator, it is wise to choose as large a size as your needs require. Be sure to allow for enough open space in your refrigerator, after it is filled. Your food will keep better and you will use less ice.

Windsor Steam Pressure Cooker

Cooks Your Meals—Cans Fruit and Vegetables

Canning your surplus fruit and vegetables with a Windsor Steam Pressure Cooker will save you time and fuel and assure perfect results. Just "cold pack" the fruit or vegetables and place them in the cooker over an ordinary flame. A wood, coal, oil or gas stove may be used with equally good results. A book of instructions included with the cooker gives tested recipes and complete directions including length of time needed.

For everyday cooking, too, the Windsor will prove a real time and money saver. An entire meal—meat, vegetables and desert—may be cooked over one flame in half an hour. No odors escape and the flavors do not blend. Requires no attention—food can not stick, scorch or burn. A steam gauge and petcock regulate pressure automatically and provide an outlet for steam. Made of heavy polished cast aluminum. Complete with cast aluminum meat rack, two aluminum pans and pan with perforated bottom.

Automaid Portable Fireless Cooker

Use It At Home or When Motoring or Camping

Put your uncooked meat and vegetables into the Automaid, along with the heated soapstones. Then go about your other work or go "out" for the day. Forget all about dinner. When dinner time comes everything will be cooked perfectly. The Automaid roasts, bakes and boils. Meats are tender and juicy, baked beans thoroughly well done and mealy, vegetables tender and whole. All the flavor is retained for none of the nourishing juices are lost. Pie and cake baked in the Automaid are delicious—crisp and a delicate brown. And the Automaid uses almost no fuel. The few minutes necessary to heat the soapstones are all that are needed to cook an entire meal. The Automaid fits into a small space and is very handy for motor picnics or camping. Made entirely of metal. Aluminum lined. Strongly built and compact. Easy to clean. Has safety valve in cover. Height, 15½ inches, diameter, 12½ inches. Complete with 6-quart and 3-quart covered aluminum vessel, 2 soapstone discs, 2 steel book ing rack. Book of tested recipes include cooker. Shipping weight, 42 pounds.

Pay Less—Buy the Wardway

$1.49

We Recommend It Highly

This is the highest quality Food Chopper we are able to offer you. So confident are we of its merits, we have placed our own name Wardway upon it, which in itself is a guarantee of quality. Through our great buying organization we were able to secure a large quantity of these Choppers at an exceedingly low price and are passing the saving on to you. You save when you buy the Wardway and you save when you use it. Food that would otherwise be wasted may be chopped up and made into nutritious, appetizing dishes.

Cuts Meat, Vegetables or Eggs

The Wardway does not tear or mash food, but cuts it coarse, medium or fine according to cutter used. It is easy to use—just attach to any table or sink, insert the desired cutter and it is ready. A few easy turns and meat, vegetables or eggs are chopped evenly to any size desired, and the work is done in about ⅓ the time required by the old way with chopping bowl and chopper. The Wardway is made throughout of heavy gray cast iron heavily tinned to prevent rusting. Complete with four cutters: coarse, medium and fine and a nut grinder.

86 F 1918—Small size. Diameter across top of hopper, 3⅜ by 2⅝ inches. Chops 2 pounds of meat a minute. Shipping weight, 6 pounds.....**$1.49**

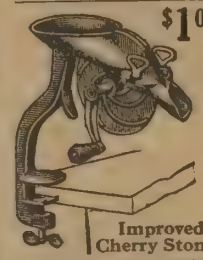
Necessities for Preserving

Water Seal Steam Canner For Cold Pack Canning

Holds Four 1-Quart Jars

THE COMPLETE SET



Preserves fruit by the cold pack process in less time than by ordinary methods. First, the wire tray is put into the pail in about two inches of water. The cold packed jars with the caps loosely in place, are put on the rack; the air chamber cylinder is then slipped over the jars and rack, forced down into the water and locked into position by means of the wire locking brace. It is then ready to place on the fire for steaming.

Each canner is composed of three parts, as shown in small illustration. The pail and cylinder are coated with very durable gray enamel. Wire rack is rustproof. A complete time table, with directions for use included. Jars not included. Shipping weight, per set, 8 pounds.

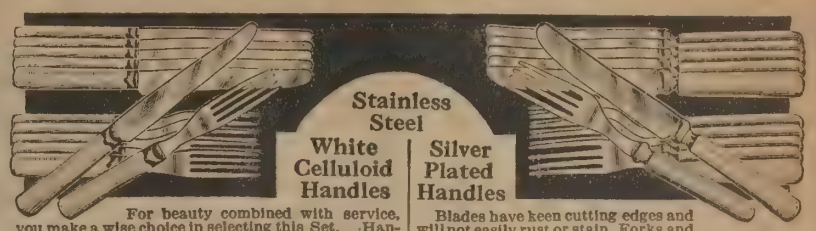
Household Butter Churn
99¢



Easy to Clean

Two pounds of delicious milk charged butter may be made by adding a pint of milk to a pound of butter and churning the mixture for about three minutes. The two larger sizes have a special drain in top permitting buttermilk to be drained off and butter to be washed in churn; also for beating eggs and whipping cream. The farmer who sells most of his cream and makes just enough butter for his own use will find this a great help. It takes up a small space and does the work efficiently and quickly. Very sanitary and easy to keep clean. Top screws off. The opening at top is large enough to allow hand to enter and clean. Heavy glass jar with aluminum dasher. Handle on side makes it easy for operator to hold jar on table. The gears turn quietly.

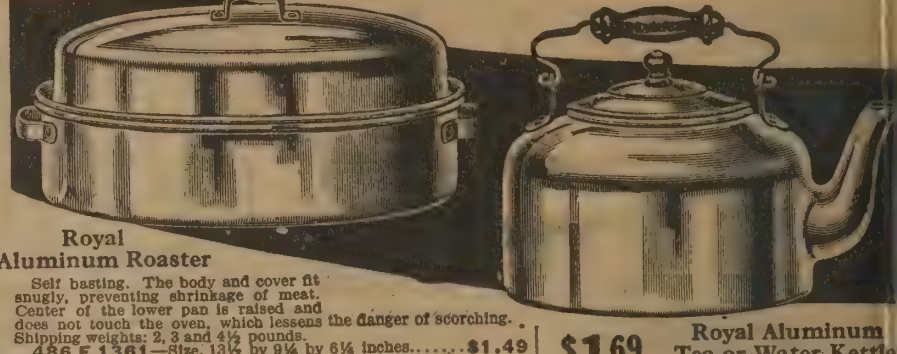
WARD'S ROYAL

The Mark That Stands for the Best in Aluminum Ware

When a woman sees the Royal trade mark on a piece of aluminum, she knows it is what she wants. Royal Aluminum Ware has made a name for itself in quality, appearance and price.

No Seams—Rounded Corners



1 Entirely free from seams and sharp corners. There is no place for dirt and grease to lodge. For this reason they are most sanitary and can be cleaned quickly, easily and thoroughly.

Lock Handles

2 On Royal Aluminum Ware the ears to which handles are fastened have notches which prevent handle from dropping to side of kettle and becoming uncomfortably hot. This also prevents the handle from scorching.

You Will Always Be Glad You Bought Royal Aluminum

Housekeepers appreciate Royal Aluminum Ware because no other kitchen utensils seem to be so easy to take care of—look so well or last so long

Royal Aluminum Roaster

Self basting. The body and cover fit snugly, preventing shrinkage of meat. Center of the lower pan is raised and does not touch the oven, which lessens the danger of scorching. Shipping weights: 2, 3 and 4½ pounds.
